New Milford’s Mission Statement

The mission of the New Milford Public Schools, a collaborative partnership of students, educators, family and community, is to prepare each and every student to compete and excel in an ever-changing world, embrace challenges with vigor, respect and appreciate the worth of every human being, and contribute to society by providing effective instruction and dynamic curriculum, offering a wide range of valuable experiences, and inspiring students to pursue their dreams and aspirations.
Keyboarding

Keyboarding is a half-year credit (.5) course in which students learn to type with accuracy and speed using the touch method with key covers. Students learn to proofread, detect, and correct errors while typing letters and manuscripts. Tutorial software is used throughout the course. Students will also be introduced to basic Microsoft Office programs like: Word, Excel, and PowerPoint.

## New Milford Public Schools

### Committee Member(s):
Kristie O’Neill & Daryl Daniels  
Unit 1: Alphabetic Keyboard & Skill Builder

### Course/Subject: Keyboarding  
Grade Level: 9-12  
# of Weeks: 8-10

### Identify Desired Results

#### Common Core Standards
- RST4: Determine the meaning of symbols, key terms, and other domain specific words and phrases as they are used in a specific or technical context relevant to grades 9-10 and 11-12
- RST9: Synthesize information from a range of sources (e.g., texts, experiments, simulations) into a coherent understanding of a process, phenomenon, or concept, resolving conflicting information when possible.

### Enduring Understandings

<table>
<thead>
<tr>
<th>Generalizations of desired understanding via essential questions (Students will understand that …)</th>
<th>Essential Questions Inquiry used to explore generalizations</th>
</tr>
</thead>
</table>
| Proper technique will improve your ability to use the keyboard and reduce fatigue.  
Proper use of a computer keyboard creates more productive time and use of a computer.  
Information technology are skills necessary for lifelong learning  
Professional business behavior is essential for success in the business world. | What are proper keyboarding techniques?  
How will learning to properly use a keyboard help me?  
Why do I need to learn information technology for my future?  
How will my professional business behavior affect my career? |

### Expected Performances

**What students should know and be able to do**

**Students will know the following:**
- Proper techniques for using a keyboard to increase productivity  
- Responsibilities of each finger when using proper technique  
- Proper seating and hand positioning  
- Terms related to keyboarding  
- The importance of Information technology in today’s world  
- The importance of professional business behavior

**Students will be able to do the following:**
- Demonstrate the proper techniques necessary for the operation of the keyboard.
- Recall proper care of keyboarding equipment.
- Demonstrate correct finger placement on home row keys.
- Show evidence of their completion of Microtype 4’s Alphabetic Keyboarding lessons
- Use all keys introduced through the Alphabetic Keyboarding lessons properly without looking at the keyboard.
- Behave in class according to workplace standards for an entry-level office position of employment

**Character Attributes**

- Integrity
- Honesty
- Responsibility

These attributes will be discussed and analyzed as part of daily instruction and as part of discussions regarding ethical business practices.

**Technology Competencies**

- Students evaluate the accuracy and quality of their online work.
- Students use technology tools to enhance learning, increase productivity and promote creativity
- Students practice responsible use of technology systems, information and software

**Develop Teaching and Learning Plan**

**Teaching Strategies:**
- Teacher discusses necessary techniques to be followed when using a keyboard.
- Teacher presents software videos and lessons to be viewed and completed by students.
- Teacher provides verbal direction of keys
- Teacher modeling proper seating and hand positioning
- Teacher modeling professional business conduct

**Learning Activities:**
- Students will identify techniques associated with best practices for using a keyboard.
- Students will implement positive keyboarding techniques.
- Students will work cooperatively to evaluate their peers and themselves in regard to use of proper keyboarding techniques.
## Assessments

<td>Will learning to use the shift key with number keys to incorporate the use of symbols help me be more productive?</td>
</tr>
</tbody>
</table>

### Expected Performances

What students should know and be able to do

**Students will know the following:**
- Proper techniques for using a keyboard to increase productivity
- Responsibilities of each finger when inserting numbers and symbols

**Students will be able to do the following:**
- Show evidence of their completion of Microtype 4’s Numeric Keyboarding lessons
- Use all keys introduced through the Numeric Keyboarding lessons properly without looking at the keyboard
- Demonstrate touch method to alphanumerical keys/symbols.
- Key words, phrases, sentences, and paragraphs.
### Character Attribute(s)
- Integrity
- Honesty
- Responsibility

### Technology Competencies
- Students use technology tools to enhance learning, increase productivity and promote creativity
- Students practice responsible use of technology and software

## Develop Teaching and Learning Plan

### Teaching Strategies:
- Teacher will share software videos and lessons to be viewed and completed by students.
- Teacher will provide a verbal direction of keys
- Teacher will model the appropriate use of keys
- Teacher will arrange students in pairs for peer evaluation and feedback.

### Learning Activities:
- Students identify techniques associated with best practices for inserting numbers and symbols using the alphabetic “Home Row”.
- Students implement positive keyboarding techniques.
- Students evaluated their peers and selves in regard to use of proper keyboarding techniques.

## Assessments

### Performance Task(s)
| Authentic application to evaluate student achievement of desired results designed according to GRASPS (one per marking period) |

**Goal:** Effectively compare the products and tools students used to gain keyboarding skills (Microtype, typing web, Nitrotype, etc.)

**Role:** Evaluator – member of team

**Audience:** Teachers

**Situation:** Students will collaborate to analyze and compare keyboarding software and techniques used throughout their time building their keyboarding skills. Recommendation will be made for future use of these tools.

**Product or Performance:** Students will create professional appearing word-processed document presenting their conclusions.

**Standards for Success:** School wide

### Other Evidence
- Observations made of students during their time working with the keyboarding software
- Completion of the Numeric Keyboard Lessons
- Accuracy Assessments
- Timed Writings
- Business Department Professional Attitude Rubric.
- Self-Evaluations
- Peer Evaluations
rubrics. General rubrics for word-processed and spreadsheet files.

# Identify Desired Results

## Common Core State Standards

- WHST.9-10.6 – Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology’s capacity to link to other information and to display information flexibly and dynamically.
- WHST.11-12.4 – Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.
- RST.9-10.3 – Follow precisely a complex multistep procedure when carrying out experiments, taking measurements, or performing technical tasks, attending to special cases or exceptions defined in a text.

## Enduring Understandings

- Generalizations of desired understanding via essential questions (Students will understand that…)
  - Word Processors are used for a multitude of functions.
  - Technological terms, including those relating to word processing are useful and commonly used.
  - MLA Format is one of the most common structures for organizing a paper in academic writing.
  - Block Format is the most commonly used Business Letter format.

## Essential Questions

- Inquiry used to explore generalizations
  - How can the use of a word processor improve one’s ability to communicate?
  - What can be produced through the use of a word processor?
  - How will word processor knowledge help me in high school, in college and beyond?
  - Why is it important to know how to write a letter in block format?

## Expected Performances

What students should know and be able to do

- Students will know the following:
  - Word Processing Basics
  - Common tasks in word processing
  - How to use word processing software to create MLA and Business letter documents.

- Students will be able to do the following:
  - Open, close, save and create new files within Microsoft Word
  - Insert page breaks, format a document’s margins, spacing and alignment in
Microsoft Word
- Check for errors using the spelling and grammar tool
- Identify parts of the ribbon/toolbar
- Format and create their own MLA document
- Format and create their own Business Letter in Block format

<table>
<thead>

<table>
<thead>
<tr>
<th>Technology Competencies</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use various input technologies to enter and manipulate information appropriately</td>
</tr>
<tr>
<td>Use input technology skills to enter and manipulate text and data</td>
</tr>
</tbody>
</table>

Teaching Strategies:
- Teacher provides software videos and lessons to be viewed and completed by students.
- Teacher models introduction of Microsoft Word
- Teacher models step-by-step word processing tasks via digital projection technology and detailed instructions
- Teacher models the creation of Word Documents on smart board
- Teacher puts students in pairs to peer teach and while learning new skills.
- Teacher provides a variety of independent, open ended word processing activities where students will have to use available resources to figure out how to accomplish specific tasks

Learning Activities:
- Students identify common controls within the ribbon/toolbar through teacher demonstrations as well as with guided tutorials in order to produce business related documents.
- Students create unique documents based on a given rubric that are comprised of elements and tasks associated with word processing such as: spell check, modifying page layouts, and working with tabs and hanging indents
- Students complete accuracy and speed keyboarding games and simulations
- Using a real world focus to apply the unit skills, students create documents that will benefit their everyday lives
### Assessments

</tbody>
</table>

### Enduring Understandings

**Generalizations of desired understanding via essential questions**

(Student will understand that …)

<table>
<thead>
<tr>
<th>Essential Questions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inquiry used to explore generalizations</td>
</tr>
</tbody>
</table>

- Spreadsheets are used for a variety of functions.
- Technological terms, including those relating to EXCEL and spreadsheets are commonly used and useful.
- Spreadsheets can help us to analyze and understand data in a different way.

**How can the use of a spreadsheet improve one’s ability to communicate?**

- What can be produced through the use of a spreadsheet?
- How will spreadsheet knowledge help me in high school, in college and beyond?
- Why is it important to know how to create a spreadsheet?
- How can I use spreadsheets in a future career or in my personal life?

### Expected Performances

**What students should know and be able to do**

- Students will know the following:
  - Spreadsheets can be manipulated to give specific information
  - Spreadsheets can be used to search for a given criteria
  - Spreadsheets can be used to create basic and complex formulas
  - Spreadsheets can be used to create a variety of graphs and charts
Students will be able to do the following:

- Open, close, save and create new spreadsheets within EXCEL
- Insert data into EXCEL
- Format data in EXCEL so that it is easy to read and visually appealing
- Sort data in a table for various purposes
- Use data to create graphs and charts
- Identify parts of the ribbon/toolbar
- Format and create their own Excel spreadsheet

<table>

**Learning Activities:**

- Students identify common controls within the ribbon/toolbar through teacher demonstrations as well as with guided tutorials in order to produce business related spreadsheets.
- Students create unique documents based on a given rubric that are comprised of elements and tasks associated with spreadsheets such as: formatting cells, using borders, effective shading, basic formulas and filtering their data.
- Students complete accuracy and speed keyboarding games and simulations
- Using a real world focus to apply the unit skills, students create documents that will benefit their everyday lives
| Assessments |
|---------------------------------|---------------------------------|
| **Performance Task(s)**          | **Other Evidence**              |
| Authentic application to evaluate student achievement of desired results designed according to GRASPS (one per marking period) | Application that is functional in a classroom context to evaluate student achievement of desired results |

**Goal:** Compose, recreate, improve, and successfully present student generated word processed and spreadsheet files

**Role:** Student

**Audience:** Board of Education

**Situation:** Student presents their work as a portfolio using MS Office applications with the goal to be approved by the Board of Education for course credit.

**Product or Performance:** Portfolio (PowerPoint slideshow) connecting via hyperlinks the student’s activities and assignments that will include business letters, reports, MLA formatted work cited pages, tables, spreadsheets with charts.

**Standards for Success:** School wide rubrics. General rubrics for word processed and spreadsheet files.

- Observations made of students during their time working with the EXCEL
- Completion of several spreadsheets in EXCEL
- Business Department Professional Attitude Rubric.
- Self and Peer Evaluations
