

**School District of Newberry County**

**Grounds Maintenance**

**RFP #- OPS 2012-002**

**Addendum # 1- Issued 4/2/12**

**1. What is the contracted price for the SDNC grounds maintenance?**

The most recent 12 month contract (2009-2010) was in the amount of \$225,079.98. As discussed in the pre-proposal meeting the present 10 month contract which was negotiated due to budget constraints is in the amount of \$187,566.66.

**The current RFP is for a 12 month contract.**

**2. What type of equipment can be used to top dress the athletic fields?**

The expectation is that the successful bidder will use equipment with turf tires which uses an industry standard spreading device that, when filled to capacity, holds a maximum load which will NOT damage or create ruts/tread marks in the turf.

The SDNC will not specify a certain brand/type of equipment but will be required in advance to approve the type of spreading equipment the successful proposer plans to use.
