THE SCHOOL DISTRICT OF NEWBERRY COUNTY
ORGANIZATIONAL CHART

November 25, 2013

**BOARD OF TRUSTEES AND CITIZENS
THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

State law requires that all school districts publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted accounting standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of The School District of Newberry County (the District) for the fiscal year ended June 30, 2013.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of The School District of Newberry County has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, The School District of Newberry County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The School District of Newberry County's financial statements have been audited by Greene, Finney, and Horton, LLP, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2013, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that The School District of Newberry County's financial statements for the fiscal year ended June 30, 2013, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of The School District of Newberry County was a part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the single audit section of this comprehensive annual financial report.

Generally Accepted Accounting Principles (GAAP) of the United States of America requires that the School District's management provide a narrative introduction, overview, and Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of our independent auditor.

GENERAL INFORMATION ABOUT THE DISTRICT

The School District of Newberry County carries on a tradition of education dating back nearly to the county's founding in 1798. Since the 1800's, education has been a priority of the citizens of Newberry County, through public and private schools, the most prominent being Newberry College, founded in 1856. The County's public school district was consolidated on February 27, 1952, from seven existing school districts. Newberry County has 13 public schools today.

The District is coterminous with Newberry County, which is located in the western portion of the State of South Carolina and has a land area of 630 square miles. Approximately 54,000 acres located in the northeastern portion of the County are within the Sumter National Forest. It is one of the oldest counties in the State, having been created by the division of the old Ninety Six District in 1798. Newberry County is bounded on the north by Union County, on the east by Fairfield and Richland Counties, on the south by Lexington and Saluda Counties and on the west by Greenwood and Laurens Counties.

A seven member Board of Trustees elected by the voters in single-member Districts establishes programs and policies of The School District of Newberry County. Board members are elected to four-year terms. Regular Board meetings are held on the fourth Monday of each month and are open to the public. The day-to-day administration of the District is the responsibility of the Superintendent, who is appointed by the Board of Trustees.

The School District of Newberry County Board of Education (Board) is the basic level of government, which has financial accountability, and control over all activities related to the public school education in the county of Newberry. The Board receives funding from local, state, and federal government sources and must comply with the mandated requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined by the GASB pronouncement, since Board members are elected by the public and have decision making authority, the authority to levy taxes up to four mills over the prior year's millage plus inflation, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters. In addition, there are no discretely presented component units as defined in Governmental Accounting Standards Board Statement 14, which are included in the District's reporting entity.

The School District of Newberry County provides a broad spectrum of elementary and secondary programs to meet the needs of its diverse student population of 5717 students. These programs complement each other to provide a total program that is both comprehensive and highly cost-effective. Our current emphasis is on planning for the transition of our instructional content in English language arts and mathematics to the Common Core State Standards. The district has an active District Design Team that has laid out a plan for teacher planning and implementation over the next three years. In addition, the state academic standards for social studies have recently been revised and the science standards are undergoing major revisions that reflect the national science standards.

A balanced, literacy approach to reading instruction is provided to elementary students which is boosting reading scores in grades 3-8. A district literacy plan was developed by practitioners and shared with the entire district. Academic advancement and enrichment are provided for academically gifted and talented students in grades 3-5 through "pullout classes" where thematic units of instruction are presented primarily through the social studies area from a newly developed curriculum specifically designed for these students. Honors Algebra 1 is offered to accelerated 7th and 8th grade students. Honors English 1 is offered to accelerated 8th grade students. High schools offer a variety of high level and honors level courses in addition to Advanced Placement courses in Chemistry, Calculus, English, Biology, European History, and U.S. History. All high schools offer SAT/ACT preparation classes for all students. Dual credit opportunities are available through Piedmont Technical College. During the summer of 2006 the district began the implementation of content recovery for high school students who have been unsuccessful in earning Carnegie units. This technology based program permits students to successfully complete coursework and has manifested a significant improvement in our graduation rates; our district on-time graduation rate was 74%, with two of our three high schools surpassing 80%. The district is fully implementing the Economic and Education Development Act and supports 13 of the 16 national clusters at the high schools and career center.

In addition to the regular curriculum offerings in the fine and performing arts, additional opportunities for artistically talented students in band, chorus, vocal performance, drama, and visual arts are provided via district grants to teachers/schools. Students are also provided opportunities to attend programs at the Newberry Opera House.

Child development classes provide preschool education experiences for four-year old children who need an intervention program to prepare them for school. The District also has full day programs for four-year olds in four schools. The District offers a Montessori program for preschool children aged three through five, lower elementary for grades one through three and upper elementary for grades four and five in three of our elementary schools. In grades 1-12, academic assistance is provided to students who need more instruction or re-teaching of the language arts and mathematics skills.

The District has a “Welcome First Baby” program that offers parents home visits. The Parenting and Family Literacy program has joint efforts with 11 other local agencies, and includes an Early Intervention Education Center. The Parenting and Family Literacy Program provides a monthly newsletter in English and Spanish with valuable tips and information for parents of young children. Through community collaboration of the First Steps initiative, we have expanded services to the families of preschool children in an effort to ensure school readiness and successful school experiences throughout the county.

Special Education programs are provided for all students who need them, regardless of the disabling condition, with special transportation provided where needed. Resource, inclusion, and self-contained models are utilized across the District. The District has an employability diploma program designed to ensure that our students with disabilities will leave high school with the skills necessary for successful employment and citizenship. Middle and high schools also offer transition services, which provide an interface between school and work for students needing these services. Homebound instruction is provided for students when needed.

An alternative program is in place for students in grades 6 through 12 who demonstrate behavioral problems, which significantly interfere with their achievement as well as the achievement of their peers. All middle and high schools within the district can avail themselves of the programs in order to provide comprehensive instructional services for these students experiencing difficulties.

Students at all levels are exposed to technology, as a way to prepare for the future. Important skills being taught are keyboarding and computer literacy, as well as ways to access information in an automated library. More than 960 high school students are enrolled at the Newberry County Career Center. Students may receive credit in exploratory technology courses or may specialize in multiple course sequences in Business Education and Marketing Education, as well as courses in Computer-Aided Drafting, Agriculture, Project Lead the Way (pre-engineering), and Health Occupations. Dual credit courses are available through Piedmont Technical College for college preparatory and career and technology education students.

The District has a Work-Based Learning/Transition program. With help from industries who have agreed to support the program with shadowing, mentoring and internships, the Work-based Learning/Transition program has been very successful.

The School District of Newberry County Board of Education approved and submitted to the South Carolina State Department of Education their District Strategic Plan in April 2013. The plan was designed with the input of over 70 stakeholders, to guide teachers and school administrators in their day-to-day interaction with students. Many of the previously mentioned programs are a direct result of the District’s goal of meeting the expectations of each performance goal. That plan expires 2018 and we will be developing a new strategic plan.

The District has pursued accreditation through the Southern Association of Colleges and Schools for all schools. As of the spring of 2005 all schools and the Career Center have been accredited by this nationally recognized accreditation entity. All middle and high schools are affiliated with the Southern Regional Education Board as High Schools That Work and Making Middle Grades Work sites. Beginning in the 2007-08 school year the district began the process of acquiring district-wide accreditation through AdvancEd (a part of the Southern Association of Colleges and Schools). This process was completed in November, 2008 and the district was awarded this coveted district accreditation. The district began preparation for a return visit for accreditation during the 2012-13 school year. The AdvancED team will visit the district and schools December 2013 to secure an additional five year accreditation.

The School District of Newberry County funds the Newberry Adult Education Program to provide educational services to uneducated or undereducated adults in the county. The program offers: 1) courses to obtain a State High School diploma; 2) GED preparation classes; 3) courses in adult basic education for improvement in reading, writing and math skills; 4) classes for non-English speaking persons to learn to read and write the English Language; 5) and workplace training programs. The Newberry Adult Education Program graduated 48 adults with either a State High School diploma or GED in the 2012-13 school year. The program has received awards from the State Department of Education for its successful rate of students passing the GED. The program collaborates with other agencies in the county such as the Department of Social Services, Vocational Rehabilitation, Employment Security Commission, First Steps and many others to serve undereducated adults throughout the county. The program offers day and night classes in Newberry and night classes in Whitmire.

The School District of Newberry County achieved many educational successes during the 2012-2013 school year, and certainly of great importance to the district and our community is that the under the federal accountability system all but one of our schools received a letter grade of C or above, and the district received a C rating. In addition, within the state accountability system the school district improved the absolute rating from Average to Excellent and our growth rating also improved from Good to Excellent. We are one of 11 districts in the state to achieve an Excellent rating in both absolute and growth ratings.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which The School District of Newberry County operates.

Local Economy. The City of Newberry is the largest incorporated municipality located within Newberry County. There are eight smaller municipalities for a total population of 37,508, according to the 2010 census data. Agriculture is the oldest and most basic industry in Newberry County. The importance of agriculture to Newberry County is best illustrated by the fact that, according to the 2007 addition of South Carolina Agriculture Statistics, Newberry County continues to rank 1st in total milk production, 1st in total egg production, and is ranked 8th in total farm income in the state, with agriculture income totaling \$84,259,000 annually. In addition, Newberry County had 633 farms and 103,570 acres of land dedicated to agricultural pursuits.

Manufacturing as well as agriculture is an important source of employment for the residents of Newberry County. As is the instance of many of the other counties in the Piedmont section of the State, Newberry County developed a heavily textile-oriented economy. However, with the construction of numerous manufacturing plants within the last twenty years, the economic base of Newberry County has expanded and has become diversified.

Newberry County first used a 1% sales tax increase passed in 1998 to upgrade its infrastructure for water and sewer services in an effort to attract more industry. This 1% tax was for a seven-year period. In November, 2004, as well as recently in November 2010, the county voted to continue the 1% sales tax for another seven year period. The main focus of the newest Capital Projects sales tax was a new campus for the Newberry location of Piedmont Technical College which opened in January 2013 and has over 700 credit students in attendance. In addition, the 1% tax offers Newberry County a great opportunity to update existing infrastructure and buildings, as well as create new Emergency, Historical, Infrastructure, Institutional, and Recreational facilities throughout the County. The selected projects are very well distributed geographically and are sure to positively impact all of the citizens within Newberry County for generations to come. Projects are proposed in each of Newberry County's seven (7) Council Districts and will provide wide spread benefits to the communities and citizens of Newberry County.

Newberry County's largest employee, Kraft Foods announced an approximately 1000 job, \$115 million expansion in 2007. Since then they have grown their workforce from approximately 1500 people to 2,700. Jobs at Oscar Mayer have attracted a substantial Hispanic work force, introducing Newberry County to a bilingual population. To address the diversity of needs of the Hispanic population, the District has employed nine English-as-a-Second-Language teachers, and several schools are teaching their faculties Spanish. Kiswire Inc., a maker of steel cord for the tire industry, announced an expansion of its manufacturing operations in Newberry County in January 2013. The first phase will involve a \$15 million investment that is expected to generate 30 new jobs.

Unemployment in the county at June 2013 was 8.1%, a decrease of 1.59% from June 2012. There is some out-migration of labor, as the county adjoins Richland and Lexington counties. In-migration has been noted also, as residents seeking lower home costs and taxes have taken a look at Newberry County.

Commuting is accomplished along I-26, which runs the length of Newberry County. Major roads are U.S. Highways 76, 34, 219 and 121, with numerous state highways. Industries use rail services by all general carload freight lines. The Newberry Airport is two miles north of the city, and there are two airports with commercial service within 60 miles of Newberry.

An extensive renovation of the Newberry Opera House built in 1882 was completed in 1998. During the 1998-99 inaugural season, the Opera House hosted many different attractions including Broadway shows, dance companies, country music stars, operas and many cultural events. A new 78-room hotel located near the Opera House, The Hampton Inn, opened in March of 2002. The Opera House continues to host community events, festivals, and shows.

Newberry College provides a liberal arts education to about 1100 students, in an environment sponsored by the Lutheran church. Some of its courses are provided to college-bound Newberry School District students. Newberry College has a fully accredited Education Department. The newest project for the college is the Oakland Mill Project.

This is a \$15 million renovation of a former textile mill into dormitory space for Newberry College and future market rate apartments. Phase one of dorm space opened in August 2011 with final phases completed in the summer of 2013. Piedmont Technical College, based in Greenwood, offers degree courses and community-interest classes in its Newberry campus. Piedmont Tech has dual-credit programs with the District.

The county continues to have one of the highest per capita percentages of senior citizens among South Carolina counties. Services for senior citizens are provided through the Newberry County Council on Aging and the Dave C. Waldrop Senior Citizens Center. Two nursing homes serve Newberry. One of the facilities has an Alzheimer's unit and an assisted living center called Springfield Place, which recently expanded to add additional apartment units and homes.

The Newberry County Memorial Hospital, a 102-bed facility with 24-hour emergency room physician coverage, began major renovations in FY 2000. The first and completed \$13.425 million expansion project included a fully operational, larger, more efficient emergency room and a new radiology center with added diagnostic capabilities including a new MRI system. Other recent improvements have included a new medical office building, an expanded Wellness Center and full oncology services.

Many of the counties' retirees are teachers, and they have a local association. Volunteers from the senior citizens and retirees' population assist with mentoring and Lunch Pals programs in many schools. Law enforcement officers regularly visit the schools for lunch, to provide a link between the community and the students. The officers work in conjunction with six School Resource Officers, employed by the Newberry County Sheriff's Office. Business personnel and student athletes from Newberry College also serve as Lunch Pals.

Long-term financial planning. In FY 2007-2008, the Board of Trustees approved a fund balance policy stating that the District must maintain not less than 10% of the annual general fund operating budget as a fund balance from one year to the next. The District has maintained that balance for the 2013 fiscal year at a rate of 25% of 2013 budgeted expenditures.

As evidenced by the financial statements contained in this report, capital projects are one of the main areas of focus in financial planning for the District. In May of 2005, the Board of Trustees approved a list of approximately \$77,500,000 in capital needs, the result of a prioritization process of more than \$122,000,000 in overall capital needs identified in an independent study completed in December of 2004. After careful study of funding alternatives, the Board authorized the formation of Newberry Investing in Children's Education, a non-profit corporation which assisted the District in the formulation of an Installment Purchase plan, whereby the District has leased the applicable buildings to the Corporation for the purpose of capital improvements, and is in the process of purchasing them back utilizing General Obligation debt over a 25- or 26-year period, allowing the District to leverage its constitutional debt limit to complete the capital needs within a five-year construction cycle. As of June 30, 2012, the District has completed construction and renovations for all projects that were a part of the 2005 capital needs program. The District now accommodates all students in permanent facilities, with a reasonable margin for future growth. The District plans are to continue monitoring growth through demographic studies to continue to maintain its Capital Needs Improvement Plan. This plan is reviewed and updated annually. Projects which will enhance the instructional program are completed as revenue permits. Input is provided from various sources as we review our capital needs. Current capital projects include renovations and additions at the Newberry County Career Center and construction has begun on a new administrative office.

The Energy Conservation program has been in place since 2004 and has averaged a total of \$2,500,000 in cost savings since that time. The Energy Conservation Program is closely reviewed to identify potential problems with energy usage and system malfunctions. In May of 2013 the School District of Newberry was awarded the Energy Milestone Achievement Award by the South Carolina Energy Office. This award recognized our Energy Conservation Plan and the fact that our school district has reduced energy consumption by a total of 20% as compared with FY 2000 levels.

MAJOR INITIATIVES

The School District of Newberry County seeks to provide opportunities for successful lifelong learning through the implementation of a comprehensive plan to acquire and integrate technology, access and utilize information effectively, extend the learning environment for all and prepare productive citizens for our community and a global society. To be able to fully accomplish this goal, The District has in place a plan of action that addresses the five Technology Dimensions as laid out by the SC Educational Technology Plan.

The five Technology Dimensions are as follows:

- Technology Dimension 1: Learners and Their Environment**
- Technology Dimension 2: Professional Capacity**
- Technology Dimension 3: Instructional Capacity**
- Technology Dimension 4: Community Connections**
- Technology Dimension 5: Support Capacity**

Learners and Their Environment; Students, teachers and staff must have access to the technology. Once the technology is available, there are three simultaneous areas for further implementation.

Professional, Instructional, and Support Capacity; There is the need for appropriate use of the technology in curriculum and instruction. This will be accomplished through training, and support.

Community Connections; As the resources of the school grow, and families become more adept at using technology, there is the need to open the school resources to home use.

Support Capacity; As the technology becomes more important in the learning, teaching, and operating function of the school, there is an urgent need to keep the systems (hardware and software) in top operating condition. Maintenance, repair and consistent funding for upgrades become a critical part of the process at this point.

These five dimensions form the basis for the district technology plan. This plan is not definitive, but simply a guide; a guide that can lead The School District of Newberry County into the next decade and beyond.

During the 2012-2013 school year continued progress was made in the technology arena. As well as updating our technology plan, a district wide computer refresh program was completed at all elementary schools. 100% of core curriculum classes have interactive white boards. Voice over IP phones have been installed at all campuses and in all District Offices. IP camera systems have now been installed in all of our schools. Schools and teachers increased their use and creation of classroom websites. Infrastructure upgrades continue to take place to help maintain our network in top operating condition. To enhance this process the district installed new Windows based servers at all locations to facilitate the migration from Novell to Windows based servers. Bandwidth has been increased from 20mb to 100mg. All elementary level computers were repalced through the distrit computer refresh program. We recently completed a district wide migration to Windows based services. The District has also contracted with School InSites to provide webhosting throughout the District.

BUDGETARY CONTROLS

Activities of the General Fund are included in the appropriated budget. The Special Revenue Fund is comprised of individual budgets based on contractual agreements or grants. The Debt Service Fund, the Enterprise Fund, and the Capital Projects Fund are not formally budgeted. The District also has a blended component unit: Newberry Investing in Children's Education (N.I.C.E.). Budgetary controls are used to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Trustees. Object and activity within each individual fund account through an encumbrance accounting system establish the level of budgetary control at which expenditures should not exceed the appropriated amount. Estimated purchase amounts establish the encumbrance prior to the release of purchase orders to vendors. Purchase orders, which result in an overrun at the object level, are not released until additional appropriations are made available. The Chief Financial Officer is authorized to administer the budget and may approve the transfer of appropriated funds within and between the departments/programs as necessary to achieve the goals of the budget. All transfers made within the general fund are reported to the Board. Also, when necessary, the board may approve the hiring of additional personnel during the year in order to accommodate student counts in certain areas or may approve capital purchases as deemed necessary with the available general fund balance. When this happens, the budget is not amended to reflect the additional expenditures. For these reasons, there may be instances where budgeted figures will be less than actual expenditures.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility of sound financial management.

CERTIFICATE OF ACHIEVEMENT/EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting and The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting. These Certificates are prestigious national awards recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such comprehensive annual financial reports must satisfy both generally accepted accounting principles and applicable legal requirements.

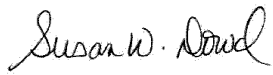

A Certificate of Achievement/Excellence is valid for a period of one year only. A Certificate of Achievement for Excellence in Financial Reporting was awarded by GFOA and a Certificate of Excellence in Financial Reporting was awarded by ASBO to The School District of Newberry County for its sixteenth comprehensive annual financial report for fiscal year ended June 30, 2012. We believe our current report continues to conform to the Certificate of Achievement/Excellence program requirements, and we are submitting it to GFOA and ASBO.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the staff of the Office of Finance. We would like to express our appreciation to all members of the Office of Finance who assisted in the timely closing of the District’s financial records and the preparation of this report. We thank them along with the other District departments for their assistance in the presentation and preparation of data for this report.

Respectfully submitted,

Bennie Bennett

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
The School District of Newberry County
Newberry, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of The School District of Newberry County, South Carolina (the "School District"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of The School District of Newberry County, South Carolina, as of June 30, 2013, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note IV.G to the financial statements, the School District has elected to change its policy for accounting and reporting its food service operations from an enterprise fund to a governmental fund. Our opinion is not modified with respect to that matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and budgetary comparison schedule for the General Fund, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The supplementary information, the schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, the introductory section, and the statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 25, 2013 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

This discussion and analysis of The School District of Newberry County's (the "School District") financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, the financial statements and the notes to the financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2013 are as follows:

- The assets of the School District exceeded its liabilities at the close of the most recent fiscal year by \$69.6 million. Of this amount, \$12.6 million may be used to meet the School District's ongoing obligations to citizens and creditors.
- The School District's total net position increased by \$1.3 million.
- As of the close of the current fiscal year, the School District's governmental funds reported combined ending fund balances of \$31.6 million, a decrease of \$2.1 million from the prior year fund balance. The General Fund increased \$1.05 million. Approximately 35% of the total amount, or \$11.2 million, is unassigned and available for spending at the government's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$11.2 million, which was approximately 26% of total General Fund expenditures. The total fund balance for the General Fund was \$11.9 million, which includes \$0.6 million assigned for fiscal year 2014's budgeted shortfall.
- During the 2013 fiscal year, the School District's governmental fund revenues were \$65.9 million, compared to \$62.9 million in the prior year. This increase is primarily due to higher revenues from the State of South Carolina and higher property taxes. The School District's governmental fund expenditures were \$68.0 million, compared to \$67.5 million in the prior year.
- NICE was established in 2005 as a nonprofit corporation and was organized primarily to construct and renovate school facilities for the use of the School District and to encourage and promote public education. Although NICE is a legally separate entity, it is controlled by the School District as all members of its board are appointed by the School District. Accordingly, NICE is reflected as a blended component unit of the School District and the financial information of NICE is reflected in individual debt service and capital project funds in the financial statements.
- The School District's total capital assets increased by \$0.4 million (0.4%) during the current fiscal year to \$115.9 million, as additions of \$3.9 million were partially offset by depreciation expense of \$3.5 million.
- The School District's total outstanding debt decreased from \$81.6 million at June 30, 2012 to \$78.5 million at June 30, 2013.
- The School District converted its food service activities from an enterprise fund to a special revenue fund, effective July 1, 2012. This change in accounting principle resulted in an adjustment to beginning fund balance of \$307,300 for this fund, representing the net book value of capital assets for food service equipment, as capital assets are not reported in governmental funds. On its government-wide financial statements, the School District recognized a corresponding increase to beginning net position for governmental activities, as it no longer reports any business-type activities. There was no change in total net position for the School District as a result of this change.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – *Introductory Section*, *Financial Section*, (which includes management's discussion and analysis, the financial statements, and the combining and individual fund schedules), *Statistical Section*, and the *Compliance Section*.

Government-Wide Financial Statements. The financial statements include two kinds of statements that present different views of the School District. The first two statements are *government-wide financial statements* that provide a broad overview of the School District's overall financial status, in a manner similar to a private-sector enterprise.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

The *Statement of Net Position* presents information on all of the School District's assets, deferred outflows (if any), liabilities, and deferred inflows (if any), with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, for some items, revenues and expenses are reported in this statement that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the School District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the School District include instruction, supporting services, community services, intergovernmental and interest and fiscal charges. The School District does not report any business-type activities.

Fund Financial Statements. The remaining financial statements are *fund financial statements* that focus on *individual parts* of the School District, reporting the School District's operations in *more detail* than the government-wide statements.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. All of the funds of the School District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The School District maintains six individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Special Revenue Fund, Special Revenue – Education Improvement Act ("EIA") Fund, Special Revenue – Food Service Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered to be major funds. In addition, NICE's Capital Projects Fund and Debt Service Fund are also major funds and therefore shown in separate columns.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the School District's own programs. The School District is the trustee, or fiduciary, for the pupil activities of the schools and accounts for these activities in an agency fund.

NEWBERRY, SOUTH CAROLINA**

MANAGEMENT’S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. The combining and individual fund schedules referred to earlier in connection with governmental funds can be found as listed in the table of contents of this report.

The School District has a legally adopted budget only for its General Fund. A budgetary comparison schedule for this fund has been provided in the required supplementary information to demonstrate compliance with its budget.

The government-wide financial statements, the fund financial statements, the notes to the financial statements, and other information can be found as listed in the table of contents.

Major Features of the School District’s Government-Wide and Fund Financial Statements			
	Fund Financial Statements		
	Government-Wide Financial Statements	Governmental Funds	Fiduciary Fund
Scope	Entire School District (except fiduciary funds)	The activities of the School District that are not proprietary or fiduciary	Instances in which the School District is the trustee/agent for someone else’s resources
Required Financial Statements	<ul style="list-style-type: none"> ▪ Statement of Net Position ▪ Statement of Activities 	<ul style="list-style-type: none"> ▪ Balance Sheet ▪ Statement of Revenues, Expenditures, and Changes in Fund Balances 	<ul style="list-style-type: none"> ▪ Statement of Fiduciary Assets and Liabilities
Accounting and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting
Type of Asset/Liability Information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used and liabilities that come due during the year or soon, thereafter; no capital assets included	All assets and liabilities, both short-term and long-term
Type of Inflow/Outflow Information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the School District, assets exceeded liabilities by \$69.6 million and \$68.2 million at the close of the current and prior fiscal year.

The following table provides a summary of the School District's net position as of June 30, 2013 compared to June 30, 2012:

Net Position - Governmental Activities

	<u>2013</u>	<u>2012 *</u>
Assets		
Current and Other Assets	\$ 40,562,451	\$ 43,401,209
Capital Assets (Net)	115,873,330	115,459,777
Total Assets	<u>156,435,781</u>	<u>158,860,986</u>
Liabilities		
Other Liabilities	7,779,399	8,320,550
Long Term Liabilities	79,071,588	82,303,431
Total Liabilities	<u>86,850,987</u>	<u>90,623,981</u>
Net Position		
Net Investment in Capital Assets	49,626,844	49,419,826
Restricted	7,345,835	7,836,273
Unrestricted	12,612,115	10,980,906
Total Net Position	<u>\$ 69,584,794</u>	<u>\$ 68,237,005</u>

* 2012 amounts have been adjusted to reflect Food Service balances in governmental activities. See Note IV.G in the Notes to the Financial Statements for information on adjusted balances.

Current and other assets decreased \$2.8 million primarily due to an increase in restricted cash for debt service payments and capital outlay expenditures; this was partially offset by an increase in capital assets of \$0.4 million. Long term liabilities decreased \$3.2 due primarily to principal payments on outstanding indebtedness.

The School District's government-wide net position increased approximately \$1.3 million (0.4%) during 2013. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, was \$12.6 million at June 30, 2013, an increase of \$1.6 million.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-wide Financial Analysis (Continued)

Governmental Activities: Net position for Governmental Activities increased \$1.3 million from the previous year, compared to an increase of \$0.3 million in 2012. Key elements are as follows:

- Total revenues increased \$2.7 million (4.3%), which is primarily attributed to higher operating grant revenues from the State of South Carolina.
- Total expenses increased \$1.6 million (2.5%), which is primarily attributed to higher instruction expenses of approximately \$0.9 million and higher support service expenses of approximately \$0.8 million, partially offset by lower interest expenses of \$0.1 million. The increase is due to higher expenditures in all categories: salaries, benefits, purchased services, and supplies and materials.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The analysis of governmental funds serve the purpose of looking at what resources came into the funds, how they were spent and what is available for future expenditures. Did the government generate enough revenue to pay for current obligations? What is available for spending at the end of the year?

For the year ended June 30, 2013, the School District's governmental funds reported a *combined* fund balance of \$31.6 million, compared to \$33.7 million for the prior year. The decrease of \$2.1 million is primarily attributable to expenditures in the Capital Projects Fund (net decrease of \$1.8 million) and the utilization of \$1.7 million in excess NICE Capital Project funds for debt service, partially offset by \$1.1 million increase to the General Fund and \$0.8 million increase in the Special Revenue Funds, as revenues exceeded expenditures. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At June 30, 2013, the School District's unassigned fund balance was \$11.2 million, which solely represents the General Fund. \$0.6 million is assigned for fiscal year 2014's budgeted shortfall. The Special Revenue Funds, which includes \$2.1 million for Food Services) had a fund balance of \$2.8 million. The remainder of fund balance for governmental funds, approximately \$16.9 million, is restricted primarily for Capital Projects for the School District's building plans (\$8.9 million) and Debt Service (\$8.0 million).

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (CONTINUED)

Governmental Funds (Continued)

The General Fund is the chief operating fund of the School District. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$11.2 million, and the total fund balance was \$11.9 million. The fund balance for the School District's General Fund increased by \$1.1 million, or approximately 9.7%, during the current fiscal year, compared to an increase of \$0.9 million in the prior year. The current year increase is due to higher than anticipated state revenues.

The Debt Service Funds are used to account for the accumulation of funds for debt retirement. The fund balance for the School District's Debt Service Fund was \$0.1 million at June 30, 2013, a decrease of \$0.5 million due to debt service payments. In addition, the School District issued a short-term General Obligation Bond for \$1.8 million in May 2013; this debt is still outstanding at June 30, 2013. As this debt is scheduled to be repaid in March 2014, which is less than one year after its issuance, it is reflected on the Debt Service Fund's balance sheet as a short-term obligation, as required by generally accepted accounting principles. The fund balance for the NICE Debt Service Fund did not change, remaining at \$7.9 million, as required principal and interest payments on outstanding debt were offset by a transfers from the District's Debt Service Fund and the NICE Capital Projects Fund and interest earned on restricted cash.

Two Capital Projects funds are utilized as well to segregate NICE capital project expenditures from School District capital project expenditures. The School District's Capital Projects Fund was \$8.3 million at the end of the year, with a decrease of \$1.8 million as transfers from other funds of \$2.4 million were exceeded by expenditures of \$4.2 million. The NICE Capital Projects Fund decreased \$1.7 million from the prior year to \$0.6 million. The NICE capital program was basically completed during fiscal 2012, and the School District intends on using the remaining funds to repay outstanding principal on the NICE Installment Purchase Revenue Bonds, as permitted by the bond documents. During fiscal 2013, the NICE Capital Projects Fund transferred \$1.7 million to the NICE Debt Service Fund.

General Fund Budgetary Highlights

The School District's budget is prepared according to South Carolina law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During the course of the 2013 fiscal year, there were no amendments to the School District's General Fund expenditure or revenue budgets. Actual revenues came in higher than budget by \$1,354 thousand, due to higher amounts received from the State of South Carolina, combined with higher property tax revenues. Actual expenditures were less than budget by \$286 thousand due to lower than anticipated expenditures in purchased services, energy, and supplies and materials.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2013, the School District had \$115.9 million invested in capital assets, net of depreciation.

The total increase in the School District's investment in capital assets was \$0.4 million, or 0.4%, as additions of \$3.9 million exceeded depreciation of \$3.5 million. Major capital asset additions during the current fiscal year included:

- Upgrades and renovations at Newberry High School
- Construction on the new District Office

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

CAPITAL ASSET AND DEBT ADMINISTRATION (CONTINUED)

Capital Assets (Continued)

The following table shows the capital asset balances as of June 30, 2013 compared to June 30, 2012:

	2013	2012 *
Capital Assets		
Land	\$ 2,101,497	\$ 1,923,500
Construction in Progress	1,174,458	527,537
Buildings, Improvements, and Equipment	152,491,684	149,376,428
Less Accumulated Depreciation	(39,894,309)	(36,367,688)
Capital Assets, Net	<u>\$ 115,873,330</u>	<u>\$ 115,459,777</u>

* 2012 amounts have been adjusted to reflect Food Service balances in governmental activities. See Note IV.G in the Notes to the Financial Statements for information on adjusted balances.

More detailed information about the School District's capital assets can be found in Note III in the Notes to the Financial Statements.

Debt Administration

The School District (including its blended component unit – NICE) had \$76.6 million in Installment Purchase Revenue Bonds (“IPR”) outstanding as shown in the table below. The IPR bonds were issued in October 2006 to finance the costs of acquiring, constructing, renovating, and installing education facilities to be sold by NICE to the School District pursuant to a School Facilities Purchase and Occupancy Agreement. The School District issued a \$7.6 million General Obligation Bond in October 2011 and repaid \$6.2 million of this bond as scheduled in March 2012. The remaining outstanding balance of \$1.4 million was repaid in March 2013. The School District also issued a \$1.8 million short-term General Obligation Bond in May 2013; this indebtedness is scheduled to be repaid in March 2014. The School District made principal payments on long-term indebtedness totaling \$3.1 million during 2013. In addition, the School District had a non-interest bearing note payable due to the SC Energy Office in the amount of \$23 thousand, to be repaid over two more years.

The following table shows the outstanding debt balances as of June 30, 2012 compared to June 30, 2011:

	2013	2012
NICE Series 2005 IPR Bonds	\$ 76,630,000	\$ 78,300,000
GO Bond, Series 2011	-	1,420,000
Go Bond, Series 2012A	-	1,867,000
GO Bond, Series 2013A	1,815,000	-
SC Energy Grant Obligation	23,268	34,902
Total	<u>\$ 78,468,268</u>	<u>\$ 81,621,902</u>

The State limits the amount of general obligation debt that school districts can issue to 8% of the assessed value of all taxable property within the School District's corporate limits. The School District is authorized by state statute to exceed the legal debt margin of 8%, if citizens of the School District approve such additional debt through a district-wide referendum. The School District's outstanding general obligation debt is below this state-imposed limit – see table 12 in the statistical section for more details. Other long-term obligations include accrued compensated absences. More detailed information about the School District's debt and other long-term obligations is presented in Note III in the Notes to the Financial Statements.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

ECONOMIC FACTORS

The School District of Newberry County's tax base has grown approximately 34% since 2004 to \$123 million in 2013. Total property tax collections remain strong averaging around 98.9%. Although Newberry County's employment base is largely manufacturing, The School District of Newberry County is the second largest employer within the county.

FY 14 BUDGET

The FY 14 General Fund Budget represents a 3.4 % increase over FY 13. Many factors were considered by the School District's administration during the process of developing the fiscal year 2013-2014 budget. The School District's objective continues to be equity and maintenance of pupil to teacher ratios in elementary grades. Staffing at all schools was closely analyzed and changes made as needed. All employees received a salary increase via a year of experience. Due to mandated salary, retirement and health insurance increases for the 2013-2014 fiscal year, the School District anticipates that expenditures may exceed revenue and budgeted the use of \$0.6 million of the School District's fund balance for this potential shortfall.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide those interested with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, at The School District of Newberry County, 1539 Martin Street, Newberry, South Carolina, 29108.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION

JUNE 30, 2013

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS	\$ 31,604,855
Amounts reported for the governmental activities in the Statement of Net Position are different because:	
Property taxes receivable will be collected in the future, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds.	668,148
Bond issuance costs are amortized over the lives of the bonds in the Statement of Net Position; however, in the governmental funds, the costs are expenditures in the year they are incurred. The bond issuance costs are shown net of accumulated amortization of \$464,753.	839,440
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$155,767,639, and the accumulated depreciation is \$39,894,309.	115,873,330
Accrued interest on the bonds in governmental accounting is not due and payable in the current period and therefore is not reported as a liability in the funds.	(329,391)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consisted of the following:	
Bonds and Notes Payable	(76,653,268)
Premium on Bonds Payable	(1,920,715)
Compensated Absences	(497,605)
	(79,071,588)
TOTAL NET POSITION - GOVERNMENTAL ACTIVITIES	<u><u>\$ 69,584,794</u></u>

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES**

YEAR ENDED JUNE 30, 2013

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ (2,056,764)
Amounts reported for governmental activities in the Statement of Activities are different because:	
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This amount represents the change in deferred revenues for the year.	(158,550)
Repayment of bond and note principal is an expenditure in the governmental funds, but the payment reduces long-term liabilities in the Statement of Net Position.	3,101,634
Bond issuance costs are expenditures in the year they are incurred in the governmental funds but are amortized over the lives of the bonds in the Statement of Activities. This amount is the difference between the capitalized issuance costs incurred and the amortization for the current period.	(100,464)
Bond premiums are reflected as other financing sources in the governmental funds when they are received but are amortized over the lives of the bonds in the Statement of Activities. This amount is the difference between the premiums received and the amortization for the current period.	141,295
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This amount is the net change in accrued interest.	18,171
In the Statement of Activities the loss on the disposal of capital assets is reported; whereas, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the net book value of the assets disposed.	(750)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	(11,086)
Governmental funds report capital asset additions as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation. This is the amount by which capital additions of \$3,955,174 exceeded depreciation expense of \$3,540,871 in the current period.	414,303

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. The Reporting Entity

The School District of Newberry County, South Carolina (the "School District"), established in 1952, is the government which has responsibility for and control over all activities related to public school education in substantially all of Newberry County. The School District receives funding from local, state, and federal government sources, and must comply with the related requirements of these funding source entities. The School District is governed by a seven member Board of Trustees (the "Board").

All activities for which the Board exercises oversight responsibility have been incorporated into the financial statements to form the reporting entity. The School District's financial statements include the accounts of all School District operations, including, but not limited to, general operations and supporting services, food service operations, capital projects, debt service activities, and agency transactions.

The School District's financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP"), as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and reporting principles. The more significant of the School District's accounting policies are described below.

As required by GAAP, the financial statements must present the School District's financial information with any of its component units. The primary criterion for determining inclusion or exclusion of a legally separate entity (component unit) is financial accountability, which is presumed to exist if the School District both appoints a voting majority of the entity's governing body, and either 1) the School District is able to impose its will on the entity or, 2) there is a potential for the entity to provide specific financial benefits to, or impose specific financial burdens on the School District. If either or both of the foregoing conditions are not met, the entity could still be considered a component unit if it is fiscally dependent on the School District and there is a potential that the entity could either provide specific financial benefits to, or to impose specific financial burdens on the School District.

In order to be considered fiscally independent, an entity must have the authority to do all of the following: (a) determine its budget without the School District having the authority to approve or modify that budget; (b) levy taxes or set rates or charges without approval by the School District; and (c) issue bonded debt without approval by the School District. An entity has a financial benefit or burden relationship with the School District if, for example, any one of the following conditions exists: (a) the School District is legally entitled to or can otherwise access the entity's resources, (b) the School District is legally obligated or has otherwise assumed the obligation to finance the deficits or, or provide financial support to, the entity, or (c) the School District is obligated in some manner for the debt of the entity. Finally, an entity could be a component unit even if it met all the conditions described above if excluding it would cause the School District's financial statements to be misleading.

Blended component units, although legally separate entities, are in substance part of the government's operations and data from these units are combined with data of the primary government in the financial statements. Discretely presented component units, on the other hand, are reported in a separate column in the financial statements to emphasize that they are legally separate from the School District. The School District has one blended component unit, as discussed below; the District does not have any discretely presented component units.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Reporting Entity (Continued)

Blended Component Unit. Newberry Investing in Children’s Education (“NICE”) was incorporated as a nonprofit corporation on June 3, 2005, pursuant to the provisions of the South Carolina Nonprofit Corporation Act of 1994. The Articles of Incorporation and Bylaws of NICE provide that NICE has been organized exclusively for educational and charitable purposes, specifically to (1) acquire, construct, finance, pledge, improve, maintain, operate, manage, lease, and dispose of school buildings and other public education facilities for the use and benefit of the School District and (2) encourage and promote public education through cooperative arrangements with governmental entities and organizations exempt under Section 501(c)(3) of the Internal Revenue Code of 1986 that provide public education in Newberry County, South Carolina.

NICE has five board members; they are appointed by the Board of the School District for three year terms and may be removed by the Board with or without cause at any time. Because NICE exclusively benefits the School District, NICE’s financial information is blended with that of the School District in these financial statements. Separate financial information for NICE is included in individual columns throughout the financial statements. Separate financial statements for NICE are not issued.

B. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the School District (the “Primary Government”) and its component units. Interfund activity has been eliminated from the government-wide financial statements.

Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The School District does not report any business-type activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

The **Government-Wide Financial Statements** are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statements are prepared using a different measurement focus from the manner in which governmental fund financial statements are prepared (see further detail below). Governmental fund financial statements therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The School District implemented GASB Statement No. 63, “*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*” (“GASB 63”) in 2013. GASB 63 establishes financial reporting requirements and related disclosures for certain elements of a statement of financial position that were discussed in the GASB’s 2007 Concepts Statement No. 4, “*Elements of Financial Statements*”. In Concepts Statement No. 4, the GASB defines a *deferred outflow of resources* as a consumption of net position by a government that is applicable to a future reporting period; a *deferred inflow of resources* as an acquisition of net position by a government that is applicable to a future reporting period; and *net position* as the residual of all other elements presented in a statement of financial position (the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows of resources). Under GASB 63, amounts for items that the GASB has designated to be deferred outflows of resources are to be presented in a statement of financial position in a separate section following assets, while amounts for items that the GASB has designated to be deferred inflows of resources are to be presented in a separate section following liabilities. The residual of assets and deferred outflows of resources over liabilities and deferred inflows of resources is to be reported as net position rather than as net assets in a statement of financial position. Since the School District had no deferred outflows or inflows of resources at June 30, 2013, the School District’s implementation of GASB 63 had no material effect on the presentation of its 2013 financial statements.

Governmental Fund Financial Statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, Debt Service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, federal and state grant programs, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash has been received by the government.

Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Fiduciary funds are reported by fund type.

The accounts of the government are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are a minimum number of funds maintained to keep the accounts consistent with legal and managerial requirements. The following major funds and fund types are used by the School District:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental Fund Types are those through which the governmental functions of the School District are financed. The School District's expendable financial resources and related assets and liabilities (except for those accounted for in the Fiduciary Fund) are accounted for through governmental funds. Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. The following are the School District's major governmental funds:

The *General Fund, a major fund* and a budgeted fund, is the general operating fund of the School District and accounts for all revenues and expenditures of the School District except those required to be accounted for in other funds. All general tax revenues and other receipts that (a) are not allocated by law or contractual agreement to other funds or (b) that have not been restricted, committed, or assigned to other funds are accounted for in the General Fund. General operating expenditures and the capital improvement costs that are not paid through other funds are paid from the General Fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources (that are expected to continue to comprise a substantial portion of the inflows of the fund) that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The School District has three Special Revenue Funds:

- i) The **Special Revenue Fund, a major fund** and an unbudgeted fund, is used to account for and report the financial resources provided by federal, state and local projects and grants that are restricted, committed or assigned for specific educational programs.
- ii) The **Special Revenue - Education Improvement Act ("EIA") Fund, a major fund** and an unbudgeted fund, is used to account for and report the restricted revenue from the South Carolina Education Improvement Act of 1984 (which is legally required by the state to be accounted for as a specific revenue source) which are restricted for specific programs authorized or mandated by EIA..
- iii) The **Special Revenue - Food Service Fund, a major fund** and an unbudgeted fund, is used to account for and report the financial resources received that are restricted for the cafeteria operations at school locations. These resources primarily consist of revenues received (a) from breakfast, lunch, and other food sales and (b) from the United States Department of Agriculture's ("USDA") approved school breakfast and lunch programs. AS described in Note IV.G, the School District converted the Food Services Fund from an enterprise fund to a special revenue fund.

The *Debt Service Fund - District, a major fund* and an unbudgeted fund, is used to account for and report the accumulation of financial resources that are restricted, committed, or assigned for the payment of all long-term debt principal, interest, and related costs for the School District.

The *Debt Service Fund - NICE, a major fund* and an unbudgeted fund, is used to account for and report the accumulation of financial resources that are restricted, committed, or assigned for the payment of all long-term debt principal, interest, and related costs for NICE.

The *Capital Projects Fund - District, a major fund* and an unbudgeted fund, is used to account for and report financial resources that are restricted, committed, or assigned for expenditures of capital outlay related to equipment, site acquisitions, construction, renovation of capital facilities, and other capital assets for the School District, except for those financed in the Capital Projects Fund - NICE.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The *Capital Projects Fund - NICE, a major fund* and an unbudgeted fund, is used to account for and report financial resources that are restricted, committed, or assigned for expenditures of capital outlay related to equipment, site acquisitions, construction, renovation of capital facilities, and other capital assets for NICE.

Fiduciary Fund Types are used to account for expendable assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds and include Agency Funds. Fiduciary fund types include the following:

The *Agency Fund* accounts for the receipt and disbursement of monies to and from student activity organizations using the accrual basis of accounting. These funds have no measurement focus; accordingly, they have no equity (assets are equal to liabilities) and do not include revenues and expenditures for the general operation of the School District. This accounting reflects the agency relationship of the School District with the student activity organizations.

C. Assets, Liabilities, and Equity

1. Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents

The School District considers all highly liquid investments (including restricted assets) with original maturities of three months or less when purchased and investments in the South Carolina Pooled Investment Fund ("Pool") to be cash equivalents. Securities with an initial maturity of more than three months (from when initially purchased) that are not purchased from the pool are reported as investments.

Investments

The School District's investment policy is designed to operate within existing statutes (which are identical for all funds and fund types within the State of South Carolina) that authorize the School District to invest in the following:

- (a) Obligations of the United States and its agencies, the principal and interest of which is fully guaranteed by the United States.
- (b) Obligations issued by the Federal Financing Bank, Federal Farm Credit Bank, the Bank of Cooperatives, the Federal Intermediate Credit Bank, the Federal Land Banks, the Federal Home Loan Banks, the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Government National Mortgage Association, the Federal Housing Administration, and the Farmers Home Administration, if, at the time of investment, the obligor has a long-term, unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to a refinement or gradation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations.
- (c) (i) General obligations of the State of South Carolina or any of its political units; or (ii) revenue obligations of the State of South Carolina or its political units, if at the time of investment, the obligor has a long-term, unenhanced, unsecured debt rating in one of the top two ratings categories, without regard to a refinement or gradation of rating category by numerical modifier or otherwise, issued by at least two nationally recognized credit rating organizations.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

1. Cash, Cash Equivalents, and Investments (Continued)

Investments (Continued)

- (d) Savings and Loan Associations to the extent that the same are insured by an agency of the federal government.
- (e) Certificates of deposit where the certificates are collaterally secured by securities of the type described in (a) and (b) above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificates of deposit so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an agency of the federal government.
- (f) Repurchase agreements when collateralized by securities as set forth in this section.
- (g) No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond or other debt issue of that local government unit, political subdivision, or county treasurer if the particular portfolio of the investment company or investment trust in which the investment is made (i) is limited to obligations described in items (a), (b), (c), and (f) of this subsection, and (ii) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, value its assets by the amortized cost method.

The School District's cash investment objectives are preservation of capital, liquidity and yield. The School District reports its cash and investments at fair value which is normally determined by quoted market prices. The School District currently or in the past year has used the following investments:

- Cash and Investments held by the County Treasurer which are property taxes and other funds collected by the School District's fiscal agent that have not been remitted to the School District. The County Treasurer invests these funds in investments authorized by state statute as outlined above. All interest and other earnings gained are added back to the fund and are paid out by the County Treasurer to the respective governments on a periodic basis. Currently, the County Treasurer invests governmental funds it receives in the South Carolina Local Government Investment Pool (the "Pool"). These investments are invested with the South Carolina State Treasurer's Office, which established the Pool pursuant to Section 6-6-10 of the South Carolina Code. The Pool is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any city treasurer or any governing body of a political subdivision of the State, may be deposited. The Pool is a 2a 7-like pool which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but has a policy that it will operate in a manner consistent with the SEC's Rule 2a 7 of the Investment Company Act of 1940. In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments are carried at fair value determined annually based upon quoted market prices. The total fair value of the Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.00.
- Open-end mutual funds, primarily money market funds which invest in short term obligations of the United States and related agencies.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

1. Cash, Cash Equivalents, and Investments (Continued)

Investments (Continued)

- Repurchase agreements are a type of transaction in which a money market participant acquires immediately available funds by selling securities and simultaneously agreeing to repurchase the same or similar securities after a specified time at a given price, which typically includes interest at an agreed-upon rate. The School District's repurchase agreements are considered investments as they are purchased with maturities of more than three months.

2. Restricted Assets

The School District established certain accounts for assets restricted for specific purposes, typically by outside parties or legal agreement. Certain bond indentures require the establishment of (i) maximum annual principal and interest payments, unless a surety bond was provided; (ii) the next succeeding principal and accrued interest payment; and (iii) bond proceeds to be used for construction purposes as required in the bond agreement.

3. Receivables and Payables

Transactions between funds that are representative of reimbursement arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". These amounts are eliminated in the Statement of Net Position. All trade and property taxes receivables are shown net of an allowance for uncollectibles.

4. Inventories and Prepaid Items

Inventories in the Food Service Fund consist of purchased goods, supplies, and USDA commodities, which are stated at values assigned by the USDA. Under the system of accounting for inventories, materials and supplies are carried in an inventory account at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure is reported in the year in which services are consumed.

5. Capital Assets

Capital assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Position, but are not reported in the fund financial statements.

All capital assets are recorded at cost (or estimated historical cost). The capital asset system is updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$5,000 for furniture and equipment, vehicles, land improvements and buildings and improvements. The School District's infrastructure assets are immaterial and have been reported with the buildings and improvements. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is not capitalized for governmental activities.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

5. Capital Assets (Continued)

All reported capital assets except land and construction in progress are depreciated. Construction projects begin being depreciated once they are complete, at which time the complete costs of the project are transferred to the appropriate capital asset category. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings and Improvements	25-40 years	N/A
Improvements Other Than Building	20 years	N/A
Vehicles	10 years	10 years
Machinery and Equipment	5-20 years	N/A
Furniture and Equipment	5-20 years	5-20 years

6. Compensated Absences

School District employees are granted vacation and sick leave in varying amounts. Upon termination of employment, an employee is reimbursed for accumulated vacation days. Unused sick leave is paid out to employees with over 90 days of accrued sick leave at the rate of \$15 per day over 90 days. The entire compensated absence liability and expense is reported on the government-wide financial statements. In addition, compensated absences are reported in governmental funds only if they have unused reimbursable leave still outstanding following an employee's resignation or retirement.

7. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources.

However, claims and judgments, compensated absences, contractually required retirement contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

7. *Accrued Liabilities and Long-Term Obligations (Continued)*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Position. If material, bond premiums, as well as bond issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Amortization of premiums and bond issuance costs are included in interest expense. Bond premiums are included with bonds payable and other long-term obligations. Bond issuance costs are reported as other assets and are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

8. *Fund Balance*

In accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* ("GASB 54"), the District classifies its governmental fund balances as follows:

Nonspendable – includes amounts that inherently cannot be spent either because it is not in spendable form (i.e., prepaids or inventories) or because of legal or contractual requirements.

Restricted – includes amounts that are constrained by specific purposes which are externally imposed by (a) other governments through laws and regulations, (b) grantors or contributions through agreements, (c) creditors through debt covenants or other contracts, or (d) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that are constrained for specific purposes that are internally imposed by the government through a resolution made by the Board of Trustees, which is the highest level of decision making authority, before the end of the reporting period. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Assigned – includes amounts that are intended to be used for specific purposes that are neither considered restricted nor committed and that such assignments are made before the report issuance date. At this time, the Board of Trustees has not formally granted the right to make assignments of fund balance for the School District to anyone other than itself. The General Fund assignment of fund balance of approximately \$640,000 represents the anticipated use of fund balance in the fiscal year 2014 budget that was approved by the Board of Trustees.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

8. Fund Balance (Continued)

Unassigned – includes amounts that do not qualify to be accounted for and reported in any of the other fund balance categories. This classification represents the amount of fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts of restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

The School District generally uses restricted amounts first when both restricted and unrestricted (committed, assigned, and unassigned) fund balance and/or Net Position (as applicable) is available unless there are legal documents, contracts, or agreements that prohibit doing such. Additionally, the School District generally would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The School District’s Board of Trustees has formally adopted a minimum fund balance policy that requires 10% of the next year’s General Fund appropriations to be available as unassigned fund balance. The minimum fund balance amount was approximately \$4,515,000 as of June 30, 2013, which represents 10% of the original budget for the General Fund for fiscal year 2014.

9. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows in the statement of net position. Net position is classified as net investment in capital assets, restricted and unrestricted. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Outstanding debt which has not been spent is included in the same net position component as the unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

10. Accounting Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the School District’s management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

11. Comparative Data

Comparative data (i.e., presentation of prior year totals by fund type) have not been presented in each of the statements since their inclusion would make the statement unduly complex and difficult to read.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Budgetary Practices – A budget is presented as required supplementary information for the General Fund.

The budget is presented on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America.

The budget is prepared by function and object as dictated by the State of South Carolina adopted Program Oriented Budgeting and Accounting System and for management control purposes. The School District's policies allow funds to be transferred between functions. However, the total budget cannot be increased beyond that level without approval of the Board in a supplementary action. The legal level of control is at the fund level. During the year, the Board did not significantly revise the budget.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

- (1) In the fall of the preceding year, the School District begins its budget process for the next succeeding fiscal year.
- (2) The School District's administrative budget committee reviews all requests and allocation requirements and related revenue. The Superintendent then meets with each principal to discuss budget needs at their individual locations.
- (3) The Chief Financial Officer presents a proposed budget to the Board of Trustees which reviews it in a series of workshops and makes any additions or deletions it deems necessary.
- (4) Prior to July 1, the budget is legally enacted through passage of a resolution by the Board.

The administration has discretionary authority to make transfers between appropriation accounts. The revised budget amounts in the required supplementary information section of the financial statements (if different from the original budget) are as amended by the administration. All annual appropriations lapse at fiscal year end.

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES

A. Deposits and Investments

Deposits

Custodial Credit Risk for Deposits: Custodial credit risk for deposits is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. The School District does not have a deposit policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2013, none of the School District's bank balances of \$3,641,702, which had a carrying value of \$3,171,113, were exposed to custodial credit risk.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

A. Deposits and Investments (Continued)

Investments

As of June 30, 2013, the School District had the following investments:

Investment Type	Credit Rating	Fair Value	Investment Maturity
Cash and Investments Held by Newberry County Treasurer	Unrated	\$ 24,664,279	^
Goldman Sachs Government Services Shares Fund	AAAm, Aaa-mf	589,746	Less than 1 year
Repurchase Agreement - Royal Bank of Canada	Unrated	7,955,875	12/01/2015
Total		<u>\$ 33,209,900</u>	

^ The Newberry County Treasurer invests the monies it holds in trust for governmental entities in a separate account with the South Carolina Local Government Investment Pool (the "Pool"). The weighted average maturity of the Pool's investments is less than 60 days.

Interest Rate Risk: The School District does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

Custodial Credit Risk for Investments: Custodial credit risk for investments is the risk that, in the event of a bank failure, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have an investment policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2013, the School District's investment in a repurchase agreement was exposed to custodial credit risk as the underlying securities were held by a third-party agent but not in the name of the School District.

Credit Risk for Investments: Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District does not have an investment policy for credit risk but follows the investment policy statutes of the State of South Carolina.

Concentration of Credit Risk for Investments: The School District places no limit on the amount the School District may invest in any one issuer. Investments issued by or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are exempt from concentration of credit risk disclosures.

B. Property Taxes and Other Receivables

Newberry County, South Carolina (the "County") is responsible for levying and collecting sufficient property taxes to meet funding obligations for the School District. This obligation is established each year by the School Board and does not necessarily represent actual taxes levied or collected. The property taxes are considered both measurable and available for purposes of recognizing revenue and a receivable from the County at the time they are collected by the County.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

B. Property Taxes and Other Receivables (Continued)

Property taxes are levied and billed by the County on real and personal properties on October 1 based on an assessed value of approximately \$123.3 million at rates of 186.8 mills and 53.0 mills for the General Fund and Debt Service Fund, respectively. These taxes are due without penalty through January 31. Penalties are added to taxes depending on the date paid as follows:

January 16 through February 1	-	3% of tax
February 2 through March 15	-	10% of tax
After March 15	-	15% of tax plus collection costs

Current year real and personal taxes become delinquent on March 16. Unpaid property taxes become a lien against the property as of August 1 of the calendar year following the levy date. The levy date for motor vehicles is the first day of the month in which the motor vehicle license expires. These taxes are due by the last day of the same month.

Taxes receivable includes an allowance for uncollectible amounts of approximately \$560,000 at June 30, 2013. Allowances for uncollectible amounts were not necessary for the other receivable accounts.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At June 30, 2013, the various components of deferred/unearned revenue reported in the governmental funds were as follows:

Delinquent Property Taxes Receivable - General Fund	\$	499,639
Delinquent Property Taxes Receivable - Debt Service Fund		168,509
Unearned Revenue from Special Revenue Funds		714,694
Total Deferred/Unearned Revenue for Governmental Funds	\$	<u>1,382,842</u>

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

C. Interfund Receivables and Payables

Interfund balances at June 30, 2013 (all of which are expected to be received or paid within one year), consisted of the following individual fund receivables and payables:

Fund	Receivables	Payables
General Fund	\$ 1,583,410	\$ 7,364
Special Revenue Funds:		
Special Revenue	-	999,135
Education Improvement Act	-	32,843
Food Service	-	285,915
Debt Service Fund - District	3,379	-
Debt Service Fund - NICE	-	7,975
Capital Projects Fund - District	-	257,542
Capital Projects Fund - NICE	3,985	-
	<u>\$ 1,590,774</u>	<u>\$ 1,590,774</u>

The General Fund receivable is a result of Special Revenue and EIA owing the General Fund for claims that were filed but not yet received, the General Fund paying for construction expenditures for the District Capital Projects Fund and the General Fund paying for payroll costs for the Food Services Fund.

D. Capital Assets

Capital asset activity for the School District for the year ended June 30, 2013 was as follows:

	Beginning Balance *	Increases	Decreases	Transfers	Ending Balance
Governmental Activities:					
Capital Assets, Non-Depreciable:					
Land	\$ 1,923,500	177,997	-	-	\$ 2,101,497
Construction in Progress	527,537	1,055,441	-	(408,520)	1,174,458
Total Capital Assets, Non-Depreciable	2,451,037	1,233,438	-	(408,520)	3,275,955
Capital Assets, Depreciable:					
Buildings and Improvements	139,148,054	2,535,621	-	408,520	142,092,195
Improvements Other Than Buildings	3,750,992	37,650	-	-	3,788,642
Vehicles	1,469,356	-	(15,000)	-	1,454,356
Machinery and Equipment	3,221,385	69,129	-	-	3,290,514
Furniture and Equipment	1,786,641	79,336	-	-	1,865,977
Total Capital Assets Depreciable	149,376,428	2,721,736	(15,000)	408,520	152,491,684
Less: Accumulated Depreciation for:					
Buildings and Improvements	29,801,841	3,133,133	-	-	32,934,974
Improvements Other Than Buildings	2,226,222	109,310	-	-	2,335,532
Vehicles	927,014	80,940	(14,250)	-	993,704
Machinery and Equipment	1,953,249	169,703	-	-	2,122,952
Furniture and Equipment	1,459,362	47,785	-	-	1,507,147
Total Accumulated Depreciation	36,367,688	3,540,871	(14,250)	-	39,894,309
Total Capital Assets, Depreciable, Net	113,008,740	(819,135)	(750)	408,520	112,597,375
Governmental Activities Capital Assets, Net	\$ 115,459,777	414,303	(750)	-	\$ 115,873,330

*The furniture and equipment beginning balances have been adjusted to include food service operations of approximately \$307,000, which were reclassified from business-type activities to governmental activities. See Note IV.G for information about the change in accounting principle.

The School District has outstanding commitments related to construction activities totaling approximately \$3,534,000 at June 30, 2013.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

D. Capital Assets (Continued)

Depreciation expense was charged to functions/programs as follows for 2013:

Governmental Activities:	
Instruction	\$ 2,102,615
Support Services	1,438,256
Total Depreciation Expense - Governmental Activities	<u>\$ 3,540,871</u>

In May of 2005, the Board of Trustees approved a list of approximately \$77,500,000 in capital needs, the result of a prioritization process of more than \$122,000,000 in overall capital needs identified in an independent study completed in December of 2004. After careful study of funding alternatives, the Board authorized the formation of NICE, a non-profit corporation which assisted the School District in the formulation of an Installment Purchase plan, whereby the School District has leased the applicable buildings to the Corporation for the purpose of capital improvements, and is in the process of purchasing them back utilizing General Obligation debt over a 25 or 26 year period, allowing the School District to leverage its constitutional debt limit to complete the capital needs within a five-year construction cycle versus the more piecemeal approach of “pay as you go.” The School District completed its expansion program during 2012, using proceeds from NICE’s debt offering.

Due to favorable market conditions, actual expenditures for the construction projects included in the original list of projects were considerably less than expected, and the School District had a \$3.8 million balance at June 30, 2011. After all projects were closed out during fiscal 2012, the remaining funds were and will be used to pay down the NICE debt, including \$1,670,000 used in fiscal 2013. This will increase the amount the School District will have available to borrow for future capital needs in the School District, using the School District’s assessable constitutional debt limit, as less funds will be needed to repay the outstanding NICE debt.

E. Accounts Payable and Accrued Expenses

The significant components of accounts payable and accrued expenses at June 30, 2013, consisted of the following:

Governmental Activities:	
Accounts Payable	\$ 1,627,679
Retainage Payable	116,148
Accrued Salaries	2,214,075
Accrued Fringe and Benefits	943,964
Total Accounts Payable and Accrued Expenses - Governmental Activities	<u>\$ 4,901,866</u>

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

F. Operating Leases

The School District entered into an operating lease agreement for copier equipment during fiscal year 2011. The lease runs for a period of 60 months ending December 2015, and the payments are on a cost per copy basis. The estimated future minimum payments are approximately \$109,000 per year. The School District entered into agreements for lights at three schools. The leases run for 120 months, expiring in 2018 and 2019, with annual payments totaling approximately \$52,000. Total charges under these agreements were approximately \$162,000 for the year ended June 30, 2013.

Future payments on all of these agreements are as follows:

2014	\$	161,513
2015		161,513
2016		106,910
2017		52,308
2018		50,458
2019		26,505
Total	\$	<u>559,207</u>

G. Short-Term Obligations

Governmental Activities:	Beginning Balance	Additions	Reductions	Ending Balance
Series 2012A General Obligation Bond	\$ 1,867,000	-	1,867,000	\$ -
Series 2012B General Obligation Bond	-	4,300,000	4,300,000	-
Series 2013A General Obligation Bond	-	1,815,000	-	1,815,000
Total Governmental Activities	<u>\$ 1,867,000</u>	<u>6,115,000</u>	<u>6,167,000</u>	<u>\$ 1,815,000</u>

In May 2012, the School District issued its Series 2012A General Obligation Bonds in the amount of \$1,867,000 for the purpose of making payments to NICE for a portion of the installments of purchase price due in fiscal year 2012 under the Facilities Agreement. These bonds, including interest of \$13,676 (0.90%), were repaid at maturity in March 2013. In November 2012, the School District issued its Series 2012B General Obligation Bonds in the amount of \$4,300,000 for the purpose of making payments to NICE for a portion of the installments of purchase price due in fiscal year 2013 under the Facilities Agreement and for additional capital outlay. These bonds, including interest of \$12,644 (0.79%), were repaid at maturity in March 2013. In May 2013, the School District issued its Series 2013A General Obligation Bonds in the amount of \$1,815,000 for the purpose of making payments to NICE for a portion of the installments of purchase price due in fiscal year 2013 under the Facilities Agreement. These bonds, including interest of \$10,670 (0.74%), are due at maturity in March 2014. Due to the timing of the issuance and the scheduled maturity being less than one year from the date the bond was issued, the outstanding balance of \$1,815,000 is reflected on the District's balance sheet for its governmental funds at June 30, 2013.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

H. Long-Term Obligations

The School District had the following outstanding long-term indebtedness at June 30, 2013:

- NICE Installment Purchase Revenue Bonds, Series 2005 (“IPR Bonds”) in the original amount of \$84,725,000, principal due in annual installments of \$30,000 to \$7,930,000 at December 1; interest at 3.50% to 5.25% is paid semiannually, with a final maturity date in December 2031. The bonds are subject to redemption at NICE’s option beginning in December 2015. In connection with the issuance of this indebtedness, a premium of \$2,743,878 and bond issuance costs of \$1,199,200 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2013 were \$1,920,715 and \$839,440, respectively. The IPR Bonds are not an obligation of the School District; however, as NICE is blended with the operations of the School District, NICE’s debt is included with the School District’s other obligations as required by GAAP.
- South Carolina Energy Grant Obligation: The School District received an award from the South Carolina Energy Office (“SCEO”) as part of the ARRA Act of 2009 consisting of a 75% reimbursement grant and a 25% loan. The School District incurred total expenditures of approximately \$186,000, of which \$46,536 is to be repaid. The loan bears zero percent interest and is designed to be repaid from the General Fund with energy savings recognized from the improvements made with the grant award in four equal payments of \$11,634 starting on November 1, 2011 and continuing through November 1, 2014.

The following is a summary of changes in long-term obligations for the year ended June 30, 2013:

Long-Term Obligations	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:					
Debt:					
NICE Series 2005 IPR Bonds	\$ 78,300,000	-	1,670,000	76,630,000	\$ 1,855,000
General Obligation Bond, Series 2011	1,420,000	-	1,420,000	-	-
SC Energy Grant Obligation	34,902	-	11,634	23,268	11,634
Total Debt	79,754,902	-	3,101,634	76,653,268	1,866,634
Premiums	2,062,010	-	141,295	1,920,715	-
Compensated Absences	486,519	181,233	170,147	497,605	174,024
Total Governmental Activities	\$ 82,303,431	181,233	3,413,076	79,071,588	\$ 2,040,658

General Fund resources typically have been used in prior years to liquidate the compensated absence obligation. The Debt Service Funds have primarily been used to service all other long-term obligations.

Interest paid on the debt issued by the School District is exempt from federal income tax. The School District sometimes temporarily reinvests the proceeds of such tax-exempt debt in materially higher-yielding taxable securities, especially during construction projects. The federal tax code refers to this practice as arbitrage. Excess earnings (the difference between the interest on the debt and the investment earnings received) resulting from arbitrage must be rebated to the federal government. The School District does not have any liability for arbitrage as of June 30, 2013.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

H. Long-Term Obligations (Continued)

The IPR Bonds were issued by NICE in October 2005 to finance the costs of acquiring, constructing, renovating and installing educational facilities (the “2005 Facilities”) to be sold by NICE to the School District pursuant to a School Facilities Purchase and Occupancy Agreement dated September 15, 2005. NICE executed a Trust Agreement in connection with the IPR Bonds and established the following accounts:

- Project Account – Proceeds in these funds will be used to pay administrative fees, as well as construction costs of the Capital Projects. In addition, as allowed by the bond documents, unspent proceeds are also being used to repay a portion of the outstanding IPR Bonds principal. The total in this account was \$589,746 at June 30, 2013.
- Reserve Account – Funds may only be used to make bond payments to the extent necessary to make up for a deficiency in the Base Lease Rental account – see below. The total in this account was \$7,955,875 at June 30, 2013.

The IPR Bonds were issued pursuant to a Facilities Agreement and Base Lease Agreement between the School District and NICE. These agreements were authorized and approved by the Board of Trustees of the School District in September 2005. The Facilities Agreement permits the School District to design, construct, renovate equip, furnish occupy and operate the facilities in exchange for the payment by the School District on a semi-annual basis of installments of the purchase price of the facilities sufficient to pay the principal and interest on the IPR Bonds as such amounts become due. By making each such payment of purchase price, the School District acquires an undivided interest in the facilities. Upon the making of the final scheduled payment of purchase price under the Facilities Agreement, the School District will have purchased all interest of NICE in the facilities and will own the facilities outright. The School District’s obligations under the Facilities Agreement are from year to year only and do not constitute a mandatory payment obligation of the School District in any fiscal year in which funds are not appropriated by the School District to pay the installment payments of purchase price due in such fiscal year. However, the School District would forfeit possession of the Facilities for the remainder of the term of the Lease if it did not make the payment to NICE.

The annual debt service requirements to maturity for long-term indebtedness are as follows:

Years Ending June 30	General Obligation Bonds		Totals
	Principal	Interest	
2014	\$ 1,866,634	3,892,131	\$ 5,758,765
2015	2,066,634	3,789,494	5,856,128
2016	2,265,000	3,676,094	5,941,094
2017	2,490,000	3,551,275	6,041,275
2018	2,725,000	3,414,381	6,139,381
2019-2023	17,755,000	14,537,993	32,292,993
2024-2028	26,260,000	8,839,044	35,099,044
2029-2031	21,225,000	1,664,375	22,889,375
Totals	\$ 76,653,268	43,364,787	\$ 120,018,055

Section 15 of Article X of the South Carolina State Constitution allows School Districts to incur a legal debt limit not to exceed 8 percent of the assessed value of all taxable property in the School District, unless approved by a majority vote in a referendum authorized by law. At June 30, 2013, the School District’s assessed property valuation was approximately \$123.3 million, and the legal debt limit was approximately \$9.86 million, of which \$1.815 million in outstanding debt was applicable to this limit at June 30, 2013.

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

I. Transfers In and (Out) (Continued)

Interfund transfers include funding allowed for indirect costs, required matches, supplemental funding, state cuts, and accounting practice. The transfers for the year ended June 30, 2013, consisted of the following:

General Fund

Transfers from:

Funds were transferred into the General Fund from other funds to cover EIA teacher salaries and indirect costs for federal programs and the food service fund.

Special Revenue Funds.

Transfers from:

Funds were transferred from Special Revenue/EIA/Food Service funds into the General Fund to cover indirect costs on federal programs and food services, the EIA teacher salaries and school employer contributions.

Debt Service and Capital Projects Funds.

Transfers:

Funds were transferred into the Debt Service – NICE and the Capital Projects – District from Debt Service – District and Capital Projects - NICE to fund the 2013 debt service payments for the NICE bonds and to fund additional capital projects.

IV. OTHER INFORMATION

A. Retirement and Postemployment Benefit Plans

South Carolina Retirement System

Plan Description – The District participates in a retirement plan under authorization of Title 9 of the SC Code of Laws, State of South Carolina which covers a majority of the School District's full-time employees. The South Carolina Retirement System (“SCRS”) is a cost-sharing multi-employer defined benefit pension plan that was originally administered by the South Carolina State Budget and Control Board. Effective July 1, 2012, the South Carolina General Assembly transferred administration of the SCRS to the newly created South Carolina Public Employee Benefit Authority (“PEBA”). The PEBA has the authority to establish and amend benefits and funding policy. The Plan offers retirement and disability benefits, cost of living adjustments on an ad-hoc basis, group life (“GL”) insurance benefits and survivor benefits. A Comprehensive Annual Financial Report containing financial statements and required supplementary information for the South Carolina Retirement System is issued and publicly available by writing the South Carolina Public Benefit Authority, P.O. Box 11960, Columbia, SC 29211-1960.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

IV. OTHER INFORMATION (CONTINUED)

A. Retirement and Postemployment Benefit Plans (Continued)

South Carolina Retirement System (Continued)

Funding Policy – Both employees and employers are required to contribute to the Plan under authority of Title 9 of the SC Code of Laws. For the year ended June 30, 2013, employee contributions to the Plan are 7.0% of salary, and employers are required to contribute at the following actuarially determined rates: SCRS State Agencies and Public Schools—10.45%. In addition to the above rates, participating employers of the South Carolina Retirement System contribute 0.15% of payroll to provide a group life insurance benefit for their active participants. All employers contribute at the actuarially required contribution rates. The School District contributed amounts equal to the required contribution to the SCRS for all years presented.

Other Retirement Plan

The State of South Carolina also provides an optional retirement plan (“ORP”). It is a governmental plan administered as a qualified plan pursuant to Section 401(a) of the IRC. The State ORP is a defined contribution plan that provides retirement and survivor benefits for certain administrative positions which allows them to participate. As an alternative to the SCRS, employees eligible for the ORP may choose between the two plans.

Employee required contribution rate to the ORP was 7.0% of covered salary for the year ended June 30, 2013. The employer required contribution rate was 10.45% for the year ended June 30, 2013, for which 5.0% of the employer required contribution is remitted to the employees authorized investment providers (“AIP”) with the balance being remitted to the South Carolina Retirement System. Because the contribution rates to the ORP are required, they are also actual contributions as well. Thus, the actual contribution rate and amount is 100% of the required contribution rate and amount for the ORP for all years presented.

Postemployment Benefits

In addition to providing retirement plan benefits, the state currently provides its retired employees with health care benefits through a cost-sharing multiple-employer plan. All postemployment benefits paid to the District's retired members are made from the SCRS and from South Carolina's General Fund (Health Care). An employer contribution surcharge of 4.55% of covered payroll was added to the contribution rate to State and Public school entities covered by the State Health Insurance Program. This assessment is for the purpose of providing retiree health insurance coverage and is not a part of the actuarially established contribution rates. The District has no liability beyond the payment of monthly contributions.

Employee Contributions	\$ 2,282,691	2,046,628	2,026,778	85,944	91,439	\$ 89,553

B. Grants

The School District participates in a number of state and federally assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. The amount of program expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the School District expects such amounts, if any, would not have a material adverse effect on the financial condition of the School District.

C. Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees’ and natural disasters. The School District carries commercial insurance for workers’ compensation, property and casualty insurance. There has been no reduction in insurance coverage as compared to the previous year. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

IV. OTHER INFORMATION (CONTINUED)

D. Litigation

Various claims and lawsuits are pending against the School District. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the School District's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the School District.

E. Pending Implementation of GASB Statement on Pensions

GASB Statement No. 68, "*Accounting and Financial Reporting for Pensions*" ("Statement"), was issued by the GASB in June 2012. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that are provided by other entities. In addition, state and local governments who participate in a cost-sharing multiple employer plan will now be required to recognize a liability for its proportionate share of the net pension liability of that plan. It is GASB's intention that this new Statement will provide citizens and other users of the financial statements with a clearer picture of the size and nature of the School District's financial obligations to current and former employees for past services rendered.

In particular, the School District will be required to report a net pension liability for its participation in the SCRS on financial statements prepared on the economic resources measurement focus and accrual basis of accounting (i.e., the Statement of Net Position) and present more extensive note disclosures. In general, it should not have a significant impact on the School District's governmental funds.

The effect of implementation of this Statement has not been determined at this time, but it is anticipated that it will materially decrease the School District's unrestricted Net Position. This Statement is required to be implemented by the School District no later than the fiscal year ending June 30, 2015.

F. Subsequent Events

In October 2013, the School District issued its Series 2013B General Obligation Bonds in the amount of \$5,950,000 for the purposes of paying to NICE for a portion of the installments of purchase price that are due in fiscal year 2014 under the Facilities Agreement, for additional capital outlay needs of the School District, and for paying certain costs of issuance related to the bonds. The bonds, including interest at 0.6%, are due at maturity on March 1, 2014.

G. Change in Accounting Principle

Effective July 1, 2012, the School District converted its food service activities from an enterprise fund to a special revenue fund. This change in accounting principle resulted in a decrease to beginning fund balance of \$307,300 for this fund, representing the net book value of capital assets for food service equipment, as capital assets are not reported in governmental funds. On its government-wide financial statements, the School District recognized a corresponding increase to beginning net position for governmental activities, as it no longer reports any business-type activities. There was no change in total net position for the School District as a result of this change.

Management believes that this new treatment is preferable because they plan, internally budget and report food service operations in the same manner as they do for all other governmental activities, using the modified accrual basis of accounting. In addition, as the majority of food service revenues is received from grants, this new treatment would be comparable and more consistent with the School District's treatment of its other federal and state grant programs.

(This page intentionally left blank.)

GENERAL FUND

The General Fund accounts for all financial resources except those required to be accounted for in another fund. All property tax, intergovernmental revenues, and miscellaneous revenues are recorded in this fund, except amounts which are specifically collected to service debt or for which the School District collects other funds in a fiduciary capacity. Operational expenditures for general education, support services and other departments of the School District are paid through the General Fund.

The following Schedule of Revenues, Expenditures, and Changes in Fund Balance - Actual and Revised Budget for the General Fund has been prepared in the format mandated by the South Carolina Department of Education. The account numbers shown on the schedule are also mandated by the South Carolina Department of Education.

GENERAL FUND

**SPECIAL REVENUE FUND and
EDUCATION IMPROVEMENT ACT FUND**

The Special Revenue Fund and the Education Improvement Act Fund account for the operations of Federal and State projects which are required to be accounted for in separate funds.

The following combining and individual fund statements have been prepared in the format mandated by the South Carolina Department of Education. The account numbers shown on the various statements are also mandated by the South Carolina Department of Education.

**THE SCHOOL DISTRICT OF NEWBERRY COUNTY
NEWBERRY, SOUTH CAROLINA**

09	Whitmire Community School	K-12 School	School	4,049,881
00/01/10/11	District Office	Non-school	Central	20,117,068
TOTAL EXPENDITURES / DISBURSEMENTS FOR ALL FUNDS				<u><u>\$ 70,317,057</u></u>

The above expenditures are reconciled to the School District's financial statements as follows:

General Fund	\$ 43,302,210
Special Revenue Fund	6,575,102
Special Revenue Fund - EIA Fund	3,026,009
Special Revenue Fund - Food Service	3,664,755
Debt Service - District Fund	1,533,555
Debt Service - NICE Fund	5,652,575
Capital Projects - District Fund	4,196,754
Pupil Activity Fund	2,366,097
TOTAL EXPENDITURES / DISBURSEMENTS FOR ALL FUNDS	<u><u>\$ 70,317,057</u></u>

STATISTICAL SECTION

This part of The School District of Newberry County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

Contents	Page
Financial Trends <i>These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.</i>	119
Revenue Capacity <i>These schedules contain information to help the reader assess the School District's most significant local revenue source, the property tax.</i>	123
Debt Capacity <i>These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.</i>	127
Demographic and Economic Information <i>These schedules offer demographic and economic indicators to help the reader understand the environment in which the School District's financial activities take place.</i>	131
Operating Information <i>These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report related to the services the School District provides and the activities it performs.</i>	133

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Unassigned	-	-	-	-	-	-	-	-	-	(590)
Total all other governmental funds	\$ 10,940,910	8,075,707	81,241,234	66,861,453	42,217,492	24,106,936	19,467,370	20,484,584	22,816,418	\$ 19,709,378

Note: (1) The District implemented GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions ("GASB 54") in 2011. GASB 54 established new fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds. The District has elected to apply GASB 54 prospectively and thus has provided fund balance information before ("Pre") and after ("Post") its implementation.

(2) Increase due to issuance of N.I.C.E. revenue bonds.

(3) Decrease due to N.I.C.E. expenditures.

(4) The School District converted its Food Service operations from business-type activities to governmental activities effective July 1, 2012. All years presented on this table reflect Food Service as governmental activities.

Source: Newberry County Auditor

Note: Property in the county was reassessed during fiscal year 2007. Tax rates are per \$1,000 of assessed value.

Beginning in fiscal year 2003, the state legislature decreased the vehicle tax assessment rate by .75% per year until the rate is lowered to 6% in fiscal year 2008.

(A) The breakdown between residential and commercial real property as well as motor vehicles and other have not been reported for prior years and thus is stated beginning in fiscal year 2005.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED JUNE 30, 2013

A – General

The accompanying Schedule of Expenditures of Federal Awards (the “Schedule”) presents the activity of all federal award programs of The School District of Newberry County, South Carolina (the “School District”) for the year ended June 30, 2013. All federal awards received directly from the federal agencies, as well as those passed through other government agencies, are included on the Schedule.

B – Basis of Accounting

The accompanying Schedule is presented using the modified accrual basis of accounting, which is described in the notes to the School District’s financial statements.

C – Relationship to Financial Statements

Federal award expenditures are reported in the School District’s financial statements as expenditures in the Special Revenue Funds.

D – Relationship to Federal Financial Reports

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports except for timing differences relating to expenditures made subsequent to the filing of the federal financial reports.

(This page intentionally left blank.)

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
The School District of Newberry County
Newberry, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of The School District of Newberry County, South Carolina (the "School District") as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated November 25, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

(This page intentionally left blank.)

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON
INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY OMB CIRCULAR A-133**

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
The School District of Newberry County
Newberry, South Carolina

Report on Compliance for Each Major Federal Program

We have audited The School District of Newberry County, South Carolina's (the "School District") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2013. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.
