THE SCHOOL DISTRICT OF NEWBERRY COUNTY ORGANIZATIONAL CHART

2

January 21, 2009

BOARD OF TRUSTEES AND CITIZENS THE SCHOOL DISTRICT OF NEWBERRY COUNTY NEWBERRY, SOUTH CAROLINA

The comprehensive annual financial report of The School District of Newberry County (the District) for the fiscal year ended June 30, 2008 is hereby submitted. The complete set of financial statements is presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of The School District of Newberry County has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, The School District of Newberry County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The comprehensive annual financial report is presented here in four sections: introductory, financial, statistical and single audit. The introductory section includes the transmittal letter, the list of principal officials and the organizational chart. The financial section includes the basic financial statements; the combining and individual fund financial statements and schedules, as well as required supplementary information. Also included in the financial section is the independent auditors' report on these financial statements. The statistical section reflects social and economic data, financial trends and the fiscal capacity of the District. The final section is the single audit section.

The School District of Newberry County's financial statements have been audited by Greene, Finney, and Horton, C.P.A., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2008, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that The School District of Newberry County's financial statements for the fiscal year ended June 30, 2008, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of The School District of Newberry County was a part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the single audit section of this comprehensive annual financial report.

Generally Accepted Accounting Principals (GAAP) of the United States of America requires that the School District's management provide a narrative introduction, overview, and Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of our independent auditors.

GENERAL INFORMATION ABOUT THE DISTRICT

The School District of Newberry County carries on a tradition of education dating back nearly to the county's founding in 1798. Since the 1800's, education has been a priority of the citizens of Newberry County, through public and private schools, the most prominent being Newberry College, founded in 1856. The County's public school district was consolidated on February 27, 1952, from seven existing school districts. Newberry County has 13 public schools today.

The District is coterminous with Newberry County, which is located in the western portion of the State of South Carolina and has a land area of 630 square miles. Approximately 54,000 acres located in the northeastern portion of the County are within the Sumter National Forest. It is one of the oldest counties in the State, having been created by the division of the old Ninety Six District in 1798. Newberry County is bounded on the north by Union County, on the east by Fairfield and Richland Counties, on the south by Lexington and Saluda Counties and on the west by Greenwood and Laurens Counties.

A seven member Board of Trustees elected by the voters in single-member Districts establishes programs and policies of The School District of Newberry County. Board members are elected to four-year terms. Regular Board meetings are held on the fourth Monday of each month and are open to the public. The day-to-day administration of the District is the responsibility of the Superintendent, who is appointed by the Board of Trustees.

The School District of Newberry County Board of Education (Board) is the basic level of government, which has financial accountability, and control over all activities related to the public school education in the county of Newberry. The Board receives funding from local, state, and federal government sources and must comply with the mandated requirements of these funding source entities. However, the Board is not included in any other governmental "reporting entity" as defined by the GASB pronouncement, since Board members are elected by the public and have decision making authority, the authority to levy taxes up to four mills over the prior year's millage plus inflation, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters. In addition, there are no component units as defined in Governmental Accounting Standards Board Statement 14, which are included in the District's reporting entity.

The School District of Newberry County provides a broad spectrum of elementary and secondary programs to meet the needs of its diverse student population of 5766 students. These programs compliment each other to provide a total program that is both comprehensive and highly cost-effective. The current emphasis is on the alignment of the South Carolina Academic Standards for English/language/arts, mathematics, science, and social studies with the district's commensurate curricula. The process of curriculum revision and development is embedded in our District Strategic Plan and began in the summer of 2000 with the development of a comprehensive curriculum guide for English/language/arts. Since that time we have cyclically developed, reviewed, and revised the curricula guides in all the core content areas as well as Physical Education, the arts, and gifted and talented. The summers of 2005 - 2008 were devoted to the development and revision of semester examinations for high school gateway courses.

A balanced, literacy approach to reading instruction is provided to elementary students which is boosting reading scores in grades 3-8. Academic advancement and enrichment are provided for academically gifted and talented students in grades 3-5 through "pullout classes" where thematic units of instruction are presented primarily through the social studies area from a newly developed curriculum specifically designed for these students. Honors Algebra 1 is offered to accelerated 7th and 8th grade students. Honors English 1 is offered to accelerated 8th grade students. High schools offer a variety of high level and honors level courses in addition to Advanced Placement courses in Chemistry, Calculus, English, Biology, European History, and U.S. History. All high schools offer SAT/ACT preparation classes for all students. Dual credit opportunities are available through Piedmont Technical College. During the summer of 2006 the district began the implementation of content recovery for high school students who have been unsuccessful in earning Carnegie units. This technology based program permits students to successfully complete coursework and has manifested a significant inprovement in our graduation rates. The district is fully implementing the Economic and Education Development Act and supports 13 of the 16 national clusters at the high schools and career center.

In addition to the regular curriculum offerings in the fine and performing arts (including Newberry County's well known, award-winning band and chorus programs), additional opportunities for artistically talented students in band, chorus, vocal performance, drama, and visual arts are provided via district grants to teachers/schools. Students are also provided opportunities to attend programs at the Newberry Opera House.

Child development classes provide preschool education experiences for four-year old children who need an intervention program to prepare them for school. The District also has full day programs for four-year olds in four schools. The District offers a Montessori program for preschool classes through grade five in two of our elementary schools with kindergarten through grade 5 in a third elementary school. In grades 1-12, academic assistance is provided to students who need more instruction or re-teaching of the language arts and mathematics skills. The District has a "Welcome First Baby" program that offers parents home visits. The Parenting and Family Literacy program has joint efforts with 11 other local agencies, and includes an Early Intervention Education Center. The Parenting and Family Literacy Program provides a monthly newsletter in Engliah and Spanish with valuable tips and information for parents of young children. Through community collaboration on the First Steps initiative, we have expanded services to the families of preschool children in an effort to ensure school readiness and successful school experiences throughout the county.

Special Education programs are provided for all students who need them, regardless of the disabling condition, with special transportation provided where needed. Resource, inclusion, and self-contained models are utilized across the District. The District has an employability diploma program designed to ensure that our students with disabilities will leave high school with the skills necessary for successful employment and citizenship. Middle and high schools also offer transition services, which provide an interface between school and work for students needing these services. Homebound instruction is provided for students when needed.

An alternative program is in place for students in grades 6 through 12 who demonstrate behavioral problems, which significantly interfere with their achievement as well as the achievement of their peers. All schools within the district can avail themselves of the programs in order to provide comprehensive instructional services for these students experiencing difficulties.

Students at all levels are exposed to technology, as a way to prepare for the future. Important skills being taught are keyboarding and computer literacy, as well as ways to access information in an automated library. More than 650 high school students are enrolled at the Newberry County Career Center. Students may receive credit in exploratory technology courses or may specialize in multiple course sequences in Business Education and Marketing Education, as well as courses in Computer-Aided Drafting, Agriculture, Project Lead the Way (pre-engineering), and Health Occupations. Dual credit courses are available through Piedmont Technical College for college preparatory and career and technology education students.

The District has a Work-Based Learning/Transition program. With help from industries who have agreed to support the program with shadowing, mentoring and internships, the Work-based Learning/Transition program has been very successful.

The School District of Newberry County Board of Education approved and submitted to the South Carolina State Department of Education their District Strategic Plan in April 2005. The plan was designed to guide teachers and school administrators in their day-to-day interaction with students. Many of the previously mentioned programs are a direct result of the District's goal of meeting the expectations of each performance goal. We review and revise that plan annually.

The District has pursued accreditation through the Southern Association of Colleges and Schools for all schools. As of the spring of 2005 all schools and the Career Center have been accredited by this nationally recognized accreditation entity. All middle and high schools along with the career center are affiliated with the Southern Regional Education Board as High Schools That Work and Making Middle Grades Work sites. Beginning in the 2007-08 school year the district began the process of acquiring district-wide accreditation through AdvancEd (a part of the Southern Association of Colleges and Schools). This process was completed in November, 2008 and the district was awarded this coveted district accreditation.

The School District of Newberry County funds the Newberry Adult Learning Center to provide adult education services to individuals seeking a high school credential or workplace training for employment.

The 2007-2008 enrollment was 625 students. The program graduated 40 students, 20 with State High School diplomas and 20 with GED's. This program offers: 1) courses to obtain a State High School diploma; 2) GED preparation classes; 3) courses in adult basic education for improvement in reading, writing and math skills; 4) classes for non-English speaking persons to learn to read and write the English Language; 5) and workplace programs. The program collaborates with other agencies in the county such as the Department of Social Services, Vocational Rehabilitation, Employment Security Commission, First Steps and many others to serve undereducated adults throughout the county. The program offers day and night classes in Newberry and night classes in Prosperity.

The School District of Newberry County achieved many educational successes during the 2007-08 school year. Graduating seniors earned approximately \$3.8 million in scholarships, an 80% increase from the previous year. The faculty and staff of the career center continued their remarkable run of Palmetto Gold recognitions. With the 2008 honor, the career center has been a Palmetto Gold school for six consecutive years.

The District maintained its progress in preparing students for the SATs. The district-wide average was almost 70 points higher than the state average, with Newberry High School increasing 75 points. Additionally, district-wide ACT scores were almost a full point above the state average.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which The School District of Newberry County operates.

Local Economy. The City of Newberry is the largest incorporated municipality located within Newberry County. There are eight smaller municipalities for a total population of 36,108, according to the 2000 census data. This is an estimated increase of 8.9% since 1990. The latest population estimate for 2007 as reported by the U. S. Census Bureau is 37,540. Agriculture is the oldest and most basic industry in Newberry County. The importance of agriculture to Newberry County is best illustrated by the fact that, according to the 2002 addition of South Carolina Agriculture Statistics, Newberry County continues to rank 1st in total milk production, 1st in total egg production, and is ranked 8th in total farm income in the state, with agriculture income totaling \$84,259,000 annually. In the 2002 Census of Agriculture, Newberry County had 633 farms and 103,570 acres of land dedicated to agricultural pursuits.

Manufacturing as well as agriculture is an important source of employment for the residents of Newberry County. According to the South Carolina Department of Commerce, industrial and manufacturing plants employ approximately 31.1% of the County's nonagricultural labor force. As is the instance of many of the other counties in the Piedmont section of the State, Newberry County developed a heavily textile-oriented economy. However, with the construction of numerous manufacturing plants within the last twenty years, the economic base of Newberry County has expanded and has become diversified. In June of 2006, Schweitzer-Mauduit, a producer of premium specialty papers, announced its plans to locate in Newberry's industrial park which already houses Komatsu and Kiswire. In addition, Naysmith Group LTD, a manufacturer of aerospace components has announced plans to locate its headquarters in Newberry County and employ up to 100.

Newberry County used a 1% sales tax increase passed in 1998 to upgrade its infrastructure for water and sewer services in an effort to attract more industry. As this effort continues, plans are to build a new wastewater treatment plant to serve sewer lines. These projects will place sewer services at key interchanges for industrial development. This 1% tax was for a seven-year period. In November, 2004, the county voted to continue the 1% sales tax for another seven year period.

A \$20 million expansion by Newberry County's largest employee, Louis Rich, bringing its work force to about 1,200, solidified Kraft Food's commitment to its Newberry location. Jobs at Louis Rich have attracted a substantial Hispanic work force, introducing Newberry County to a bilingual population. To address the diversity of needs of the Hispanic population, the District has employed nine English-as-a-Second-Language teachers, and several schools are teaching their faculties Spanish.

Unemployment in the county at June 2008 was 7.3%, an increase of 1.2% from June 2007. There is some outmigration of labor, as the county adjoins Richland and Lexington counties. In-migration has been noted also, as residents seeking lower home costs and taxes have taken a look at Newberry County.

Commuting is accomplished along I-26, which runs the length of Newberry County. Major roads are U.S. Highways 76, 34, 219 and 121, with numerous state highways. Industries use rail services by all general carload freight lines. The Newberry Airport is two miles north of the city, and there are two airports with commercial service within 60 miles of Newberry.

An extensive renovation of the Newberry Opera House built in 1882 was completed in 1998. During the 1998-99 inaugural season, the Opera House hosted many different attractions including Broadway shows, dance companies, country music stars, operas and many cultural events. A new 78-room hotel located near the Opera House, The Hampton Inn, opened in March of 2002. The Opera House continues to host community events, festivals, and shows.

Newberry College provides a liberal arts education to about 920 students, in an environment sponsored by the Lutheran church. Some of its courses are provided to college-bound Newberry School District students. Newberry College has a fully accredited Education Department. Piedmont Technical College, based in Greenwood, offers degree courses and community-interest classes in its Newberry campus. Piedmont Tech has dual-credit programs with the Newberry County Career Center.

The county continues to have one of the highest per capita percentages of senior citizens among South Carolina counties. Services for senior citizens are provided through the Newberry County Council on Aging and the Dave C. Waldrop Senior Citizens Center. Two nursing homes serve Newberry. One of the facilities has an Alzheimer's unit and an assisted living center called Springfield Place, which recently expanded to add additional apartment units and homes.

The Newberry County Memorial Hospital, a 102-bed facility with 24-hour emergency room physician coverage, began major renovations in FY 2000. The first and completed \$13.425 million expansion project included a fully operational, larger, more efficient emergency room and a new radiology center with added diagnostic capabilities including a new MRI system. Other improvements have included a new medical office building, an expanded Wellness Center and in 2008, full oncology services .

Many of the counties' retirees are teachers, and they have a local association. Volunteers from the senior citizens and retirees' population assist with mentoring and Lunch Pals programs in many schools. Law enforcement officers regularly visit the schools for lunch, to provide a link between the community and the students. The officers work in conjunction with six School Resource Officers, employed by the Newberry County Sheriff's Office. Business personnel and student athletes from Newberry College also serve as Lunch Pals.

Long-term financial planning. In FY 2007-2008, the Board of Trustees approved a fund balance policy stating that the District must maintain not less than 10% of the annual general fund operating budget as a fund balance from one year to the next. The District has maintained that balance for the 2008 fiscal year at a rate of 19%.

As evidenced by the financial statements contained in this report, capital projects are one of the main areas of focus in financial planning for the District. In May of 2005, the Board of Trustees approved a list of approximately \$77,500,000 in capital needs, the result of a prioritization process of more than \$122,000,000 in overall capital needs identified in an independent study completed in December of 2004. After careful study of funding alternatives, the Board authorized the formation of Newberry Investing in Children's Education, a non-profit corporation which assisted the District in the formulation of an Installment Purchase plan, whereby the District has leased the applicable buildings to the Corporation for the purpose of capital improvements, and is in the process of purchasing them back utilizing General Obligation debt over a 25- or 26-year period, allowing the District to leverage its constitutional debt limit to complete the capital needs within a five-year construction cycle. As of June 30, 2008, the District has completed construction and renovations at Boundary Street Elementary School, and mechanical projects at Reuben Elementary School, Mid Carolina Middle School, and Newberry High School. Construction for the new Mid Carolina High School as well as the additions and renovations at Whitmire Community School has been completed as well. Renovations have begun at Little Mountain Elementary and will soon be completed. Renovations and additions to Pomaria Garmany Elementary School are well under way. At the end of this construction cycle, the District anticipates being able to house all students in permanent facilities, with a reasonable margin for future growth. The District plans are to continue monitoring growth through demographic studies to continue to maintain its Capital Needs Improvement Plan. This plan is reviewed and updated annually. Projects which will enhance the instructional program are completed as revenue permits. Input is provided from various sources as we review our capital needs.

The Energy Education program has been in place since 2004 and has averaged a total of \$2,500,000 in cost savings since that time. This program was awarded Energy Project of the Year for 2008 by the Association of S.C. Energy Managers. The Energy Education Program is closely reviewed to identify potential problems with energy usage and system malfunctions.

MAJOR INITIATIVES

The School District of Newberry County seeks to provide opportunities for successful lifelong learning through the implementation of a comprehensive plan to acquire and integrate technology, access and utilize information effectively, extend the learning environment for all and prepare productive citizens for our community and a global society. To be able to fully accomplish this goal, The District has in place a plan of action that addresses the five Technology Dimensions as laid out by the SC Educational Technology Plan.

The five Technology Dimensions are as follows:

Technology Dimension 1: Learners and Their Environment

Technology Dimension 2: Professional Capacity Technology Dimension 3: Instructional Capacity Technology Dimension 4: Community Connections Technology Dimension 5: Support Capacity

Learners and Their Environment; Students, teachers and staff must have access to the technology. Once the technology is available, there are three simultaneous areas for further implementation.

Professional, Instructional, and Support Capacity; There is the need for appropriate use of the technology in curriculum and instruction. This will be accomplished through training, and support.

Community Connections; As the resources of the school grow, and families become more adept at using technology, there is the need to open the school resources to home use.

Support Capacity; As the technology becomes more important in the learning, teaching, and operating function of the school, there is an urgent need to keep the systems (hardware and software) in top operating condition. Maintenance, repair and consistent funding for upgrades become a critical part of the process at this point.

These five dimensions form the basis for the district technology plan. This plan is not definitive, but simply a guide; a guide that can lead The School District of Newberry County into the next decade and beyond.

During the 2007-2008 school year continued progress was made in the technology arena. As well as updating our technology plan, additional computers were added to our classrooms. Smart Boards, digital projectors and enhanced sound systems were also added. Over ½ of our classrooms now have these instructional devices. The replacement of our current telephone system continues with four additional sites added to our VoIP system. Only 4 sites remain to be upgraded. IPTV – TV broadcast through the district computers – was fully implemented throughout the district for less than the price to furnish TV's in the New Whitmire and Mid-Carolina schools. Schools and teachers increased their use and creation of classroom websites. Infrastructure upgrades continue to take place to help maintain our network in top operating condition.

FINANCIAL INFORMATION

Budgetary Controls

Activities of the General Fund are included in the appropriated budget. The Special Revenue Fund is comprised of individual budgets based on contractual agreements or grants. The Debt Service Fund, the Enterprise Fund, and the Capital Projects Fund are not formally budgeted. The District also has a blended component unit: Newberry Investing in Children's Education (N.I.C.E.). Budgetary controls are used to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Trustees. Object and activity within each individual fund account through an encumbrance accounting system establish the level of budgetary control at which expenditures should not exceed the appropriated amount. Estimated purchase amounts establish the encumbrance prior to the release of purchase orders to vendors. Purchase orders, which result in an overrun at the object level, are not released until additional appropriations are made available. The Chief Financial Officer is authorized to administer the budget and may approve the transfer of appropriated funds within and between the departments/programs as necessary to achieve the goals of the budget. All transfers made within the general fund are reported to the Board. Also, when necessary, the board may approve the hiring of additional personnel during the year in order to accommodate student counts in certain areas or may approve capital purchases as deemed necessary with the available general fund balance. When this happens, the budget is not amended to reflect the additional expenditures. For these reasons, there may be instances where budgeted figures will be less than actual expenditures.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility of sound financial management.

Cash Management

The District participates in the South Carolina Local Government Investment Pool (SCLGIP) by the Office of the State Treasurer. The Newberry County Treasurer receives and receipts all cash for The School District of Newberry County and has the authority to invest these funds with SCLGIP for the District. Funds are claimed from the Treasurer and deposited into the District's accounts as necessary to meet payroll and accounts payable obligations. Instruments issued or guaranteed by the United States Government or State of South Carolina collateralize the cash accounts maintained by the District and Newberry County Treasurer.

Debt Administration

Outstanding long-term obligations at June 30, 2008 totaled \$83,365,000. This outstanding debt is for the Installment Purchase Revenue Bonds NICE Series 2005. Currently the School District's bond rating is BBB+ and AA- with Standard and Poor's Corporation and Baa1 and Aa1 (A3 underlying) with Moody's Investors Service for these issues.

Risk Management

The District has a program of risk management, which includes oversight by the Office of Finance. The District carries insurance for general liability, employee health and accident, and workers' compensation insurance through the South Carolina School Boards Insurance Trust. Settled claims resulting from these risks have not exceeded the insurance coverage in any of the past three years. The District also purchases a school-time accident policy for all students, as well as, policies for all athletes, band members, volunteers, and field trips.

INDEPENDENT AUDIT

The State Department of Education requires an annual audit of the combined financial statements of the District by independent certified public accountants. Greene, Finney, Horton, LLP conducted the audit for 2007-2008. Their opinion is included in this report.

CERTIFICATE OF ACHIEVEMENT/EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting and The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting. These Certificates are prestigious national awards recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such comprehensive annual financial reports must satisfy both generally accepted accounting principals and applicable legal requirements.

A Certificate of Achievement/Excellence is valid for a period of one year only. A Certificate of Achievement for Excellence in Financial Reporting was awarded by GFOA and a Certificate of Excellence in Financial Reporting was awarded by ASBO to The School District of Newberry County for its eleventh comprehensive annual financial report for fiscal year ended June 30, 2007. We believe our current report continues to conform to the Certificate of Achievement/Excellence program requirements, and we are submitting it to GFOA and ASBO.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the staff of the Office of Finance. We would like to express our appreciation to all members of the Office of Finance who assisted in the timely closing of the District's financial records and the preparation of this report. We thank them along with the other District departments for their assistance in the presentation and preparation of data for this report.

Respectfully submitted,

Bennie Bennett

INDEPENDENT AUDITORS' REPORT

The Board of Trustees
The School District of Newberry County
Newberry, South Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of The School District of Newberry County, South Carolina (the "School District"), as of and for the year ended June 30, 2008, which collectively comprise the School District's basic financial statements as listed in the table of contents. These basic financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall basic financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of The School District of Newberry County, South Carolina, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 8, 2008 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying management's discussion and analysis and budgetary comparison schedule for the General Fund, as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The introductory section, combining and individual fund schedules, and the statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the US Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the School District. The combining and individual fund schedules and the schedule of expenditures of federal awards have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

This discussion and analysis of The School District of Newberry County's (the "School District") financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2008. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2008 are as follows:

- The capital projects included in Newberry Investing in Children's Education ("NICE") program continued during the 2007-2008 fiscal year. NICE was established in 2005 as a nonprofit corporation and was organized primarily to construct and renovate school facilities for the use of the School District and to encourage and promote public education. Although NICE is a legally separate entity, it is controlled by the School District as all members of its board are appointed by the School District. Accordingly, NICE is reflected as a blended component unit of the School District and the financial information of NICE is included in individual columns throughout the basic financial statements.
- The assets of the School District exceeded its liabilities at the close of the most recent fiscal year by \$69.1 million. Of this amount, \$9.8 million may be used to meet the School District's ongoing obligations to citizens and creditors.
- The School District's total net assets increased by \$2.4 million, as governmental activities increased \$2.6 million and business-type activities decreased \$0.2 million.
- As of the close of the current fiscal year, the School District's governmental funds reported combined ending fund balances of \$50.0 million, a decrease of \$22.1 million from the prior year fund balance, which is attributable to NICE's capital project expenditures related to construction projects. Approximately 17% of the total amount, or \$8.6 million, is available for spending at the government's discretion.
- At the end of the current fiscal year, unreserved, undesignated fund balance for the General Fund was \$4.1 million, which was approximately 10% of total General Fund expenditures.
- The School District's total capital assets increased by \$23.2 million (29%) during the current fiscal year. The key factor in this increase was several projects which included the beginning of new construction for a new Pomaria Garmany Elementary School, Little Mountain Elementary School, as well as the continued construction at Mid-Carolina High School and the completion of Newberry High School and Whitmire Community School that were financed by the NICE installment purchase revenue bonds ("IPR") that were issued in 2006.
- The School District's total debt decreased by \$1.7 million to \$83.4 million due to scheduled principal payments.
- During the 2008 fiscal year, the School District's governmental fund revenues were \$65.2 million, compared to \$62.1 million in the prior year. This increase was primarily due to higher state revenue of \$6.3 million due to Act 388, partially offset by a decrease in local tax revenue of \$2.8 million also due to Act 388. The School District's governmental fund expenditures were \$87.5 million, compared to \$74.8 million in the prior year. The increase was primarily due to higher expenditures related to NICE's building program.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – *Introductory Section*, *Financial Section*, (which includes management's discussion and analysis, the basic financial statements, and the combining and individual fund schedules), *Statistical Section*, and the *Compliance Section*.

Government-Wide Basic Financial Statements. The basic financial statements include two kinds of statements that present different views of the School District. The first two statements are *government-wide financial statements* that provide a broad overview of the School District's overall financial status, in a manner similar to a private-sector enterprise.

The Statement of Net Assets presents information on all of the School District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTIUNED)

The *Statement of Activities* presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, for some items, revenues and expenses are reported in this statement that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the School District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the School District include instruction, supporting services, community services, intergovernmental and interest and fiscal charges. The business-type activities of the School District include a food service operation.

Fund Financial Statements. The remaining basic financial statements are *fund financial statements* that focus on *individual parts* of the School District, reporting the School District's operations in *more detail* than the government-wide statements.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. All of the funds of the School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide basic financial statements. However, unlike the government-wide basic financial statements, governmental fund basic financial statements focus on near-term uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide basic financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide basic financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The School District maintains five individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Special Revenue Fund, Special Revenue – Education Improvement Act ("EIA") Fund, Debt Service Fund and Capital Projects Fund, all of which are considered to be major funds. In addition, NICE's Capital Projects Fund and Debt Service Fund are also major funds and therefore shown in separate columns.

Proprietary Fund. The School District maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide basic financial statements. The School District uses an enterprise fund to account for its food service operation. Proprietary funds provide the same type of information as the government-wide basic financial statements, only in more detail; therefore, the proprietary fund basic financial statements provide more detailed information for the food service operation, which is considered a major fund of the School District.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide basic financial statements because the resources of those funds are not available to support the School District's own programs. The School District is the trustee, or fiduciary, for the pupil activities of the schools and accounts for these activities in an agency fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund basic financial statements.

Other Information. The combining and individual fund schedule referred to earlier in connection with governmental funds can be found as listed in the table of contents of this report.

The School District has a legally adopted budget only for its General Fund. A budgetary comparison schedule for this fund has been provided in the required supplementary information to demonstrate compliance with its budget.

The government-wide basic financial statements, the fund basic financial statements, the notes to the basic financial statements, and other information can be found as listed in the table of contents.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the School District, assets exceeded liabilities by \$69.1 million and \$66.7 million at the close of the current and prior fiscal year.

Table 1 provides a summary of the School District's net assets as of June 30, 2008 compared to June 30, 2007:

Table 1 Net Assets

	Governmental Activities			3	Business-Type Activities				Total			
		2008	200	7	2008		20	007	20	08		2007
Assets												
Current and Other Assets Capital Assets, Net	\$	61,286,846 102,537,553		34,758 54,127		6,471 4,156		,020,249 423,338		153,317 881,709	\$	83,355,007 79,677,465

Long Term Liabilities		86,328,108	88,09	00,026		-		-	86,	328,108		88,090,026
Total Liabilities		95,953,151	96,31	7,588	1:	3,109		13,109	95,	966,260		96,330,697
Net Assets												
Invested in Capital Assets,												
Net of Related Debt		55,967,770		32,236	34	4,156		423,338		311,926		55,805,574
Restricted		2,985,450		9,963		-		-		985,450		3,009,963
Unrestricted		8,918,028	6,87	79,098	85:	3,362	1	,007,140	9,	771,390		7,886,238
Total Net Assets	\$	67,871,248	65,27	1,297	1,19	7,518	1	,430,478	69,	068,766	\$	66,701,775

Current and other assets decreased \$21.2 million primarily due to expenditures relating to the construction of several schools for the School District's NICE building program. Capital assets increased \$23.2 million due to current year additions, net of depreciation expense. Other liabilities increased \$1.4 million primarily due to more amounts owed to contractors on NICE construction projects at June 30, 2008 (as compared to the prior year) as well as an increase in deferred revenues. Long term liabilities decreased \$1.8 million primarily due to scheduled principal payments on long-term debt.

The School District's government-wide net assets increased a total of \$2.4 million, or approximately 4%, during 2008. Unrestricted net assets, the part of net assets that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements, was approximately \$9.8 million at June 30, 2008, an increase of approximately \$1.9 million, due primarily to the increases in local and state revenues more than offsetting the increases in instruction related and depreciation expenses.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-wide Financial Analysis (Continued)

Governmental Activities: Net Assets for Governmental Activities increased \$2.4 million from the previous year, as revenues continued to exceed the operating expenses of the School District. This change was an increase of approximately \$0.2 million compared to the 2007 net change in net assets. Key elements of this change are as follows:

- Total revenues increased approximately \$2.6 million which is primarily attributed to higher state revenue in lieu of taxes of approximately \$4.3 million due to Act 388 and higher state and federal revenue of approximately \$2.1 million from additional EFA, fringe and retiree funding, and federal grants, partially offset by a decrease in local tax revenues of approximately \$3.2 million due to Act 388 and an approximately \$.8 million decrease in investment earnings.
- Total expenses increased \$2.1 million which is primarily attributed to higher instruction expenditures of approximately \$1.3 million and higher support service expenditures of approximately \$0.9 million primarily due to higher salaries and benefits.

Business-Type Activities: Net Assets for Business-Type Activities decreased approximately \$233 thousand from the previous year. However, this change was a decrease of approximately \$320 thousand compared to the prior year change in net assets. This change is due to expenses (primarily salaries and benefits, and food costs and supplies) increasing \$233 thousand more than revenues (primarily meal sales and USDA reimbursements).

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The analysis of governmental funds serve the purpose of looking at what resources came into the funds, how they were spent and what is available for future expenditures. Did the government generate enough revenue to pay for current obligations? What is available for spending at the end of the year?

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (CONTINUED)

Governmental Funds (Continued)

For the year ended June 30, 2008, the School District's governmental funds reported a *combined* fund balance of approximately \$50.0 million, as compared to \$72.0 million for the prior year. The decrease in governmental fund balance is primarily attributable to NICE's capital project expenditures related to the building program. In particular, unreserved, undesignated fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At June 30, 2008, the School District's unreserved, undesignated fund balance for all governmental funds was approximately \$4.1 million which solely represents the General Fund. \$4.5 million is designated for fund balance policy (policy adopted in fiscal year 2008). The remainder, approximately \$41.4 million, is reserved primarily for Capital Projects for the School District's building plans (\$30.2 million) and Debt Service (\$11.1 million).

The General Fund is the chief operating fund of the School District. At the end of the current fiscal year, the unreserved fund balance of the General Fund was \$8.6 million, and the total fund balance was also \$8.6 million. The fund balance for the School District's General Fund increased by approximately \$2.4 million, or 39%, during the current fiscal year which is attributed to increased state revenue in lieu of taxes of approximately \$5.6 million due to Act 388 and higher state revenue of approximately \$1.7 million from additional EFA and fringe and retiree funding, partially offset by a decrease in local tax revenue of approximately \$2.9 million, while expenses increased approximately \$2 million due to higher salaries and fringe benefits.

The Debt Service Funds are used to account for the accumulation of funds for debt retirement. The fund balance for the School District's Debt Service Fund remained at approximately \$3.1 million at June 30, 2008, primarily due to transfers of \$4.8 million to the NICE Debt Service fund to enable NICE to make its fiscal 2008 debt service payments on the IPR Bonds and \$0.7 million to the School District's capital projects fund for construction projects, partially offset by higher property tax revenues of \$0.1 million. The fund balance for the NICE Debt Service Fund remained at approximately \$8.0 million primarily due to principal and interest payments on outstanding debt being offset by a transfer from the District's Debt Service Fund.

Two Capital Projects funds are utilized as well to segregate NICE capital project expenditures from School District capital project expenditures. The School District's Capital Projects Fund increased approximately \$0.5 million to \$0.7 million as capital project expenditures were offset by a transfer in from the School District's Debt Service Fund. The NICE Capital Projects Fund decreased by approximately \$25.0 million from the prior year to approximately \$29.6 million and all is reserved for capital expenditures during the building program. This decrease is primarily due to capital outlay expenditures related to the building program for construction activities primarily for the beginning of new construction at Pomaria-Garmany Elementary School, Little Mountain Elementary School, as well as the continued construction at Mid-Carolina High School and the completion of Newberry High School and Whitmire Community School.

Proprietary Funds

The School District's only Proprietary Fund is the Food Service Fund. This program had a decrease in net assets of approximately \$0.2 million for 2008 due to salaries and benefits, food costs and supplies, and other expenses exceeding meal sales and USDA reimbursements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS (CONTINUED)

General Fund Budgetary Highlights

The School District's budget is prepared according to South Carolina law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During the course of the fiscal year 2008, there were no amendments to the School District's General Fund expenditure or revenue budgets. Actual revenues came in higher than budget by \$1.6 million due primarily to higher than budgeted state revenue in lieu of taxes of \$4.3 million offset by local tax revenue of approximately \$3.2 million coming in lower than budget. Actual expenditures were less than budget by \$800 thousand due to the availability of special revenue funds for instructional salaries that were expended in lieu of those budgeted expenditures in the General Fund. In addition there was a budgeted line for emergency and unexpected needs that did not need to be utilized for the 2007-2008 fiscal year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of 2008, the School District had \$102.9 million invested in capital assets, net of depreciation.

The total increase in the School District's investment in capital assets was \$23.2 million, or 29%. Major capital asset events during the current fiscal year included:

- The beginning of construction at Pomaria-Garmany Elementary School, Little Mountain Elementary School.
- The continued construction at Mid-Carolina High School
- The completion of Newberry High School and Whitmire Community School.

The following table shows the capital asset balances for 2008 and 2007:

Table III Capital Assets at June 30

						Total I	Prima	ry
		Governmental A	Activities	Business-Type	Activities	Government		
		2008	2007	2008	2007	2008		2007

The School District (through its blended component unit – NICE) has total outstanding construction commitments of approximately \$22.7 million at June 30, 2008.

More detailed information about the School District's capital assets can be found in Note III to the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

CAPITAL ASSET AND DEBT ADMINISTRATION (CONTINUED)

Debt Administration

At the end of the current fiscal year-end, the School District had \$0 in general obligation bonds ("GOB") outstanding as shown in the table below. All of the School District's debt is backed by the full faith and credit of the School District as is typical with general obligation bonded indebtedness.

In addition, the School District had \$83,365,000 in Installment Purchase Revenue Bonds ("IPR") outstanding as shown in the table below. These bonds were issued in October 2006 to finance the costs of acquiring, constructing, renovating, and installing education facilities to be sold by NICE to the School District pursuant to a School Facilities Purchase and Occupancy Agreement.

Table IV Outstanding Debt, at Year End

	Governmental Activities 2008		Governmental Activities 2007		
Series 2004 GOBs NICE Series 2005 IPR Bonds	\$	83,365,000	\$	800,000 84,285,000	
Total	\$	83,365,000	\$	85,085,000	

The State limits the amount of general obligation debt that school districts can issue to 8% of the assessed value of all taxable property within the School District's corporate limits. The School District is authorized by state statute to exceed the legal debt margin of 8%, if citizens of the School District approve such additional debt through a district-wide referendum. The School District's outstanding general obligation debt is well below this state-imposed limit – see table 12 in the statistical section for more details.

The School District (including its blended component unit – NICE) made principal payments of \$1.72 million during 2008. As noted earlier, other obligations include accrued compensated absences. More detailed information about the School District's debt and other long-term obligations is presented in Note III to the basic financial statements.

ECONOMIC FACTORS

The School District of Newberry County's tax base has grown approximately 39% since 1999 to \$109 million in 2008. Growth increased due to reassessment in 2007. Total property tax collections remain strong averaging around 97%. Although Newberry County's employment base is largely manufacturing, The School District of Newberry County is the second largest employer within the county.

FY 09 BUDGETS

Many factors were considered by the School District's administration during the process of developing the fiscal year 2008-2009 budget including the possibility of budget reductions due to economic concerns in the state. The School District's objective continues to be equity and maintenance of pupil to teacher ratios in elementary grades. Staffing at all schools was closely analyzed and changes made as needed. The School District chose to fund all mandatory increases such as teacher pay and contractual agreements but also included a modest pay increase for all employees.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2008

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide those interested with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, at The School District of Newberry County, 1539 Martin Street, Newberry, South Carolina, 29108.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET ASSETS

JUNE 30, 2008

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS		\$ 49,959,917
Amounts reported for the governmental activities in the Statement of Net Assets are different because:		
Property taxes receivable will be collected in the future, but are not available soon enough to pay for the current period's expenditures, and therefore are deferred in the funds.		579,512
Bond issuance costs are amortized over the lives of the bonds in the Statement of Net Assets; however, in the governmental funds, the costs are expenditures in the year they are incurred. The bond issuance costs are shown net of accumulated amortization of \$119,920.		1,079,280
Certain management fees related to construction activities have been capitalized and are being amortized over the life of the construction activities in the Statement of Net Assets; however, in the governental funds, the costs are expenditures in the year they are incurred. These fees are shown net of accumulated amortization of \$455,644 and are included in Other Assets.		398,688
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is		102 527 552
\$126,579,319, and the accumulated depreciation is \$24,041,765.		102,537,553
Accrued interest on the bonds in governmental accounting is not due and payable in the current period and therefore is not reported as a liability in the funds.		(355,594)
Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year-end consisted of the following:		
Bonds Payable	(83,365,000)	
Premium on Bonds Payable Compensated Absences	(2,469,490) (493,618)	(86,328,108)
Compensated Absences	(493,010)	 (00,320,100)

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES

YEAR ENDED JUNE 30, 2008

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$	(22,082,215)
Amounts reported for governmental activities in the Statement of Activities are different because:		
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds. This amount represents the change in deferred revenues for the year.		(152,351)
Repayment of bond principal is an expenditure in the governmental funds, but the payment reduces long-term liabilities in the Statement of Net Assets.		1,720,000
Bond issuance costs are expenditures in the year they are incurred in the governmental funds but are amortized over the lives of the bonds in the Statement of Activities. This amount is the difference between the capitalized issuance costs incurred and the amortization for the current period.		(47,968)
Bond premiums are reflected as other financing sources in the governmental funds when they are received but are amortized over the lives of the bonds in the Statement of Activities. This amount is the difference between the premiums received and the amortization for the current period.		109,755
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This amount is the net change in accrued interest.		8,008
In the Statement of Activities the loss on the sale of capital assets is reported; whereas, in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the net book value of the assets disposed.		(68,288)
Certain management fees related to construction activities have been capitalized and are being amortized over the life of the construction activities in the Statement of Activities. However, in the governental funds, these costs are expenditures in the year they are incurred.		(170,867)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.		(67,837)
Governmental funds report capital asset additions as expenditures. However, in the Statement Activities, the cost of those assets is allocated over their estimated useful lives as depreciation. This is the amount by which capital additions of \$25,556,587 exceeded depreciation expense of		
\$2,204,873 in the current period.	-	23,351,714
CHANGE IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$	2,599,951

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. The Reporting Entity

The School District of Newberry County, South Carolina (the "School District"), established in 1952, is the government which has responsibility for and control over all activities related to public school education in substantially all of Newberry County. The School District receives funding from local, state, and federal government sources, and must comply with the related requirements of these funding source entities. The School District is governed by a seven member Board of Trustees (the "Board").

The basic financial statements of the School District have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Government Accounting Standards Boards ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below

All activities, for which the Board exercises oversight responsibility, have been incorporated into the basic financial statements to form the reporting entity. The School District's basic financial statements include the accounts of all School District operations, including, but not limited to, general operations and supporting services, food service operations, capital projects, debt service activities, and agency transactions.

The primary criterion for determining inclusion or exclusion of a legally separate entity (component unit) is financial accountability, which is presumed to exist if the School District both appoints a voting majority of the entity's governing body, and either 1) the School District is able to impose its will on the entity or, 2) there is a potential for the entity to provide specific financial benefits to, or impose specific financial burdens on, the School District. If either or both of the foregoing conditions are not met, the entity could still be considered a component unit if it is fiscally dependent on the School District. In order to be considered fiscally independent, an entity must have the authority to do all three of the following:

- i) Determine its budget without the School District having the authority to approve or modify that budget;
- ii) Levy taxes or set rates or charges without approval by the School District; and
- iii) Issue bonded debt without approval by the School District.

Finally, an entity could be a component unit even if it met all the conditions described above if excluding it would cause the School District's basic financial statements to be misleading or incomplete. Blended component units, although legally separate entities, are in substance, part of the government's operations and data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the basic financial statements to emphasize they are legally separate from the School District. Based on the above criteria, the School District has one blended component unit; it does not have any discretely presented component units.

Blended Component Unit: Newberry Investing in Children's Education ("NICE") was incorporated as a nonprofit corporation on June 3, 2005, pursuant to the provisions of the South Carolina Nonprofit Corporation Act of 1994. The Articles of Incorporation and Bylaws of NICE provide that NICE has been organized exclusively for educational and charitable purposes, specifically to (1) acquire, construct, finance, pledge, improve, maintain, operate, manage, lease, and dispose of school buildings and other public education facilities for the use and benefit of the School District and (2) encourage and promote public education through cooperative arrangements with governmental entities and organizations exempt under Section 501(c)(3) of the Internal Revenue Code of 1986 that provide public education in Newberry County, South Carolina.

NICE has five board members; they are appointed by the Board of the School District for three year terms and may be removed by the Board with or without cause at any time. The names of the current members of NICE's board

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. The Reporting Entity (Continued)

are as follows: O.L. "Buddy" Johnson, J. Thomas Johnson, Timothy L. Carroll, Donald Layton and John E. Caldwell. Because NICE exclusively benefits the School District, NICE's financial information is blended with that of the School District in these basic financial statements. Separate financial information for NICE is included in individual columns throughout the basic financial statements. Separate financial statements for NICE are not issued.

B. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide basic financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the non-fiduciary activities of the School District (the "Primary Government") and its component units. Interfund activity has been eliminated from the government-wide basic financial statements except for charges between the governmental and business-type activities. Elimination of these charges would distort the direct costs and program revenues reported in the various functions concerned.

Governmental Activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from Business-Type Activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

The **Government-Wide Basic Financial Statements** are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the Proprietary Fund basic financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The government-wide statements are prepared using a different measurement focus from the manner in which governmental fund basic financial statements are prepared (see further detail below). Governmental fund basic financial statements therefore, include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Governmental Fund Basic Financial Statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, Debt Service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash has been received by the government.

Fund basic financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Fiduciary funds are reported by fund type.

When both restricted and unrestricted resources are available for use, it is the School District's practice to use restricted resources first, then unrestricted resources as they are needed.

The accounts of the government are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. There are a minimum number of funds maintained to keep the accounts consistent with legal and managerial requirements. The following major funds and fund types are used by the School District:

Governmental Fund Types are those through which most governmental functions of the School District are financed. The School District's expendable financial resources and related assets and liabilities (except for those accounted for in the Proprietary Fund) are accounted for through governmental funds. Governmental funds are accounted for using a current financial resources measurement focus and the modified accrual basis of accounting. The following are the School District's major governmental funds:

The *General Fund*, *a major fund*, is the general operating fund of the School District and accounts for all revenues and expenditures of the School District except those required to be accounted for in another fund. All general tax revenues and other receipts that are not allocated by law or contractual agreement to other funds are accounted for in the General Fund. General operating expenditures and capital improvement costs that are not paid through other funds are paid from the General Fund. This is a budgeted fund, and any unreserved fund balance is considered a resource available for use.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The School District has two Special Revenue Funds:

- i) The Special Revenue Fund, a major fund and an unbudgeted fund, is used to account for financial resources provided by federal, state and local projects and grants.
- ii) The Special Revenue Education Improvement Act ("EIA") Fund, a major fund and an unbudgeted fund, is used to account for the revenue from the South Carolina Education Improvement Act of 1984, which is legally required by the state, to be accounted for as a specific revenue source.

The *Debt Service Fund - District*, *a major fund* and an unbudgeted fund, is used to account for the accumulation of resources for, and payment of, all long-term debt principal, interest and related costs for the School District.

The **Debt Service Fund - NICE**, a major fund and an unbudgeted fund, is used to account for the accumulation of resources for, and payment of, all long-term debt principal, interest and related costs for NICE.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The *Capital Projects Fund - District*, *a major fund* and an unbudgeted fund, is used to account for financial resources to be used for site acquisitions, construction, equipment, and renovation of all major capital facilities except for those financed in the Enterprise Fund.

The *Capital Projects Fund - NICE*, a major fund and an unbudgeted fund, is used to account for financial resources to be used for site acquisitions, construction, equipment, and renovation of all major capital facilities for NICE.

Proprietary Fund Types are accounted for based on the flow of economic resources measurement focus and use of the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The School District applies all applicable Governmental Accounting Standards Board ("GASB") pronouncements, as well as the requirements of the Financial Accounting Standards Board ("FASB") Statements and Interpretations, Accounting Principles Board ("APB") Opinions, and Accounting Research Bulletins ("ARB"s), issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The School District has elected not to apply the standards issued by those organizations after November 30, 1989 as allowed by GAAP.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Fund are charges to students and teachers for breakfast, lunch, and special sales. Operating expenses for the Enterprise Fund include the cost of sales, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non operating revenues and expenses.

Proprietary fund types include the following:

The *Enterprise Fund* is used to account for those operations that are financed and operated in a manner similar to private business enterprises or where the School District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is necessary for management accountability. The Food Service Fund is the School District's only enterprise fund and is used to account for the United States Department of Agriculture's ("USDA") approved school breakfast and lunch programs. This is an unbudgeted fund.

Fiduciary Fund Types are used to account for expendable assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds and include Agency Funds. Fiduciary fund types include the following:

Agency Fund, an unbudgeted fund, accounts for the receipt and disbursement of monies to and from student activity organizations. These funds have no measurement focus; accordingly, they have no equity (assets are equal to liabilities) and do not include revenues and expenditures for the general operation of the School District. This accounting reflects the agency relationship of the School District with the student activity organizations.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity

1. Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents

The School District considers all highly liquid investments (including restricted assets) with original maturities of three months or less when purchased and investments in the South Carolina Pooled Investment Fund ("Pool") to be cash equivalents. Securities with an initial maturity of more than three months (from when initially purchased) that are not purchased from the pool are reported as investments.

Investments

The School District's investment policy is designed to operate within existing statutes (which are identical for all funds and fund types within the State of South Carolina) that authorize the School District to invest in the following:

- (a) Obligations of the United States and agencies thereof;
- (b) General obligations of the State of South Carolina or any of its political units;
- (c) Savings and Loan Associations to the extent that the same are insured by an agency of the Federal Government;
- (d) Certificates of Deposit and funds in deposit accounts with banking institutions provided that such certificates and funds in deposit accounts are collaterally secured by securities of the type described in (a) and (b) above, held by a third party as escrow agent, or custodian of a market value, not less than the amount of the certificates or funds in deposit accounts so secured, including interest; provided, however, such collateral shall not be required to the extent the same are insured by an agency of the federal government;
- (e) Collateralized repurchase agreements when collateralized by securities as set forth in (a) and (b) above and held by the School District or a third party as escrow agent or custodian; and
- (f) No load open-end or closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond or other debt issue of that local government unit, political subdivision, or county treasurer if the particular portfolio of the investment company or investment trust in which the investment is made (i) is limited to obligations described in items (a), (b), and (e) of this subsection, and (ii) has among its objectives the attempt to maintain a constant net asset value of one dollar a share and to that end, value its assets by the amortized cost method.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

1. Cash, Cash Equivalents, and Investments (Continued)

Investments (Continued)

The School District's cash investment objectives are preservation of capital, liquidity and yield. The School District reports its cash and investments at fair value which is normally determined by quoted market prices. The School District currently or in the past year has used the following investments:

- Cash and Investments held by the County Treasurer which are property taxes and other funds collected by the School District's fiscal agent that have not been remitted to the School District. The County Treasurer invests these funds in investments authorized by state statute as outlined above. All interest and other earnings gained are added back to the fund and are paid out by the County Treasurer to the respective governments on a periodic basis. Currently, the County Treasurer invests governmental funds it receives in the State Local Government Investment Pool ("Pool"). These investments are invested with the South Carolina State Treasurer's Office, which established the South Carolina Pool pursuant to Section 6-6-10 of the South Carolina Code. The Pool is an investment trust fund, in which public monies in excess of current needs, which are under the custody of any city treasurer or any governing body of a political subdivision of the State, may be deposited. The Pool is a 2a 7-like pool which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but has a policy that it will operate in a manner consistent with the SEC's Rule 2a 7 of the Investment Company Act of 1940. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", investments are carried at fair value determined annually based upon quoted market prices. The total fair value of the Pool is apportioned to the entities with funds invested on an equal basis for each share owned, which are acquired at a cost of \$1.00.
- Repurchase agreements are a type of transaction in which a money market participant acquires immediately
 available funds by selling securities and simultaneously agreeing to repurchase the same or similar
 securities after a specified time at a given price, which typically includes interest at an agreed-upon rate.
 The School District's repurchase agreements are considered investments as they are purchased with
 maturities of more than three months.

2. Restricted Assets

The School District established certain accounts for assets restricted for specific purposes, typically by outside parties or legal agreement. Certain bond indentures require the establishment of (i) maximum annual principal and interest payments, unless a surety bond was provided; (ii) the next succeeding principal and accrued interest payment; and (iii) bond proceeds to be used for construction purposes as required in the bond agreement.

3. Receivables and Payables

Transactions between funds that are representative of reimbursement arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Assets, except for the net residual amounts due between governmental and business-type activities, which are presented as "internal balances". All trade and property taxes receivables are shown net of an allowance for uncollectibles.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

4. Inventories and Other Assets

Inventories

Inventories in the Food Service Fund consist of purchased goods, supplies, and United States Department of Agriculture ("USDA") commodities, which are stated at values assigned by the USDA. Under the system of accounting for inventories, materials and supplies are carried in an inventory account at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures/expenses when consumed rather than when purchased.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

5. Capital Assets

General capital assets are those assets not specifically related to activities reported in the Proprietary Funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Assets, but are not reported in the fund basic financial statements. Capital assets utilized by the Proprietary Funds are reported both in the business-type activities column of the government-wide Statement of Net Assets and in the respective fund basic financial statements.

All capital assets are recorded at cost (or estimated historical cost). The capital asset system is updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$5,000 for furniture and equipment, vehicles, land improvements and buildings and improvements. The School District's infrastructure assets are immaterial and have been reported with the buildings and improvements. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is not capitalized for governmental activities.

All reported capital assets except land and construction in progress are depreciated. Construction projects begin being depreciated once they are complete, at which time the complete costs of the project are transferred to the appropriate capital asset category. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental	Business-Type
	Activities	Activities
Description	Estimated Lives	Estimated Lives
Buildings and Improvements	25-40 years	N/A
Improvements Other Than Building	20 years	N/A
Vehicles	10 years	10 years
Machinery and Equipment	5-20 years	N/A
Furniture and Equipment	5-20 years	5-20 years

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

6. Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, *Accounting for Compensated Absences*. School District employees are granted vacation and sick leave in varying amounts. Upon termination of employment, an employee is reimbursed for accumulated vacation days. Unused sick leave is paid out to employees with over 90 days of accrued sick leave at the rate of \$15 per day over 90 days. The entire compensated absence liability and expense is reported on the government-wide basic financial statements. In addition, compensated absences are reported in governmental funds only if they have unused reimbursable leave still outstanding following an employee's resignation or retirement.

7. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide basic financial statements, and all payables, accrued liabilities, and long-term obligations payable from the proprietary fund are reported in the proprietary fund basic financial statements. In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund basic financial statements regardless of whether they will be liquidated with current resources.

However, claims and judgments, compensated absences, contractually required retirement contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year-end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

In the government-wide basic financial statements, long-term debt and other long-term obligations are reported as liabilities on the Statement of Net Assets. Bond premiums, as well as bond issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Amortization of premiums and bond issuance costs are included in interest expense. Bond premiums are included with bonds payable and other long-term obligations. Bond issuance costs are reported as other assets and are amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

8. Fund Balance

In the fund basic financial statements, the School District reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves have been established for inventories of supplies and materials and prepaid items. Designations of fund balance represent tentative management plans that are subject to change. Designations of fund balance include 10% of the next year's General Fund appropriations as a policy adopted by the Board. The designation of \$4,502,221 as of June 30, 2008 represents 10% of the original budget for the General Fund for fiscal year 2009.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Assets, Liabilities, and Equity (Continued)

9. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Outstanding debt, which has not been spent, is included in the same net assets component as the unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

10. Accounting Estimates

The preparation of basic financial statements in accordance with accounting principles generally accepted in the United States of America requires the School District's management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

11. Comparative Data

Comparative data (i.e., presentation of prior year totals by fund type) have not been presented in each of the statements since their inclusion would make the statement unduly complex and difficult to read.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Budgetary Practices – A budget is presented as required supplementary information for the General Fund.

The budget is presented on the modified accrual basis of accounting which is consistent with accounting principles generally accepted in the United States of America.

The budget is prepared by function and object as dictated by the State of South Carolina adopted Program Oriented Budgeting and Accounting System and for management control purposes. The School District's policies allow funds to be transferred between functions. However, the total budget cannot be increased beyond that level without approval of the Board in a supplementary action. The legal level of control is at the fund level. During the year, the Board did not significantly revise the budget.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- (1) In the fall of the preceding year, the School District begins its budget process for the next succeeding fiscal year.
- (2) The School District's administrative budget committee reviews all requests and allocation requirements and related revenue. The Superintendent then meets with each principal to discuss budget needs at their individual locations.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

A. Budgetary Information (Continued)

- (3) The Chief Financial Officer presents a proposed budget to the Board of Trustees which reviews it in a series of workshops and makes any additions or deletions it deems necessary.
- (4) Prior to July 1, the budget is legally enacted through passage of a resolution by the Board.

The administration has discretionary authority to make transfers between appropriation accounts. The revised budget amounts in the required supplementary information section of the financial statements (if different) are as amended by the administration. All annual appropriations lapse at fiscal year end.

Encumbrance accounting is employed in governmental funds. Encumbrances outstanding at year end do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES

A. Deposits and Investments

Deposits

<u>Custodial Credit Risk for Deposits</u>: Custodial credit risk for deposits is the risk that, in the event of a bank failure, the School District's deposits might not be recovered. The School District does not have a deposit policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2008, \$11,336 of the School District's bank balances of \$4,677,619, which had a carrying value of \$1,974,492, were exposed to custodial credit risk, as they were uninsured and uncollateralized.

Investments

As of June 30, 2008, the School District had the following investments:

Investment Type	Credit Rating	_	Fair Value	Investment Maturity
Cash and Investments Held by County Treasurer	Unrated	\$	13,415,262	^
Repurchase Agreement - Citigroup Global Markets	Unrated		31,816,831	10/01/2010
Repurchase Agreement - Royal Bank of Canada	Unrated		7,955,958	12/01/2015
Total		\$	53,188,051	

[^] Investments in 2a-7 like funds are not required to disclose interest rate risk. The County Treasurer invests the monies it holds in trust for governmental entities in a separate account with the South Carolina Local Government Investment Pool. Thus, we have characterized this investment as a 2a-7 like fund.

<u>Interest Rate Risk:</u> The School District does not have a formal policy limiting investment maturities that would help manage its exposure to fair value losses from increasing interest rates.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

A. Deposits and Investments (Continued)

Custodial Credit Risk for Investments: Custodial credit risk for investments is the risk that, in the event of a bank failure, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District does not have an investment policy for custodial credit risk but follows the investment policy statutes of the State of South Carolina. As of June 30, 2008, all of the School District's investments in repurchase agreements were exposed to custodial credit risk as the underlying securities were held by a third-party agent, not in the name of the School District.

<u>Credit Risk for Investments</u>: Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District does not have an investment policy for credit risk but follows the investment policy statutes of the State of South Carolina.

<u>Concentration of Credit Risk for Investments</u>: The School District places no limit on the amount the School District may invest in any one issuer. Investments issued by or explicitly guaranteed by the U.S. Government and investments in mutual funds, external investment pools, and other pooled investments are exempt from concentration of credit risk disclosures.

B. Property Taxes and Other Receivables

Newberry County, South Carolina (the "County") is responsible for levying and collecting sufficient property taxes to meet funding obligations for the School District. This obligation is established each year by the School Board and does not necessarily represent actual taxes levied or collected. The property taxes are considered both measurable and available for purposes of recognizing revenue and a receivable from the County at the time they are collected by the County.

Property taxes are levied and billed by the County on real and personal properties on October 1 based on an assessed value of approximately \$109 million at rates of 190.0 mills and 53.0 mills for the General Fund and Debt Service Fund, respectively. These taxes are due without penalty through January 31. Penalties are added to taxes depending on the date paid as follows:

January 16 through February 1 - 3% of tax February 2 through March 15 - 10% of tax

After March 15 - 15% of tax plus collection costs

Current year real and personal taxes become delinquent on March 16. Unpaid property taxes become a lien against the property as of August 1 of the calendar year following the levy date. The levy date for motor vehicles is the first day of the month in which the motor vehicle license expires. These taxes are due by the last day of the same month.

Taxes receivable includes an allowance for uncollectibles of approximately \$330,000 at June 30, 2008. Allowances for uncollectibles were not necessary for the other receivable accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

B. Property Taxes and Other Receivables (Continued)

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At June 30, 2008, the various components of deferred/unearned revenue reported in the governmental funds were as follows:

Delinquent Property Taxes Receivable - General Fund	\$ 417,171
Delinquent Property Taxes Receivable - Debt Service Fund	162,342
Unearned Revenue from Special Revenue Funds	1,361,561
Unearned Revenue from Capital Projects Fund	4,671
Total Deferred/Unearned Revenue for Governmental Funds	\$ 1,945,745

C. Interfund Receivables and Payables

Interfund balances at June 30, 2008 (all of which are expected to be received or paid within one year), consisted of the following individual fund receivables and payables:

Fund	R	Receivables		Payables
General Fund	\$	3,919,923	\$	94,621
Special Revenue Funds:				
Special Revenue		-		1,074,813
Education Improvement Act		-		198,966
Debt Service Fund - District		3,378		-
Capital Projects Fund - District		92,216		377,968
Capital Projects Fund - NICE		376,995		2,316,534
Enterprise Fund		-		329,610
	\$	4,392,512	\$	4,392,512

The General Fund receivable is a result of Special Revenue owing the General Fund for claims that were filed but not yet received, the General Fund paying for construction expenditures for the District Capital Projects Fund and the General Fund paying for payroll costs for the Food Services Fund. The General Fund payable is a result of amounts received for state claims on behalf of the EIA Fund and various transactions for the NICE Capital Projects and District Debt Service Funds. The NICE Capital Project Fund receivable and most of the corresponding payable for the District Capital Projects Fund is due to amounts paid by NICE on behalf of the District's Capital Project Fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

D. Capital Assets (Continued)

Depreciation expense was charged to functions/programs as follows for 2008:

Governmental Activities:

Instruction	\$ 1,347,012
Support Services	857,861
Total Depreciation Expense - Governmental Activities	\$ 2,204,873
Business-Type Activities: Food Services	\$ 90,229
Total Depreciation Expense - Business-Type Activities	\$ 90,229

In May of 2005, the Board of Trustees approved a list of approximately \$77,500,000 in capital needs, the result of a prioritization process of more than \$122,000,000 in overall capital needs identified in an independent study completed in December of 2004. After careful study of funding alternatives, the Board authorized the formation of NICE, a non-profit corporation which assisted the School District in the formulation of an Installment Purchase plan, whereby the School District has leased the applicable buildings to the Corporation for the purpose of capital improvements, and is in the process of purchasing them back utilizing General Obligation debt over a 25 or 26 year period, allowing the School District to leverage its constitutional debt limit to complete the capital needs within a five-year construction cycle versus the more piecemeal approach of "pay as you go." The School District is continuing with its expansion program, using proceeds from NICE's debt offering. During 2008, the School District has completed addition and renovation projects at Newberry High School and Whitmire Community School, continued construction on the new Mid-Carolina High School and the additions and renovations project at Little Mountain Elementary, and begun construction on the new Pomaria Garmany Elementary School. At the end of this construction cycle, the School District anticipates being able to house all students in permanent facilities, with a reasonable margin for future growth.

Agreement with Institutional Resources LLC

During 2006, the School District and NICE entered into an agreement (the "Agreement") with Institutional Resources, LLC (the "Project Manager") to provide program and capital advisory management services in connection with Capital Projects (as defined in the Agreement) to be funded with the proceeds from the NICE bond issue (see Note III.F.). The expected completion date for all of these Capital Projects is 2010. This may change in response to changing circumstances.

Construction Commitments

The School District has several ongoing construction projects as of June 30, 2008, consisting primarily of capital projects with NICE. The projects include renovation of existing schools as well as construction of new facilities. Total outstanding construction commitments at June 30, 2008 are approximately \$22,701,000, which will be funded using the proceeds from the NICE Installment Purchase Revenue Bonds – see Note III.H for details on this indebtedness.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

E. Accounts Payable and Accrued Expenses

The significant components of accounts payable and accrued expenses at June 30, 2008, consisted of the following:

Governmental Activities:

Accounts Payable	\$ 3,518,857
Retainage Payable	1,149,604
Accrued Salaries	2,221,564
Accrued Fringe and Benefits	1,013,191
Total Accounts Payable and Accrued Expenses - Governmental Activities	\$ 7,903,216

F. Operating Lease

The School District entered into an operating lease agreement for copier equipment during fiscal year 2006. The lease runs for a period of 60 months ending November 2010, and the payments are on a cost per copy basis. The estimated future minimum payments are approximately \$127,000 per year. In July 2007, the School District added a copier to their original lease raising their monthly payment to \$10,850, or approximately \$130,000 annually. Total charges under this agreement were approximately \$130,000 for the year ended June 30, 2008.

G. Short-Term Obligations

	Beg	inning			Ending
Governmental Activities:	Ba	lance	Additions	Reductions	Balance
General Obligation Bond	\$	-	5,500,000	5,500,000	\$ -
Tax Anticipation Note - SCAGO		-	1,924,686	1,924,686	-
Total Governmental Activities	\$	-	7,424,686	7,424,686	\$ -

In October 2007, the School District issued \$5,500,000 of general obligation bonds for the purpose of making payments to NICE. These bonds, including interest of \$81,435, were repaid upon maturity in April 2008 utilizing debt service fund property tax revenues.

In August 2007, the School District participated in a Tax Anticipation Note ("TAN") program through the South Carolina Association of Government Officials ("SGAGO"). The School District withdrew \$1,924,686 of the maximum amount of \$2,000,000 that was available under this program to help provide financial resources for operations. This amount, including interest of \$32,236, was repaid in March 2008.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

H. Long-Term Obligations

The School District had the following outstanding indebtedness at June 30, 2008:

2005 Series:

NICE Installment Purchase Revenue Bonds ("IPR Bonds") in the original amount of \$84,725,000, principal due in annual installments of \$30,000 to \$7,930,000 at December 1; interest at 3.50% to 5.25% paid semiannually, with a final maturity date in December 2031. The bonds are subject to redemption at NICE's option beginning in December 2015. In connection with the issuance of this indebtedness, a premium of \$2,743,878 and bond issuance costs of \$1,199,200 were recorded and are being amortized over the life of the bonds. The unamortized premium and bond issuance costs at June 30, 2008 were \$2,469,490 and \$1,079,280, respectively.

The NICE Series 2005 Installment Purchase Revenue Bonds ("IPR Bonds") are not an obligation of the School District; however, as NICE is blended with the operations of the School District, NICE's debt is included with the School District's other obligations as required by GAAP.

The following is a summary of changes in long-term obligations for the year ended June 30, 2008:

Long-Term Obligations	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental Activities:		11441110110	110444010115	Burune	0110 1 011
Debt:					
Series 2004	\$ 800,000	-	800,000	-	\$ -
NICE Series 2005 IPR Bonds	84,285,000		920,000	83,365,000	1,045,000
Total Debt	85,085,000	-	1,720,000	83,365,000	1,045,000
Premium on NICE Series 2005	2,579,245	-	109,755	2,469,490	-
Compensated Absences	425,781	116,953	49,116	493,618	30,526
Total Governmental Activities	\$ 88,090,026	116,953	1,878,871	86,328,108	\$ 1,075,526

General Fund resources typically have been used in prior years to liquidate the compensated absence obligation. The Debt Service Funds have primarily been used to service all other long-term obligations.

Interest paid on the debt issued by the School District is exempt from federal income tax. The School District sometimes temporarily reinvests the proceeds of such tax-exempt debt in materially higher-yielding taxable securities, especially during construction projects. The federal tax code refers to this practice as arbitrage. Excess earnings (the difference between the interest on the debt and the investment earnings received) resulting from arbitrage must be rebated to the federal government. The School District does not have any liability for arbitrage as of June 30, 2008.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

H. Long-Term Obligations (Continued)

The IPR Bonds were issued by NICE in October 2005 to finance the costs of acquiring, constructing, renovating and installing educational facilities (the "2005 Facilities") to be sold by NICE to the School District pursuant to a School Facilities Purchase and Occupancy Agreement dated September 15, 2005. NICE executed a Trust Agreement in connection with the IPR Bonds and established the following accounts:

- Project Account Proceeds in these funds will be used to pay administrative fees, as well as construction costs of the Capital Projects. The total in this account was \$31,816,831 at June 30, 2008.
- Reserve Account Funds may only be used to make bond payments to the extent necessary to make up for a deficiency in the Base Lease Rental account – see below. The total in this account was \$7,960,412 at June 30, 2008.

The IPR Bonds were issued pursuant to a Facilities Agreement and Base Lease Agreement between the School District and NICE. These agreements were authorized and approved by the Board of Trustees of the School District in September 2005. The Facilities Agreement permits the School District to design, construct, renovate equip, furnish occupy and operate the facilities in exchange for the payment by the School District on a semi-annual basis of installments of the purchase price of the facilities sufficient to pay the principal and interest on the IPR Bonds as such amounts become due. By making each such payment of purchase price, the School District acquires an undivided interest in the facilities. Upon the making of the final scheduled payment of purchase price under the Facilities Agreement, the School District will have purchased all interest of NICE in the facilities and will own the facilities outright. The School District's obligations under the Facilities Agreement are from year to year only and do not constitute a mandatory payment obligation of the School District in any fiscal year in which funds are not appropriated by the School District to pay the installment payments of purchase price due in such fiscal year. However, the School District would forfeit possession of the Facilities for the remainder of the term of the Lease if it did not make the payment to NICE.

The annual debt service requirements to maturity for the bonded indebtedness are as follows:

Years Ending	General Obligation Bonds			
June 30		Principal	Interest	Totals
2009	\$	1,045,000	4,246,225	\$ 5,291,225
2010		1,185,000	4,195,700	5,380,700
2011		1,335,000	4,132,700	5,467,700
2012		1,500,000	4,061,825	5,561,825
2013		1,670,000	3,982,575	5,652,575
2014-2018		11,390,000	18,323,375	29,713,375
2019-2023		17,755,000	14,537,993	32,292,993
2024-2028		26,260,000	8,839,044	35,099,044
2029-2031		21,225,000	1,664,375	22,889,375
Totals	\$	83,365,000	63,983,812	\$ 147,348,812

Section 15 of Article X of the South Carolina State Constitution allows School Districts to incur a legal debt limit not to exceed 8 percent of the assessed value of all taxable property in the School District, unless approved by a majority vote in a referendum authorized by law. At June 30, 2008, the School District's assessed property valuation was approximately \$109,490,000, and the legal debt limit was approximately \$8,760,000, of which \$5,540,000 in outstanding indebtedness was applicable to this limit as of the date of issuance of the financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

I. Transfers In and (Out)

Transfers from (to) other funds for the year ended June 30, 2008, consisted of the following:

	Gene	eral Fund	
Transfers from	Amount	Transfers to	Amount
Special Revenue - EIA	\$ 821,864	•	\$ -
Food Service - Indirect Cost	164,138		-

Interfund transfers include funding allowed for indirect costs, required matches, supplemental funding, state cuts, and accounting practice. The transfers for the year ended June 30, 2008, consisted of the following:

General Fund

Transfers from:

Funds were transferred into the General Fund from other funds to cover EIA raises for teachers and indirect costs for federal programs and food service.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

III. DETAILED NOTES ON ALL FUNDS AND ACTIVITIES (CONTINUED)

I. Transfers In and (Out) (Continued)

Special Revenue Funds.

Transfers to:

Funds were transferred from Special Revenue/EIA funds into other funds to cover indirect cost on federal programs and the EIA raise for teachers.

Debt Service and Capital Projects Funds.

Transfers

Funds were transferred into the Debt Service – NICE and the Capital Projects – District from the Debt Service – District to fund the 2008 debt service payments for the NICE bonds and to fund additional capital projects.

Proprietary Fund

Transfers to:

Funds were transferred from the Food Service Fund into the General Fund for indirect costs.

IV. OTHER INFORMATION

A. Retirement Plan

Plan Description – Substantially all School District employees are members of the South Carolina Retirement System ("SCRS"). The South Carolina Retirement System is a cost-sharing multi-employer defined benefit pension plan administered by the South Carolina Retirement System; a division of the South Carolina State Budget and Control Board. The system offers retirement and disability benefits, cost of living adjustments on an ad-hoc basis, life insurance benefits and survivor benefits. The Plan's provisions are established under Title 9 of the SC Code of Laws. Comprehensive Annual Financial Reports containing financial statements and required supplementary information for the System are issued and publicly available by writing the South Carolina Retirement System, P.O. Box 11960, Columbia SC 29211-1960.

Funding Policy – Both employees and employers are required to contribute to the Plan under authority of Title 9 of the SC Code of Laws. Employee contributions to the Plan are 6.5% of salary. Employers are required to contribute at the following actuarially determined rates: SCRS State Agencies & Public Schools – 9.06%. In addition to the above rates participating employers of the South Carolina Retirement System contribute 3.40% of payroll to provide retiree health and dental insurance and a group life insurance benefit for their active participants. All employers contribute at the actuarially required contribution rates. The School District contributed amounts equal to the required contribution to the SCRS of approximately \$4,345,000, \$3,733,000 and \$3,308,000 for the years ended June 30, 2008, 2007, and 2006 respectively.

B. Grants

The School District participates in a number of federally assisted grant programs. These programs are subject to financial and compliance audits of major program requirements under the Office of Management and Budgets' Circular A-133 <u>Audits of States, Local Governments, and Non-Profit Organizations</u>. Any disallowed claims, including amounts already collected, could become a liability of the School District. However, the School District expects such amounts, if any, to be immaterial.

NOTES TO THE BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2008

IV. OTHER INFORMATION (CONTINUED)

C. Risk Management

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees' and natural disasters. Because of the high cost of insurance purchased from commercial insurers, the School District has chosen to participate with other school districts in the State in the South Carolina School Boards Insurance Trust/Workers' Compensation Pool ("SCSBIT/WCP") and in its Property and Casualty Pool ("SCSBIT/PCP"). This public entity risk pool operates as a common risk management and insurance program for member school districts. The School District pays annual premiums to the public entity risk pools for its workers' compensation and property liability insurance coverage based upon the total payroll of the School District for each plan year. The annual premiums paid for the fiscal year ended June 30, 2008, totaled approximately \$240,000 for workers' compensation and \$282,000 for property coverage. The agreement for formation of the public entity risk pools provides that SCSBIT/WCTF will be self-sustaining through member premiums and any deficiencies can be charged back the member school districts in the event that a fund deficit arises. As of the latest available audited financial statements, June 30, 2008, the SCSBIT/WCP had Retained Earnings of approximately \$8,344,000 and the SCSBIT/PCP had Retained Earnings of approximately \$2,196,000. There were no reductions in insurance coverage as compared to the previous year. There were no insurance settlements that exceeded insurance coverage in any of the past three years.

D. Subsequent Events

In July 2008, the School District entered into a TAN program with the South Carolina Association of Governmental Organizations ("SCAGO") in the amount of \$1,152,000. This TAN program was entered into by the School District to help provide financial resources for operations. As of the date of issuance of the basic financial statements, this entire amount was available through this TAN.

In September 2008, the School District issued short-term general obligation bonds in the amount of \$5,540,000 for the purposes of paying NICE a portion of the installments of purchase price owing in fiscal year 2009 under the Facilities Agreement, for paying certain costs of issuance related to the bonds and for additional capital outlay needs of the School District. This obligation, including interest at 2.97%, is due in full on April 1, 2009.

In October 2008, the property tax levy for the General Fund for fiscal 2009 was increased from 190 mills to 194 mills, an increase of 4 mills. The property tax levy for the Debt Service fund for fiscal 2009 did not change from its present amount of 53 mills.

State Budget Cuts

Due to the on-going financial uncertainties, and the resulting slow down in the State and National economies, the State of South Carolina is experiencing a reduction in sales tax, corporate, and personal income tax revenues. In order to keep its general fund budget in balance, the State of South Carolina, in August and November 2008, reduced the projected revenue allocations to State agencies and school districts. This has resulted in a reduction of the state revenue allocations of approximately \$800,000 for the School District. The School District has responded to this cut by freezing open positions and tightening expenditures.

(This page intentionally left blank.)

GENERAL FUND

The General Fund accounts for all financial resources except those required to be accounted for in another fund. All property tax, intergovernmental revenues, and miscellaneous revenues are recorded in this fund, except amounts which are specifically collected to service debt or for which the School District collects other funds in a fiduciary capacity. Operational expenditures for general education, support services and other departments of the School District are paid through the General Fund.

The following Schedule of Revenues, Expenditures and Changes in Fund Balance - Actual and Revised Budget for the General Fund has been prepared in the format mandated by the South Carolina Department of Education. The account numbers shown on the schedule are also mandated by the South Carolina Department of Education.

SPECIAL REVENUE FUNDS

Special Revenue Funds generally account for the operations of Federal and State projects which are required to be accounted for in separate funds.

The following combining and individual fund schedules have been prepared in the format mandated by the South Carolina Department of Education. The account numbers shown on the various schedules are also mandated by the South Carolina Department of Education.

Newberry County Auditor Source: Note:

Property in the county was reassessed during fiscal year 2007. Tax rates are per \$1,000 of assessed value.

Beginning in fiscal year 2003, the state legislature decreased the vehicle tax assessment rate by .75% per year until the rate is lowered to 6% in fiscal year 2008.

(A) The breakdown between residential and commercial real property as well as motor vehicles and other have not been reported for prior years and thus is stated beginning in fiscal year 2005.

Note:

Overlapping rates are those of local and county governments that apply to property owners within the School District of Newberry County. Not all overlapping rates apply to all of the School District of Newberry County's property owners (i.e., the rates for special districts apply only to the proportion of the School District of Newberry County's property owners whose property is located within the geographic boundaries of the special district).

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

YEAR ENDED JUNE 30, 2008

A - General

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") presents the activity of all federal award programs of The School District of Newberry County, South Carolina (the "School District") for the year ended June 30, 2008. All federal awards received directly from the federal agencies, as well as those passed through other government agencies, are included on the Schedule.

B – Basis of Accounting

The accompanying Schedule is presented using the modified accrual basis of accounting, which is described in the notes to the School District's basic financial statements.

C – Relationship to Basic Financial Statements

Federal award expenditures are reported in the School District's basic financial statements as expenditures in the Special Revenue Fund and operating expenses in the Enterprise Fund.

D - Relationship to Federal Financial Reports

Amounts reported in the accompanying Schedule agree with the amounts reported in the related federal financial reports except for timing differences relating to expenditures made subsequent to the filing of the federal financial reports.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Trustees
The School District of Newberry County
Newberry, South Carolina

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of The School District of Newberry County, South Carolina (the "School District"), as of and for the year ended June 30, 2008, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 8, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's basic financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the basic financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management of the School District in a separate letter dated December 8, 2008.

This report is intended solely for the information and use of management, the Board of Trustees, the South Carolina Department of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Board of Trustees
The School District of Newberry County
Newberry, South Carolina

Compliance

We have audited the compliance of The School District of Newberry County, South Carolina (the "School District") with the types of compliance requirements described in the U.S. Office of Management and Budget ("OMB") Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. The School District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008.

Internal Control Over Compliance

The management of the School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Board of Trustees, the South Carolina Department of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
