**DESCRIPTION: Newberry High School Track and Field**

- See Attachment 1 Site Map C1.0 for the location of an additional 15' wide strip of sod to be replaced for construction access from the north end zone to the south end zone. This additional area is 5,280 sf of sod to be stripped, fine graded, and new sod installed once construction traffic is complete.
- See Attachment 2 for stockpile location for any excess soil/stripping material. This is located behind the baseball field where there is gravel access.
- Plexitrac Lightning & Beynon BSS 100 products with the ½" thick surface will be accepted as substitute track surfaces
