OCEAN CITY SCHOOL DISTRICT CODE OF STUDENT CONDUCT

Section I. Core Ethical Values

The Ocean City School District maintains the fundamental values of teaching, learning and behavior. Therefore, the students are expected to commit to demonstrating the Seven Core Ethical Values of:

- Academic Honesty and Integrity
- Respect
- Responsibility
- Trust
- Fairness
- Courage
- Compassion

OCEAN CITY SCHOOL DISTRICT CODE OF STUDENT CONDUCT

Section II. Statement of Non-Discrimination

The Ocean City Board of Education is cognizant of the need to implement Title VI of the Civil Rights Act of 1964, the Federal Department Regulation (45CFR part 80) Title IX of the Education Amendments of 1972, Title VI New Jersey Administrative Code, and Section 504 of the Rehabilitation Act of 1974.

The Ocean City Board of Education affirms its responsibility to ensure all students in the public schools of Ocean City equal educational opportunity and all employees equal employment opportunity regardless of race, color, creed, religion, sex, ancestry, national origin, social or economic status, or handicap. To fulfill this responsibility, the Board shall establish a program to review, and modify as may be necessary, its present school and classroom programs and employment/contract practices.

OCEAN CITY SCHOOL DISTRICT CODE OF STUDENT CONDUCT

Section III. Discipline Code

The Code of Student Conduct has been adopted by the Ocean City School Board and developed with the advice of school-level and district-level committees. The Code of Student Conduct meets the School District's requirements of implementing the BOE Policy #5600, Pupil Discipline/Code of Conduct. Because the Code of Student Conduct is adopted by the School Board, it has the force of a policy; therefore, in case of conflict between the Code of Student Conduct and a Student Handbook, the Code of Student Conduct shall prevail.

To guarantee a positive and productive educational and behavioral climate, it is important that students understand that acceptable standards of behavior will be expected at all times. Discipline will be administered when an individual's action interferes with the right of teachers to teach and students to learn. Parents should remind their students that any teacher or staff member in the school has the right to address infractions of the Code of Student Conduct at any place and at any time. Therefore, this Code of Student Conduct provides information to parents and students regarding standards of conduct, consequences of misconduct, and procedures for administering discipline.

This Code of Student Conduct also provides methods and options for managing students in the classroom and on school grounds, disciplining students, and preventing and intervening in student discipline problems. The Code of Student Conduct defines misconduct that may or must result in a range of specific disciplinary consequences includes, but not limited to, detentions, parent conferences, removal from a regular classroom, in-school suspension, out-of-school suspension, placement in a disciplinary alternative education program, or expulsion from school.

Please Note: The discipline of students with disabilities who are eligible for services under federal law (Individuals with Disabilities Education Act and Section 504 of the Rehabilitation Act of 1973) is subject to the provisions of those laws.

OCEAN CITY SCHOOL DISTRICT CODE OF STUDENT CONDUCT

Section IV. Guiding Principles

1. A major function of the schools is to teach young people to exercise self-control in human relationships and to develop respect for others and for the rules and regulations we develop to govern our lives.
2. There must be understanding and uniformity between administration, teachers, parents, and students as to the conduct expected in school affairs.
3. Every student shall maintain high personal standards of courtesy, decency, morality and non-offensive spoken and written language. Furthermore, students should seek to develop honest and wholesome relationships with others.
4. Respect for real and personal property, pride in one's work and achievement within one's ability shall be expected of all students.

OCEAN CITY SCHOOL DISTRICT CODE OF STUDENT CONDUCT

Section V. Academic Honesty and Integrity

Academic honesty and integrity requires the student to produce outcomes that are genuine, thus the product will be a valid representation of academic achievement. In contrast, academic dishonesty is a student's attempt to claim and show possession of knowledge and/or skills that he/she does not possess, or having assistance to complete a test, project or other assignment in a way other than permitted by the teacher. Using dishonest, deceptive or fraudulent means to obtain or attempt to obtain credit for academic work will not be tolerated. It is the intention of this Code of Student Conduct to reinforce standards of integrity and to prepare students for school and post secondary opportunities.

Cultivating Academic Honesty and Integrity involves all stakeholders:

The student is expected to uphold the spirit and the letter of this Code of Student Conduct both philosophically and behaviorally in completing all school-related tests, quizzes, projects, reports, homework assignments or in-class assignments. The student is not to represent as his/her own the work of anyone other than him/herself. It is the student's responsibility to know which academic behaviors are acceptable. It is also the student's responsibility to learn how to attribute work properly by citation, footnote, and bibliography. No assignment is exempt from this policy.

The parent/guardian is expected to adopt the philosophical wholesomeness of this Code and uphold the spirit and letter of it by reviewing it with his/her student(s) and encouraging the student to practice academic honesty throughout his/her years in Ocean City School District.

The teacher is expected to review with the students the policy of academic honesty at the beginning of the year/semester and other times during the year as he/she deems appropriate. The teacher is expected to direct students to available resources that are useful in helping students to correctly copy, paraphrase, cite, and summarize another person's work. The teacher is also expected to be specific as to whether an assignment is cooperative or individual and to enforce the policy in all instances of academic honesty.

The administrator is expected to support the spirit of academic honesty with students, parents, counselors, teachers and other staff members. Disciplinary action taken with students concerning Academic Honesty and Integrity will follow the process prescribed below.

The following actions are reflective of academic dishonesty and are subject to disciplinary action by teacher, school, and/or district (some offenses may be criminal in nature and therefore prosecutable under local, state, or federal laws).

OCEAN CITY SCHOOL DISTRICT CODE OF STUDENT CONDUCT

Section VI. Discipline Management Techniques

The School District will provide, as appropriate for students at each grade level, methods for discipline management including, but not limited to, options for:

1. Managing students in the classroom, on school grounds and on school-related functions;
2. Disciplining students; and
3. Preventing and intervening in student discipline problems, including harassment, intimidation and bullying.

In general, discipline will be designed to improve conduct and to encourage all students to adhere to their responsibilities as citizens of the school community. Disciplinary action shall draw on the professional judgment of teachers and administrators and on a range of discipline management techniques. Student consequences shall be administered fairly and equitably and be based on a careful assessment of the circumstances of each case. Discipline shall be correlated to the seriousness of the offense, the student's age and grade level, the frequency of misbehavior, the student's attitude, the effect of the misconduct on the school environment, and statutory requirements.

The below factors will be considered when deciding on a specific consequence:

- a. Age, developmental and maturity levels of the parties
- b. Degrees of harm;
- c. Surrounding circumstances;
- d. Nature and severity of the behavior(s);
- e. Incidences of past or continuing patterns of behavior;
- f. Relationships between the parties involved; and

The Uniform State Memorandum of Agreement (MOA), is a required cooperation and communication between Education and Law Enforcement Officials to protect the educational environment per N.J.A.C. 6A:16-6.2(b)13-14. It is understood and agreed that there is a demonstrable need for law enforcement and education officials to cooperate and to share information, as appropriate, regarding incidents that may occur on or off school grounds or at times other than regular school hours. This MOA enables the District and Local Law Enforcement to:

- facilitate communication and cooperation;
- coordinate drug and alcohol abuse and violence intervention and prevention efforts; and
- consult on the review of school safety and security plans, pursuant to N.J.A.C. 6A:16-5.1, and the review of approved model policies of the School Security Task Force.

Glossary: Ocean City School District Policies

The following Ocean City School District Policies/Regulations are part of the Code of Student Conduct. Any Board approved changes to these Policies/Regulations automatically become changes to the Code of Student Conduct. A summary is listed below each of the Policies/Regulations. However, please read the actual Policies/Regulations for the full details.

1. Harassment, Intimidation and Bullying (HIB) – #5512

The Board of Education prohibits acts of harassment, intimidation, or bullying of a pupil. A safe and civil environment in school is necessary for pupils to learn and achieve high academic standards. Harassment, intimidation, or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a pupil's ability to learn and a school's ability to educate its pupils in a safe and disciplined environment. Since pupils learn by example, school administrators, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying.

2. Hate Crimes and Bias-Related Acts - #8465

The Board of Education is committed to providing a safe and healthy environment for all children in the school district. Hate crimes and bias-related acts involving pupils can lead to further violence and retaliation. Hate crimes and bias-related acts, by their nature are confrontational, inflame tensions, and promote social hostility and will not be tolerated by the school district. The school district employees will work closely with local law enforcement and the county prosecutor's office to report or eliminate the commission of hate crimes and bias-related acts.

3. Dating Violence at School – #5519

The Board of Education believes a safe and civil environment in school is necessary for children to learn. A pupil who is a victim of dating violence suffers academically and the pupil's safety at school is jeopardized. Acts or incidents of dating violence at school whether they are verbal, sexual, physical, or emotional will not be tolerated and will be dealt with in accordance with the school's pupil code of conduct.

4. Substance Abuse – #5530

The Board of Education recognizes that the misuse of drugs is a serious problem with legal, physical and social implications for the entire school community. As the public educational institution for this area, the schools should strive to prevent drug abuse and to help drug abusers by educational, rather than punitive, means.

OCEAN CITY SCHOOL DISTRICT CODE OF STUDENT CONDUCT

5. Student Substance Abuse Policy Device – #5535

The Board of Education recognizes that a pupil's abuse of harmful substances seriously impedes that pupil's education and threatens the welfare of the entire school community. The Board is committed to the prevention of substance abuse and the rehabilitation of substance abusers by educational means, but will take additional necessary and appropriate steps to protect the school community from harm and from exposure to harmful substances.

6. Student Attendance – #5200

The Board of Education recognizes that the educational process requires regular, continuous uninterrupted attendance in school, which shall include classroom participation, instruction and study by all students, regular contact of students with one another and their participation in well-planned, instructional activities, under the tutelage of competent teachers. These are all vital to a thorough educational program. Consequently, there is a responsibility upon parents/guardians and students to attend school regularly in as much as the Board of Education cannot condone unnecessary absences.
