

Beginning June 9, demolition of the old high school, elementary classrooms grades 3-5 and the elementary cafeteria will be underway.

The district is working closely with Fulton Construction regarding the saving of any and all of the shrubbery and trees in the OHS Courtyard as well as other trees near/around the district demolition sites.

Regarding the OHS courtyard, it will be the goal for OJH students to use the courtyard at OHS for outside activities, and etc. next year and for years to come. We all value and love our courtyard at OHS!

We are grateful for the many generous people and especially Mrs. Colquhoun, who spent so many hours beautifying Odem-Edroy ISD and it is our goal to persevere and protect all of the beautiful plants/trees to the extent possible.
