

INTERNATIONAL ASSOCIATION OF LIONS CLUBS

CONSENT FOR VISION SCREENING

Dear Parents or Guardian:

*A free vision screening will be offered to your child by the **Odem Area Lions Club**, with Lions from the **Kingsville Noon Lions Club**, who are trained and certified to use the Spot PediaVision equipment, conducting the actual screening.*

The vision screening is done by the Spot PediaVision equipment. The Spot can screen for vision and eye disorders in children from six (6) months of age. The Spot can screen your child's eyes from just a few yards away, and no physical contact is made with your child.

If your child's results indicate a possible vision problem, you will be notified by mail. Please note that a referral does not mean that your child needs glasses or treatment; it does, however, mean that your child's vision should be checked by an eye care professional. We want your child to be healthy and to get a good start in life. The sooner eye problems are discovered and treated, the better the outcome.

Authorization:

I, the undersigned, hereby give permission for my child to participate in the vision screening event. I understand the following:

1. There is no charge to participate in the vision screening process;
2. The information obtained from this vision screening is to be considered a preliminary procedure only and does not constitute a diagnosis of vision problems;
3. I understand that I am responsible for arranging for a full eye exam with an eye care professional if my child is referred because of the vision screening test;
4. I understand that the Lions Club organization(s) conducting the screening will not be held accountable for any errors of omission or misdiagnosis;
5. The vision screening is **not** a substitute for professional eye examination.
