# Teachers

This page provides additional information for teachers after they have claimed their accounts (see [Claim My Account](#) if you haven't already done so).

*For the initial rollout of NCEdCloud IAM Service accounts, many LEAs felt it would be more appropriate for teachers to provide the username and password to their students (this was always the approach for K-5 students). This is described in **Issuing Student Accounts** below. LEAs and Charter Schools may of course choose to let their older students (grades 6-12) go through the claim account process described in [Student Account Claiming](#).*

## Viewing And Issuing Your Students' Account Information

If teachers will be issuing accounts to their students (username and password) they will do this by going to [my.ncedcloud.org](http://my.ncedcloud.org). There is a great 3-1/2 minute video which walks you through the entire process under the Training Icon on the Application Access page. Click on Training and "End User Training", and look for the video "[What can I do as a Teacher within the NCEdCloud](#)". It walks you through how to view your students and print out a copy of their logon information. There is also a recorded webinar on the Resources page - "[Webinar on End User Experience with the IAM Service](#)".

To actually see your students and print out a copy of their information, click on "**Profiles**" - **A** (formerly Account Management) and "**My Students**" - **B**, and follow the process described in the video. Note that for students in grades 6 and higher, at their first login they'll be prompted to answer at least 5 challenge questions (students in grades 5 and lower will not have to enter answers to challenge questions).

The screenshot shows the 'Access Request Management System' interface. At the top, it says 'Logged in as: 9c20314' with a 'Logout' button. The main header is 'Account Management' with tabs for 'My Employee Profile', 'Whitepages', and 'My Students'. On the left, there is a navigation menu with 'Application Access', 'Account Management', 'File Access', and 'Workflow'. 'Account Management' is highlighted with a red circle and labeled 'A'. In the 'My Students' tab, there is a table with columns: First Name, Last Name, Username, and Default Password. The table contains several rows of student data. A red circle highlights the 'My Students' tab and is labeled 'B'. To the right of the table is an 'Account Details' panel for 'Jimmy Primary' with fields for Username, Default Password, Discovery Ed Role, and Zecaler Groups.

First Name	Last Name	Username	Default Password
Primary	Primary	dcum8881	8yr66kgc
Sample	Tudent112	A-61905	PR4C43p8
