

The board recognizes the importance of students maintaining physical health in order to take advantage of educational opportunities. Student health services will be organized by the superintendent and operated in a manner consistent with the following goals:

1. encouraging the physical well-being of all students;
2. integrating health-related services provided in the school setting, including those provided by counselors and health specialists;
3. providing health services in a manner that reinforces the objectives of the healthful living education curriculum;
4. working cooperatively with other governmental agencies and professional associations interested and involved in the health of students;
5. utilizing the latest research findings related to providing health services to students;
6. meeting all legal obligations; and
7. providing courteous service to students and parents.
