

Onslow County Schools

Transportation Department

To Prospective New Bridge Students and Parents,

In order to assist you with your decision to send your child to New Bridge Middle School, we are providing you with transportation information that you need to consider when making that choice. School bus transportation is provided to New Bridge students; however, you need to be aware of a number of issues.

Because students are coming from across the county, most bus rides are longer than bus rides to and from the student's home school. Because of the longer routes, times are likely to vary more than usual bus runs.

No special bus stop provisions will be made for New Bridge students. The bus stops will be at the same place the student's bus stop would be if that student were attending their home middle school.

New Bridge students riding the bus must adhere to Onslow County Schools' established passenger rules or face disciplinary action, or loss of transportation privileges.

In all school transportation, we strive for the safest, most efficient transportation for **all** students, so changes are likely to occur periodically throughout the school year and more than likely to change from year to year. When permanent changes are made, we will notify you of the changes and the approximate times your student's bus will arrive. Occasionally, last minute changes have to be made, and we do not have provisions to notify parents of these changes.

As you make the decision to send your child to New Bridge Middle School, carefully consider the transportation aspects and how transportation will affect you and your student's daily schedule.
