

Meadow View Elementary School

2012-2013 Results and 2013-2014 Next Actions

Vickie M. Brown - School Executive

School Vision: Creative Respectful Empowered Accountable Talented Innovative adVentures in Education

School Mission: Meadow View Elementary is committed to inspiring students to be creative, innovative problem solvers who are prepared to be globally competitive in the technological world today.

School Purpose: The purpose of Meadow View Elementary School is to educate students through creativity and innovative approaches.

School Executive's Message: Meadow View Elementary continues to provide a positive working and learning environment. Exploring research-based differentiation strategies and techniques continue to be a focus for our school. In our PLC's we will make efforts to deliberately analyze our data to ensure students' success in this global 21st Century. Working as a team with parents, students, administration, fellow colleagues and community members is increasingly important as the demands for education rise. With this continued commitment to teamwork, we are more determined than ever to focus on continuous improvement. Our students are continuing to make growth and are rising to the challenges set forth by the state. It is with great enthusiasm that we watch our students as they experience continued academic growth and success. By building a strong foundation at the elementary level, our students will be prepared to progress in their educational careers and to become productive citizens in life. It is our goal to provide a warm, caring and safe environment where all children are able to learn to be creative and innovative thinkers without fear of failure.

School's Strengths:

- ❖ Positive, caring and safe working and learning environment
- ❖ Strong curriculum support
- ❖ Continued growth over time
- ❖ Implementation of A+ initiative
- ❖ Technology-rich environment

School's Challenges:

- ❖ Growing student population with limited funding
- ❖ Limited space in facility to implement effective programs
- ❖ Expanding parental involvement opportunities
- ❖ Differentiating math instruction
- ❖ Meeting the demands of technology upgrades

2013-2014 Focused Next Actions:

- ❖ Decrease the number of non-proficient students
- ❖ Continue to expand our A+ initiative
- ❖ Implement a Spanish program
- ❖ Continue to research differentiation, especially in math
- ❖ Provide PD opportunities for staff, especially in math
- ❖ Implement an Instructional Assistant PLC and PDP

Greatest Accomplishment in 2012-2013:

- ❖ Exceeding Expected Growth
- ❖ Implementation of Dance
- ❖ Adding a certified teacher to teach in Science Lab
- ❖ Adding "Computers in Action" with a certified teacher
