School Executive's Message: School Purpose Statement

Meadow View Elementary continues to provide a wonderful working and learning environment. We are extremely excited about our work with the A+ Schools Network. This year we have been able to add dance and drama into our enrichment schedule so that every student has opportunity to participate in all forms of the arts. We will continue to seek out research-based strategies for differentiation and we will continue to collect and analyze our data to ensure students' success in this global 21st Century. As a staff, we recognize the importance of working as a team with parents, students, administration, fellow colleagues and community members. With this commitment to teamwork, we are more determined than ever to focus on continuous improvement. At the elementary level, we know that we are responsible for providing the strong foundation that students will need to progress in their educational careers and to become productive citizens in life. It is our goal to provide a warm, caring and safe environment where all children are able to learn without fear of failure.

Purpose Statement: The purpose of Meadow View Elementary School is to educate students through creativity and innovative approaches.

Key Areas of Focus for 2012-2015

- Utilize the A+ Schools Initiative to aid in teaching the Common Core and Essential Standards.
- Expand our Positive Behavior Interventions and Supports Initiative
- Focus on a more globalized instructional program
- Incorporate community involvement opportunities and expanded opportunities for parental involvement
- Foster a positive, collaborative, caring work and learning environment

Key Challenges to Address for 2012-2015

- Parental involvement to aid in increased academic success for students
- Community partnerships to assist in our A+ Cultural Arts Theme
- Continue to promote more focused and deliberate PLC's
- Time for researching strategies for differentiation to increase reading and math performance
- Upgrading technology in order to stay as up-to-date as possible

Anticipated Outcomes of 2012-2015 Meadow View Elementary Strategic Plan

The Meadow View Elementary Learning Community has set forth many strategies and action steps for our strategic plan for the 2012-2015 school years. We anticipate that through our A+ initiative and increased collaboration with parents, central office staff and community organizations that our students will increase their knowledge and skills through creativity and other innovative approaches. It is our expectation that our students' proficiency will continue to rise and that their critical thinking skills and problem solving skills will increase so they are able to be successful in their future endeavors as college students and/or as they join the workforce. It is our goal to equip our students with the necessary skills needed to compete in a global society. One other positive outcome that we expect is that we will continue to provide a caring, positive, and supportive working and learning environment in which students and staff are not afraid of "stepping out of the box" to be successful.
