- **The AlertNow Rapid Notification System was utilized for parents contact concerning school information and events.**

The 2005-2010 Strategic Plan was successful in moving Northwoods forward with 21st Century Teaching and Learning. Technology needs in the classrooms and campus-wide have been and will continue to be updated as well as the professional development necessary for teacher and student utilization of technology during instruction. Resources for differentiating learning have been put into place and will be a major focus as we continue to move towards student based rather than teacher led learning.
