

Queens Creek Elementary School
2013-2014 Results and 2014-2015 Next Actions
Elaine Justice - School Executive
"Excellence in Education"

***The Queens Creek school community will prepare students to be globally competitive leaders and responsible citizens in the 21st century.
We're preparing students for the future.***

School Executive's Message:

At Queens Creek Elementary, we are preparing students for the future. We're reflecting on past goals and addressing new challenges to make students 21st century leaders. By determining their competencies in math, reading, and science through a wide variety of assessments and curriculum tools, we're able to target instruction to increase achievement. We feel students will strengthen their understanding of the world and be able to become globally competitive by using this process.

School's Strengths:

- Two out of three years, our 3rd, 4th and 5th grade students have exceeded growth on their End of Grade tests.
- Community investment in QCE.

School's Challenges:

- Blending our global and environmental partnerships to develop a true international green school to enhance core curriculum and engage students with authentic real world experiences.
- Focus on professional development in the areas of math, literacy, global and environmental context.
- Fully implement PLC's for each grade level/team.
- Funding for initiatives.

2014-2015 Focused Next Actions:

- Community Outreach
- Global/Environmental Partnerships
- Increase number of students meeting proficiency through state mandated assessments.
- Project-Based Learning

Greatest Accomplishment in 2013-2014:

- NC Green School of Quality
