## “COMMUNITY LEADERSHIP”

### The Leader in Me

RPS has embarked on the journey to become a Lighthouse School utilizing The Leader in Me process. Staff and parents investigated TLIM and fully embraced the potential the process has for transforming all students into leaders. Everyone saw the potential impact TLIM could have on our students as they will be empowered to take ownership of their learning, behavior, choices and their very lives.

RPS is in the process of “leaderizing” the culture and environment of the building. Classrooms have created and posted class mission statements. Teachers and other staff members have posted their professional mission statements for everyone to see.

The environment action team is working on “leaderizing” the campus. Parents are involved and community members have already committed to donating to our environment overhaul.

Students are excited and are talking to their parents about the 7 Habits. Teachers are actively utilizing the Habits in their daily instruction and classroom routines and procedures.
