- Family Nights – Math and Title 1 Parent Training for Reading

Goal 5:

- Classroom of the Week selected by custodial staff
- Use of student nametags for lunch and media
- All teachers have webpages
- Increase of wireless access points

Summary:

All processes were reviewed and 109 out of 112 processes were addressed. The School Leadership team monitored the implementation of the plan through committee work. Summersill Elementary was significantly impacted by the opening a new school in the 09-10 school year. The desired results of the 2007-2010 plan for each goal have been evaluated through various measures. A continued focus on student learning and professional development are essential for moving into the development of our 2010-2012 strategic plan. Concepts including CIA planning, implementation of Habits of Mind processes, and increasing use of technology and assessments to facilitate instruction will be a focal point for our plan.
