Welcome to Osceola High School

Dear Students/Parents/Community Advocates:

At Osceola High School, we are committed to providing a quality education that is grounded in best practices and sound research and developed through a rigorous curriculum. We will seek to assist students in developing the skills, knowledge, and attitudes that will reinforce success in both our local and larger global communities. We recognize that the world is diverse and consistently changing, and our approach to education must be constantly reviewed and adapted to ensure we are providing our students the skills they will require to meet the challenges of tomorrow.

The staff of Osceola High School believes that all students can learn. We believe that our school's purpose is to educate all students to their highest level of academic performance while fostering positive growth in social and emotional behaviors, attitudes, and responsibilities. We accept the challenge to improve the curriculum and maintain high expectations in all courses to meet the needs of all students.

We look forward to working in conjunction with students, parents, and community advocates to ensure that each student has the opportunity to maximize their "high school experience", both academically and extra-curricular. Once again, welcome to Osceola High School and "Thank You" for giving us the opportunity to serve you and your student(s).

Sincerely,
Tiffany Morgan, Principal

Earn College Credits in High School

Through our partnership with Arkansas Northeastern College (ANC) students have the option to earn college credit and pursue career opportunities in the following areas such as:

- Criminal Justice
- Teaching
- Welding
- Auto mechanics

Keystone is offered to students in the 9th grade to help them gain the skills need to succeed in college or high-demand jobs.
