## Welcome

Students, Parents, and Community Supporters:

On behalf of the Osceola STEM Academy, I welcome you to our school. We are committed to providing a quality education to all students. We use research, best practices, a rigorous curriculum and data to guide and support the strategies used on our campus. We strive to grow all of our students through character building, project-based learning and differentiated instruction in order to prepare them for real world experiences. We understand that with our forever changing world, educational strategies must constantly be reviewed and changed to meet every day challenges.

The staff of the Osceola STEM Academy believes all students can learn. We believe our purpose is to teach all students within their learning style and to educate them to the highest academic performance while fostering positive growth in social and emotional behaviors, attitudes and responsibilities. We look forward to the challenge to meet higher expectations in all areas in order to meet the needs of all students.

We, as a staff, look forward to working with all advocates in order to ensure and maximize the educational experience for all students, academically and extra-curricular. Again, welcome to Osceola STEM Academy and thank you for sharing your precious commodity (your children) with us.

Christel Smith, Principal

## About Osceola STEM Academy

The STEM Academy serving all students in grades 5-8 is a school providing a well-rounded curriculum with a focus on science, technology, engineering and mathematics. Students will learn important problem-solving, teamwork and reasoning skills.

While the focus is on those STEM subjects, the school provides a well-rounded curriculum with a strong foundation in:

- Language arts
- Literacy lab
- Social Studies
- Physical Education And Health
- Library Media
- Keyboarding
- Foreign Language
- Computer Technology And Career Orientation
- Science
- Science Lab
- Math
- Math Lab
- Discovery Zone
- Gateway to Technology-Engineering

Here at Osceola STEM Academy, we are committed to our students' continuing education outside of the classroom. All students have access to FREE ebooks and USA Today newspaper. We hope that these resources will benefit our students and community. Thank you for your continued support of our youth's education!

Over 375 free eBooks that can be read online or downloaded [http://www.openculture.com/free\\_ebooks](http://www.openculture.com/free_ebooks)

We hope that these resources will benefit our students and community. Thank you for your continued support of our youth's education! Sincerely, Faculty and staff of Osceola STEM Academy
