

Evaluation Training

All staff using the Thoughtful Classroom Evaluation tool were trained in 2014 when the District first began using the Evaluation Tool. Each year new staff receive training prior to the beginning of the school year.

The Owosso Public Schools Board of Education and Superintendent were trained on the Michigan Association of School Boards (MASB) Superintendent Evaluation Tool at a Board Workshop on October 10, 2016.

The Superintendent and All Administrators received training on the School Advance Principal Rubric in October 2016.

Thoughtful Classroom Evaluation training was provided on August 23, 2017 to all new teachers in addition to any other staff who wanted to attend for a refresher.
