Caring: Care for others and the world around us.
Open-Minded: Respect others’ values and traditions and seek a range of points of view.
Balanced: Make healthy choices to keep mind, body and emotions balanced.
Reflective: Reflect on strengths and weaknesses to increase learning.
We feel fortunate to educate, challenge, entertain, delight and laugh with all our students and we look forward to meeting the class of 2031 as their educational adventure begins. If you are a parent of a kindergarten age student, please call one of our elementary schools to schedule a registration time.
Registration occurs in small groups so please call as soon as possible to ensure a registration time that works for your family.
If I can share one piece of advice, it is as follows: In this world of technology, remember, there is no substitute for having a lap—yes with your child, talk to your child, be present with your child—being engaged in these first activities will give your child a competitive advantage socially, emotionally and academically. You will never regret that time.
There has never been a better time to be an Owosso Trojan!
