

Charged Meal Policy

It is the intent of the Oxford City Board of Education to provide an opportunity for every student to eat a nutritious breakfast and lunch during the school day. It is also the policy of the Oxford City Board of Education to comply with all federal guidelines pertaining to the National School Breakfast and Lunch programs. Meal charges are not allowed. Students, employees, and guests must remit payment for meals at the time of service. Meal pre-payment is available online at www.paypams.com for a small fee, and provided at no charge by sending cash or check to the student's school. The school office will make arrangements for students who have insufficient meal funds available for Pre-K through Grade 6. The school office will allow students in Grades 7-12 to call home to request meal funds. Written notification will be sent home with the student when insufficient meal funds are available. Any debt incurred from charged meals will be paid for from non public funds.
