

Dietary Restrictions

Children with Special Dietary Needs

A dietary restriction form must be completed by an attending physician if a student has special dietary needs. The form should be provided to the school nurse. It should state at a minimum: the disability or medical condition that requires the student to have a special diet, the diet prescription, any foods omitted, and substitutions required.

Milk Substitution Rule

Per the “USDA Rule on Fluid Milk Substitutes for School Nutrition Programs”, Oxford City Schools does not offer a milk substitution for students with medical or special dietary needs at this time.
