

UNIFORM GUIDANCE FOR FEDERAL PROGRAMS

Cash Management for Federal Funds – Part 200

The Board will minimize the time the receipt of federal funds from the United States Treasury, the Alabama Department of Education, or other pass-through entity, and the disbursement of those federal funds. Federal funds will only be requested to meet immediate cash needs for reimbursement not covered by prior receipts and anticipated disbursements that are generally fixed, such as monthly program salaries and benefits. Disbursements will be made within twenty business days after receipt of funds.

The Chief School Financial Officer will maintain financial records that account for the receipt, obligation, and expenditure of each federal program fund. Cash balances for each federal program fund and for the aggregate of all federal program funds will be monitored monthly by the Chief School Financial Officer or designee.

Board procedures to minimize the cash balances in federal program funds are expected to prevent the aggregate cash balances of federal program funds from earning \$500 or more for the fiscal year if maintained in interest-bearing accounts. The federal program funds, with the exception of Child Nutrition Program funds, will not be maintained in an interest-bearing account if the Chief Financial Officer determines that banking requirements for minimum or average balances are so high that an interest-bearing account would not be feasible. Federal program funds will be maintained in insured checking accounts that are subject to the state requirements for public deposits under the SAFE program.

Determination of Allowable Costs

Before instituting a financial transaction that will require the expenditure of federal funds the federal program director and the Chief School Finance Officer or designee will determine that the proposed transaction meets the requirements for allowable costs for the federal program. Actions to determine allowable costs will assure that:

- The proposed expenditure is included in the federal program budget;
- The proposed expenditure is reasonable and necessary for the federal program;
- The proposed expenditure is consistent with procedures for financial transactions of the board including:
 - Purchase order approval procedures;
 - Contract review and approval procedures;
 - Applicable competitive purchasing procedures and;
 - Documentation supports the transactions.

Before payments are made from federal funds the federal program director and the Chief School Financial Officer or designee will determine that the federal program expenditure complies with generally accepted accounting principles and complies with state, local and federal laws, rules and regulations.

Travel

Travel Costs are the expenses for transportation, lodging, subsistence, and related items incurred board employees who are in travel status on official business of the board. The board's travel policy provides for reimbursement and payments for travel costs of employees paid from federal funds that is consistent with the travel costs for board members paid from state or local funds.

Conflict of Interest

Generally, a conflict of interest exists when a board member, board employee, or agent of the board participates in a matter that is likely to have a direct effect on his or her personal and financial interests. A financial interest may include, but is not limited to, stock ownership, partnership, trustee relationship, employment, potential employment, or a business relationship with an applicant, vendor, or entity. A board member, board employee, or agent of the board may not participate in his or her official capacity in a matter that is likely to have direct and predictable effects on his or her financial interests.

A board member, board employee, or agent of the board will abide by the Federal and state laws and regulations that address conflict of interest standards. In general, the Federal rules provide that:

No employee, officer, or agent of the board shall participate in selection, or in the award or administration of a contract supported by Federal funds if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs, or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from the firm considered for a contract. The board's officers, employees, or agents will neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, potential contractors or parties to subcontract.

The board's conflict of interest policies include adherence to the Alabama Ethics Law, which defines conflict of interest as:

A conflict on the part of a public official or public employee between his or her private interests and the official responsibilities inherent in an office of public trust. A conflict of interest involves any action, inaction, or decision by a public official or private employee in the discharge of his or her official duties which would materially affect his or her financial interest or those of his or her family members or any business with which the person is associated in a manner different from the manner it affects the other members of the class to which he or she belongs.

A board member, board employee, or agent of the board may not review applications, proposals, or participate in the evaluation or selection process where his or her participation in the review process would create the appearance that he or she is: (a) giving preferential treatment; (b) losing independence and impartiality; (c) making decisions outside official and appropriate channels; or (d) harming public's confidence in the integrity of the board.

Situations and circumstances presenting an actual conflict of interest or the appearance of a conflict of interest should be brought to the immediate attention of the superintendent. A board Employee, board member, or agent of the board who has knowledge of a possible conflict of interest should identify the conflict and notify the superintendent. The superintendent will document his or her actions related to the reported conflict of interest. Resolution can consist of disqualification, recusal, waiver, or other appropriate measures. Appropriate measures may include reporting a conflict of interest to the State Ethics Commission, the Alabama State Board of Education, or the appropriate federal agency.

Procurement

The board will follow state laws for the procurement of property and services. The primary state procurement laws for Alabama school boards are:

- Alabama Competitive Bid Laws
- Joint Information technology Purchasing Agreement
- Public Works Laws

To the extent allowed by state laws, the board will utilize state, local, regional, and national purchasing agreements where appropriate for the procurement or use of goods and services. All procurement transactions are subject to the board's Conflict of Interest Policy and the procurement decisions of the board will:

- Avoid acquisition of unnecessary or duplicative good and services;
- Use the most economical and efficient approach for acquisitions possessing the ability to perform successfully under the terms and conditions of the proposed procurement;
- Consider contractor integrity, compliance, with public policy, record of past performance, and financial and technical resources prior to awarding procurement contracts;
- Maintain records sufficient to document the history of the procurement; and
- Conduct procurement transactions in a manner that provides full and open competition.

Procurement transactions for federal programs and child nutrition programs that are not subject to the state procurement laws, but exceed the aggregate amount of the federal micro-purchase threshold, will be obtained by utilizing price or rate quotes for two or more qualified sources. State procurement laws include requirements that comply with the other Uniform Administrative Requirements for procurement of property and services.

The board will request proposals for those professional service contracts (excluding architectural and engineer services) that are exempt under state procurement laws if the contracts exceed \$150,000.00 and will be paid from federal or child nutrition program funds. The board will utilize a team of three or more qualified individuals or conduct a technical evaluation of proposals received and for selecting recipients. As a part of the evaluation, the individuals on the evaluation team will sign an assurance that each of the individuals is in compliance with the board's conflict of interest policy.
