

Petroleum Bid Questions

Q. Are you aware that Itapco's name changed to Omega in Columbus, GA?

A. We were not aware of that change. It is our intent to use local providers. We are seeking the best possible price for the fuel itself, while also being mindful of the associated transportation cost.

Q. Will Conoco Phillips 76 oils not be considered?

A. Brand names are not used to disqualify any bidder, instead they are representative of a quality product with the proper weights and API classifications.
