

Pierce City R-VI Parents/Guardians:

2-14-2017

This is a very important year for the district as our current Comprehensive School Improvement Plan (C.S.I.P.) is set to expire in the spring of 2017 and will need to be updated in order to help guide the district for the next five years (2017-2022). In preparation for this process we would like to collect some very important feedback from our parents and community members to help guide this process. I know your time is valuable but I would ask that you please take a few minutes to complete this very important survey and provide your input about the following topics: School Finance, Building/Facility Improvements, Academic Improvements & The Mission of our district. **If you have never completed a district survey please make this one your first!** *The survey is posted, via surveymonkey, on our district website at www.pcschools.net or you can complete it manually and return to your child's building office.* Attached you will find some information for each survey topic heading to help answer questions you may have before completing the survey.

In regards to school finance and facility improvements topics the district has **not** made any plans to run a tax levy increase or bond issue on the upcoming spring ballots, we are only collecting feedback and input from the community to help guide future plans. Again, your feedback and input is very important to us and we thank you for your time. If you have any questions before you complete your survey please feel free to call the superintendent's office at 476-2555 or email at rmoreland@pcschools.net.

Respectfully,

Russ Moreland
Superintendent of Schools
