# GEORGIA'S SYSTEMS OF CONTINUOUS IMPROVEMENT

The Georgia Department of Education's strategic plan emphasizes transforming the agency into one that provides meaningful support to schools and districts. The agency has developed a common, continuous improvement framework to ensure that these efforts are aligned across all agency divisions, departments, and programs. Georgia's Systems of Continuous Improvement focuses on the systems and structures (the "what") that must be in place for sustained improvement in student outcomes. It also utilizes a problem-solving model (the "how") to provide a clear process for identifying improvement needs, planning for improvement, and implementing, monitoring, and evaluating the improvement efforts.

## ***Systems to Improve (What to Improve)***

**Coherent Instructional System:** The major system of the complex district organization that articulates and guides the “what” and “how” of instruction. This comprehensive system includes the processes related to:

- *Planning for quality instruction* - The structure of the instructional system in which the district defines what the students should “know” and “do”, and determine how their students will show they “know” the content and can “do” a skill or performance task
- *Delivering quality instruction* - The structure of the instructional system that guides teachers in how they introduce content, practice its use along with the students, and then allow students to use the content on their own while providing students regular standards-based feedback to gain mastery of the content
- *Monitoring student progress* - The structure of the instructional system that methodically discovers if the students are getting the content, and what to do about it when they are getting it or are not getting it
- *Refining the instructional system* - The structure of the instructional system that examines how to improve the planning for quality instruction, delivering quality instruction, and monitoring student progress

## DISTRICT IMPROVEMENT PLAN

**Effective Leadership:** A major system of the complex district organization that sets the direction for the district, ensures that the district staff and the school leaders are capable of meeting that direction, and makes sure the organization functions according to its mission. This system includes the processes related to:

- *Creating and maintaining a climate and culture conducive to learning* - the structure of the leadership system that ensures that the school allows both adults and children to put learning at the center of their daily activities
- *Cultivating and distributing leadership* - the structure of the leadership system that develops others to accomplish the group's purpose and encourages the development of leadership across the organization
- *Ensuring high quality instruction in all classrooms* - the structure of the leadership system that reduces the variability in the quality of instruction across all schools and all classrooms
- *Managing the district and its resources* - the structure of the leadership system that ensures leaders effectively use all the resources at hand so that the district functions according to its mission
- *Driving improvement efforts* - the structure of the leadership systems that methodically, intentionally, and effectively improves the district's major systems, structures, and processes

**Professional Capacity:** A major system of the complex district organization that develops a quality staff to reduce the variance of quality in instruction throughout the district. This system includes the processes related to:

- *Attracting staff* - the structure of the professional capacity system that is intentional in locating the teachers and leaders that are the best fit for the district and its schools to achieve its mission
- *Developing staff* - the structure of the professional capacity system that ensures the increasing quality of the district and school staff's knowledge and skills
- *Retaining staff* - the structure of the professional capacity system that ensures the quality staff is working in the context/ position that is most beneficial to student achievement
- *Ensuring staff collaboration* - the structure of the professional capacity system that reinforces the effective practice of constant collaboration to improve instructional quality in all schools and in all classrooms

**Family and Community Engagement:** A major system of the complex district organization that develops quality links between district professionals and the parents and community the district and its schools are intended to serve. This system includes the processes related to:

- *Welcoming all families and the community* - The structure of the family and community engagement system that ensures families and the community are active participants in the life of the schools within the district, and feel welcomed, valued, and connected to each other, to school staff, and where applicable district staff, and to what students are learning and doing in the schools within the district
- *Communicating effectively with all families and the community* - The structure of the family and community engagement system that ensures families/the community and district and school staff engage in regular, two-way, meaningful communication about student learning
- *Supporting student success* - the structure of the family and community engagement system that ensures families, communities, school staff, and as appropriate district staff, continuously collaborate to support students' learning and healthy development both at home and at school, and have regular opportunities to strengthen their knowledge and skills to do so effectively
- *Empowering families* - the structure of the family and community engagement system that ensures families are empowered to be advocates for their own and other children, to ensure that students are treated fairly and have access to learning opportunities that will support their success
- *Sharing leadership with families and the community* - the structure of the family and community engagement system that ensures families/the community and district and school staff are equal partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs
- *Collaborating with the community* - the structure of the family and community engagement system that ensures families and district and school staff collaborate with community members to connect students, families, and staff to expanded learning opportunities, community services, and civic participation

**Supportive Learning Environment:** A major system of the complex district organization that ensures students' school participation and willingness to expend major effort on classroom learning. This system includes the processes related to:

- *Maintaining order and safety* - the structure of the supportive learning environment system that ensures that the basic needs of orderliness and safety are met
- *Developing and monitoring a system of supports* - the structure of the supportive learning environment system that provides comprehensive services to students to meet their unique, whole-child needs
- *Ensuring a student learning community* - the structure of the supportive learning environment system that ensures compliance with positive and healthy behavioral and academic norms

### ***Process to Improve (How to Improve)***

**Step 1: Identify Needs:** Consult many sources to determine what in the district needs improvement.

- Plan and prepare for the process
- Collect and analyze data
- Identify needs and conduct a root cause analysis

**Step 2: Select Interventions:** Research many sources to determine the solutions that have a good chance of meeting the identified district needs.

- Consider all the evidence for needed improvements
- Research possible interventions
- Determine if staff has the capacity to implement possible interventions

**Step 3: Plan Implementation:** Develop a team and plan to implement the solutions that are most promising and can be carried out at the school.

- Identify roles and responsibilities of those implementing the intervention
- Develop a team that will deeply understand the intervention and of best ways to implement it
- Develop the implementation timeline
- Identify resources and supports needed for the implementation of the intervention
- Develop a set of information to be reviewed to track the implementation

**Step 4: Implement Plan:** Carry out the plan to implement the promising solutions, making real-time adjustments where/when needed.

- Collect information to monitor the quality of supports being provided for the intervention
- Consider what additional information is needed to determine if intervention is working
- Assess the degree to which the implementation plan is being followed
- Identify ways to break down any barriers
- Build capacity of others to facilitate the improvement process now and in the future

**Step 5: Examine Progress:** Determine whether the implementation of the promising solutions is meeting the originally identified needs of the school.

- Determine if the staff can formally study the effects of the intervention to share with others in the field
- Monitor implementation and progress against defined goals
- Define reasonable expectations for success
- Identify and track progress and performance
- Develop a plan for how knowledge about the intervention will be shared with others
- Use the evidence to determine whether the intervention should continue as is, be modified, or be discontinued

## 2. DISTRICT IMPROVEMENT GOALS

### 2.1 CREATING IMPROVEMENT GOALS

Effective goals assist districts and schools in attaining collective agreement about what work needs to occur for improvement to take place. Goals should focus and prioritize the efforts and resources of the district/school to the previously identified needs and create a focus for improvement. Setting goals should be a strategic process which aligns the goals within one of the five systems: Coherent Instruction, Effective Leadership, Professional Capacity, Family and Community Engagement, or Supportive Learning Environment.

There are several categories of goals which may be used in school improvement but the one type which focuses on improving results and not just enhancing processes is a SMART goal. SMART is an acronym for:

*Specific*                      *Measurable*                      *Attainable*                      *Relevant*                      *Time-bound*

An example of a SMART goal is:

By the end of the school year 2017-2018, all teachers will have training and be included in a PLC for their content-specific area.

#### 2.1.1 Completing the Improvement Goals Tables

Enter the district's two to four overarching needs and related root causes, as identified in the Comprehensive Needs Assessment 2017-2018 District Report, into the tables on pages 8, 14, 20, and 26. Determine a goal for each overarching need and include the goal in the last row of each corresponding table. For each overarching need, complete the planning tables covering the five systems from Georgia's Systems of Continuous Improvement. Use the codes below to list the structures addressed through the goal within each system. For each system, identify one to six action steps that will be taken to address the root causes that have created the overarching need. Finally, identify any supplemental action steps necessary to ensure the necessary supports are in place for the listed subgroups.

### 3. FY18 LEA EQUITY ACTION PLAN

District Name	
District Title II, Part A Coordinator	

#### 3.1 REVIEW of COMPREHENSIVE NEEDS ASSESSMENT REPORT

Using the Comprehensive Needs Assessment 2017-2018 District Report provided by the Georgia Department of Education, districts must review each data variable to determine district and school needs and areas of focus. Equity needs should be considered when reviewing this data. Districts must analyze the reasons for any identified equity gaps. This analysis should occur in the District Report.

#### 3.2 IDENTIFICATION of EQUITY GAPS

Districts must identify two gaps for improvement, focusing on gaps that impact minority students and economically disadvantaged students– One under Equity Gap #1 and one under Equity Gap #2. If a district does not plan to address a data variable that reflects a significant gap, the district should have provided an explanation in the data profile analysis. If a district reviews the data profile and does not identify equity gaps, the district must select two variables for continuous improvement. For each equity gap a different data profile variable must be identified.

### 3.3 SELECTION of EQUITY INTERVENTIONS to ADDRESS IDENTIFIED EQUITY GAPS

### 3.4 EQUITY INTERVENTIONS for REDUCING DISTRICT EQUITY GAPS

Describe how the equity intervention will be implemented, monitored, and measured for effectiveness in the current fiscal year. The description should include the personnel responsible by position and timeline for implementing, monitoring, and analyzing data to determine effectiveness of implementation. It should also include the data that will be gathered and analyzed to determine effectiveness. Because the plan will be executed in the current fiscal year, the timeline should specify whether each action will be monitored on an annual, bi-annual, quarterly, monthly, bi-monthly, weekly or daily basis. Certain implementation activities may have a more specific timeline (such as hiring a consultant to present in August, etc.).
