

**PORTAGE AREA SCHOOL DISTRICT  
STUDENT ACCIDENT INSURANCE  
2015-2016 SCHOOL YEAR**

The Portage Area School District provides medical insurance for a child or children attending school in our District. This plan is through United States Fire Insurance Company. The accident insurance covers students of the District (Pre-K through Grade 12) for any school sponsored and/or supervised activity.

The medical limits are \$1,000,000 with a 2-year benefit period. Coverage will also include football, interscholastic athletes, band, cheerleaders and Alternative Education Students. This plan covers Usual, Reasonable and Customary expenses of hospital, physician, lab & x-ray services, prescriptions, dental services, etc.

For your consideration, there is a 24-hour accident plan available. This plan may be purchased for students on a voluntary basis. The medical limits are \$250,000. This plan provides around the clock coverage to your child 24-hours a day, while he or she is in school, at home or away. Coverage is provided from the date purchased and premium received by A-G Administrators. This plan will then expire 8/10/2016. Interscholastic Sports are excluded. The cost for this coverage is \$90 per student.

PLEASE NOTE that these plans are designed to help supplement any family insurance that you have! Deductibles, co-insurance requirements or policy limits can be considered under the school plans. These plans will pay secondary to any other insurance that your child or children are covered under, unless there is no other insurance, then this plan will pay primary.

Please see Portage Area Website for a form to enroll.
