

Patient Assessment/Management - Medical

Candidate:			Date:	
Evaluator:			Start Time:	End Time:
Actions			Points Possible	Points Awarded
Takes or verbalizes, body substance isolation precautions			1	
Scene Size-Up				
Determines the scene is safe			1	
Determines the mechanism of injury/nature of illness			1	
Determines the number of patients			1	
Requests additional help if necessary			1	
Considers stabilization of spine			1	
Initial Assessment				
Verbalizes general impression of the patient			1	
Determines responsiveness/level of consciousness			1	
Determines chief complaint/apparent life threats			1	
Assesses airway and breathing				
Assessment			1	
Indicates appropriate oxygen therapy			1	
Assures adequate ventilation			1	
Assesses circulation				
Assesses/controls major bleeding			1	
Assesses pulse			1	
Assesses skin (color, temperature, and condition)			1	
Identifies priority patients/makes transport decisions			1	
Focused History and Physical Examination/Rapid Assessment				
Signs and symptoms (assess history of present illness)			1	
Respiratory	Cardiac	Altered Mental Status	Allergic Reaction	
*Onset *Provokes *Quality *Radiates *Severity *Time *Interventions Refer to Nebulizer	*Onset *Provokes *Quality *Radiates *Severity *Tim *Interventions Refer to Nitroglycerin	*Description of the episode *Onset *Duration *Associated symptoms *Evidence of trauma *Interventions *Seizures *Fever	*History of allergies *What were you exposed to *How were you exposed *Effects *Interventions Refer to Epinephrine	
Allergies			1	
Medications			1	
Past pertinent history			1	
Last oral intake			1	
Event leading to present illness (rule out trauma)			1	
Performs focused physical examination (assesses affected body part/system or, if indicated, completes rapid assessment)			1	
Vitals (obtains baseline vital signs)			1	
Interventions (obtains medical direction or verbalizes standing order for medication interventions and verbalizes proper additional intervention /treatment)			1	
Transport (re-evaluates the transport decision)			1	
Verbalizes the consideration for completing a detailed physical examination			1	
Ongoing Assessment				
Repeats initial assessment			1	
Repeats vital signs			1	
Repeats focused assessment regarding complaint or injuries			1	
Total			30	
<input checked="" type="checkbox"/>	Critical Criteria			
<input type="checkbox"/>	Did not take, or verbalize, body substance isolation precautions when necessary			
<input type="checkbox"/>	Did not determine scene safety			
<input type="checkbox"/>	Did not obtain medical direction or verbalize standing orders for medical interventions			
<input type="checkbox"/>	Did not provide appropriate concentration of oxygen			
<input type="checkbox"/>	Did not find or manage problems associated with airway, breathing, shock (hypertension)			
<input type="checkbox"/>	Did not differentiate patient's need for transportation versus continued assessment at the scene			
<input type="checkbox"/>	Did detailed or focused history/physical examination before assessing the airway, breathing and circulation			
<input type="checkbox"/>	Did not ask questions about the present illness			
<input type="checkbox"/>	Administered a dangerous or inappropriate intervention
