CLASS OF 2018 Graduates of the Randolph County School System:

Numerous special events to honor the graduates of all seven high schools in the Randolph County School System, such as awards assemblies, were held during the past few weeks. While the presentation of a variety of awards and recognitions took place at those events, I want to take a moment to congratulate each one of you for reaching a major educational milestone in your life: graduation from high school. In addition to congratulating you on this accomplishment, I want to thank you for your positive impact on our school system.

Along with the previously noted special events, high school graduation ceremonies will occur throughout the Randolph County School System tomorrow (June 8). In fact, some ceremonies already have been held for the Randolph Early College High School graduates. Please take time to enjoy your graduation ceremony with your friends and family members. Also, I encourage you to take time to reflect on your great memories and accomplishments associated with your high school days, as well as your time as a student at the elementary school and middle school levels, in the Randolph County School System.

During the past 13 years since your first day of kindergarten, you have worked hard to learn and apply new ideas and information as well as build a special community culture throughout our school system. You also have played a major role in many successes both in and out of the classrooms for our school system in areas such as the performing arts, student organizations, academic competitions, and athletics during the past 13 years. Please know that you are greatly appreciated for representing our school system in such a positive manner in so many different arenas, both inside and outside of the borders of our school system.

I realize that many different paths will be chosen by you graduate from high school and move to the next stage of life. Some students will join a branch of the military and serve our great country. The world of work will be the chosen path for other graduates. Enrollment in a community college or college/university will be the focus of other members of the “Class of 2018.” Regardless of your decision for the days after your graduation from high school, I urge you to “pursue your goals with a high level of effort and commitment.” If you think you can accomplish something and put your whole heart into it, success most likely will occur.

In closing, please know that the members of your school’s staff, your parents, members of your community, members of the Randolph County Board of Education, and your superintendent are very proud of you. Furthermore, I have one special request. Regardless of your chosen path after your graduation from high school, please do not forget to hold onto and follow your own dreams. Please do not let anyone take them away from you. Likewise, it is important to act in a manner that supports your dreams rather than causes you to give them away. I look forward to watching all of the great things that the members of the Class of 2018 will accomplish in the future. Without a doubt, you will play an important role in the future of our country.

Respectfully,
Stephen Gaine
Superintendent Randolph County School System
