

A Message from Superintendent Dr. Stephen Gainey to RCSS Parents

Hello, parents of the Randolph County School System. I want to make you aware of the state's release of some important information about our school system and your child's school. More specifically, the "North Carolina School Report Card" for each school and school system was released by the state on December 5. As in past years, each student will be given a "snapshot" document for his/her school to take home. This document will be distributed on Friday, December 15. Please be on the lookout for this document.
