Blake is an artist with autism. He is 26 years old and has been painting since he was 12 years old. A former student in the Randolph County School System, Blake fell in love with art while participating in the special artists classes at the Arc of High Point.

Since beginning formal painting lessons 14 years ago, Blake has not put a paintbrush down since! We discovered that he had a love of painting that had never been explored before.

Blake takes lessons at the Arc of High Point, as well as private lessons from renowned artists from High Point and Thomasville.

Blake would like to paint every single day, if he were able to. To learn more about him and his works, visit: https://www.facebook.com/ArtbyBlakeHenkel/
