

# School-Based Telehealth Visits

**Valley Health System** and **Rappahannock County Public Schools** are partnering together to bring video telehealth into our schools.

If your child gets sick at school, it's not always easy to leave work. Telehealth makes it easier. With your permission, a nurse will use video telehealth technology to connect your child with a provider at Valley Health.

In most cases, your child can be diagnosed without leaving school or you having to leave work.

**For more Information and Enrollment**  
[www.valleyhealthlink.com/schools](http://www.valleyhealthlink.com/schools)

For other questions or more information, please call Rappahannock Elementary School at 540-227-0200 or email [TelehealthSchool@valleyhealthlink.com](mailto:TelehealthSchool@valleyhealthlink.com)
