School Processes & Programs

School Processes & Programs Summary

Red Oak High School works with the district Administration Team, Curriculum Department, and our campus Administrators and Instructional Coaches to ensure that student needs are met through a rigorous TEKS based instructional program. We offer a full list of Staff Development options through our Eduphoria Workshop Center, and teachers are encouraged to participate in summer trainings and planning for the upcoming school year. Teachers participate in weekly PLC meetings around common conference periods in most core areas where we focus on studying the TEKS/SE's and planning the lesson, as well as, participate in instructional meetings where we analyze the data to further inform our instructional decisions.

Student progress is monitored through our Level Up Campaign, Curriculum Based Assessments, Pre-Assessments and teacher created tests. Lead4ward's STAAR4ward series is followed closely by our Campus Instructional Team as we roll out instructional strategies and vocabulary development along with other instructional tools.

School Processes & Programs Strengths

Staff (teachers, administrators counselors and instructional coaches) all work together to develop plans that are best for our students' instructional plans. Teachers and IC's work hard on CBA's to edit and review the needs (they scaffold in where data shows it is needed), and they develop unit lessons and assessments that align with their Year at A Glance documents. This helps cover the needed TEKS for the horizontal team and the needed items within the vertical team as well.

We will continue this year with our Level-Up Campaign. We have ordered posters to chart student success for teachers in all core areas. They will hang these outside their classrooms, and we are encouraging competition between the classes.
