The Shoprite Is Now Open!!

On Monday, October 19, 2015 at 9:00 AM, the first customer's purchase was rung up by a student working the cash register in our Shoprite supermarket here at the Somerset County Educational Services Commission. This, indeed, was a historical event!

Our Shoprite will be open from 9:00 AM to 9:50 AM, Monday through Friday. The shelves are fully stocked with such items as spaghetti sauce, macaroni, breakfast cereals, coffee, K-cups, paper towels, and much more.

Coming Soon... Java Bar! We'll be sure to let you know when it's up and running so you can stop in for a hot cup of Joe.

Graphic Arts & Design Program

The Graphic Arts & Design classes are well on their way to a successful start.

The students are involved in creating brochures and other artistic projects. They have been introduced to the Wide-Format printer and the production color copier. New equipment is being introduced as students' progress in the program. A Vinyl Cutter-Plotter is on order and we're investigating the purchase of a dye sublimation machine. These machines will give the students a wider range of experiences and increase their capabilities for customer service and project expansion.

Power Engine Technology

The students involved in the Power Engine Technology class are becoming familiar with various types of engines and small equipment.

Each student has successfully completed training in safety procedures and rules. They have moved into the PET shop to begin their hands on experience. Instruction in the shop allow students to disassemble many types of engines and truly discover their inner-workings.

New equipment arrives regularly, giving students fresh learning opportunities.
