

txConnect - Parent Access

In an effort to provide parents/guardians with up-to-date student grades and attendance information, the San Diego Independent School District has implemented a new online monitoring system “**txConnect**”. This web-based program will allow parents/guardians “read only” access to their child’s grades and attendance information. It also features “**Alerts**” messages that notify a parent that his student has grades or attendance information of which he should be aware, such as an absence or a low grade. When a parent creates a **txConnect** account, he is automatically subscribed to two alerts: Unexcused absence alerts and Failing grades. An alerts subscription may be changed at any time. Additional information can be obtained by logging on to www.sdisd.esc2.net and click on **txConnect-Parent Training Manual**. We hope that you will find **txConnect** as a valuable tool for monitoring your students’ academic progress throughout the school year.
