A MESSAGE FROM OUR SUPERINTENDENT

August 2020

Dear Parent/Guardian and Students,

I hope this message finds you and your family well. Welcome to the 2020-21 school year. While there is no doubt this is an unusual school opening, we are eager to reconnect and engage with our families and students and make this new experience the best educational setting for all of our students.

State and Federal laws require school districts to annually notify parents and guardians of rights and responsibilities. The information in this handbook is a brief synopsis of certain statutes.

Prior to this school year, the information contained in our Parent/Guardian & Student Handbook has been based on our school sites operating under a traditional school model. Due to the current COVID-19 pandemic, our schools will be diverting from an in-person school setting to distance learning for the Fall 2020 semester with the rest of the school year under review. The SMJUHSD Reopening Plan has been developed to present the specifics for the new Distance Learning model. As we wait to transition back to an in-person school setting, please consider both the Parent/Guardian/Student Handbook and the Reopening Plan as your guides for this school year. The Reopening Plan may be accessed on the District and school websites with a hard copy available upon request.

We thank you for your continued patience and adaptability. We will get through this together and look forward to this school year with your support.

Antonio Garcia
Superintendent

Please review the material in this booklet. Then SIGN and RETURN the acknowledgement on page 2 to the Records Office at your student’s school.

I ask, therefore, that you please take a moment of your time to carefully review the district and school handbooks that have been provided to you on the District’s and on your child’s school websites. After your review, please sign and return this form to the Record’s Office at your student’s school. This parent/guardian acknowledgment indicates you have reviewed these materials. If you have any questions regarding this information, please feel free to contact our District Office.

Antonio Garcia, Superintendent

PARENT INVOLVEMENT POLICY/TITLE 1

Parent Involvement Policy/Title 1
BP 6020

Instruction

The Board of Education recognizes that parents/guardians are their children's first and most influential teachers and that sustained parent involvement in the education of their children contributes greatly to student achievement and a positive school environment. The superintendent or designee shall work with staff and parents/guardians to develop meaningful opportunities at all grade levels for parents/guardians to be involved in district and school activities; advisory, decision-making and advocacy roles; and activities to support learning at home.

Parents/guardians shall be notified of their rights to be informed about and to participate in their children's education and of the opportunities available to them to do so.

The Superintendent or designee shall regularly evaluate and report to the Board on the effectiveness of the district's parent involvement efforts, including, but not limited to, input from parents/guardians and school staff on the adequacy of parent involvement opportunities and barriers that may inhibit parent/guardian participation.

Title I Schools

Each year the Superintendent or designee shall identify specific objectives of the district's parent involvement program for schools that receive Title I funding. He/she shall ensure that parents/guardians are consulted and participate in the planning, design, implementation, and evaluation of the parent involvement program. (Education Code 11503)

The Superintendent or designee shall ensure that the district's parent involvement strategies are jointly developed with and agreed upon by parents/guardians of students participating in Title I programs. Those strategies shall establish expectations for parent involvement and describe how the district will carry out each activity listed in 20 USC 6318. (20 USC 6318)

The Superintendent or designee shall consult with parents/guardians of participating students in the planning and implementation of parent involvement programs, activities, and regulations. He/she also shall involve parents/guardians of participating students in decisions regarding how the district's Title I funds will be allotted for parent involvement activities. (20 USC 6318)

The Superintendent or designee shall ensure that each school receiving Title I funds develops a school-level parent involvement policy in accordance with 20 USC 6318.
PARENT INVOLVEMENT POLICY/TITLE 1

This parent involvement policy describes the means for carrying out the requirements of subsections 20 U.S.C. § 6318 ©-(f):
- Policy Involvement
- Shared responsibilities for High School Academic Achievement
- Building Capacity for Student Involvement
- Accessibility

To ensure that parents/guardians are consulted and participate in the planning, design, implementation and evaluation of Title I programs, each school receiving Title I assistance shall:

1. Invite all parents/guardians of eligible children to attend an annual meeting in order to inform them about the school’s participation in Title I and their right to be involved.
2. Offer additional meetings for parents/guardians at convenient times, for which related transportation, child care and/or home visits may be provided.
3. Involve parents/guardians in an organized, ongoing and timely way in the planning, review and improvement of Title I programs and parental involvement policies.

Provide the parents/guardians of participating students all of the following:

1. Timely information about Title I programs.
2. School performance profiles and individual student assessment results, with an interpretation of these results.
3. A description and explanation of the school curriculum, forms of assessment used to measure student progress, and expected proficiency levels.
4. Opportunities to meet regularly with other parents/guardians to formulate suggestions, share experiences and participate in decisions related to their children’s education.
5. Timely responses to the suggestions of parents/guardians.
6. Submit to the Superintendent or designee any negative comments by parents/guardians related to the school-wide program plan.

Jointly develop with the parents/guardians of participating students a school-parent compact that outlines how parents/guardians, staff, and students will work as partners and share responsibility for improved student achievement. This compact shall describe:

1. The school’s responsibility for high-quality curriculum, instruction and learning environment.
2. Parental responsibilities for supporting their children’s learning, such as monitoring attendance and homework completion, volunteering in the classroom and participating in decisions related to their children’s education and use of extracurricular time.
3. Channels of ongoing communication between teachers and parents/guardians, including parent-teacher conferences, progress reports, reasonable access to staff, and opportunities to volunteer and observe classroom activities.
Help parents/guardians understand academic content, achievement standards, national education goals, state student performance standards, assessments, and related state responsibilities. In addition, help them understand how to participate in decisions related to their children's education, monitor student progress and work with educators to improve their children's achievement.

Each school and LEA shall provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory students including providing information and school reports required under Section 6311 in a format and, to the extent practicable, in a language such parents understand. (20 U.S.C. § 6318(f).

Provide materials and training that will help parents work with their children to improve their achievement.

Educate teachers, principals, and other staff in the value of parental involvement and ways to reach and work with parents/guardians as equal partners.

Insofar as feasible, coordinate and integrate parental involvement programs and activities with other programs.

Encourage community-based organizations and businesses to participate in parental involvement activities and work with parents/guardians and the schools.

Conduct other activities as feasible to help parents/guardians learn about child rearing issues.

Distribute information related to school and parent programs, meetings, and other activities to the parents of participating students in a format and, to the extent practicable, in a language the parents understand. (20 U.S.C. § 6318(e)(5).

Provide reasonable support for parental involvement activities as requested by parents/guardians.

At least one percent of the Title I funds received by the district shall be used for parental involvement activities. The parents/guardians of children receiving Title I services shall be involved in deciding how these funds are allotted. [20 U.S.C. 6319, BP/AR 6171]

In addition to the required activities above, Title I funds may be used to support any of the activities listed below:

1. Involve parents/guardians in the development of training for teachers, principals and other staff.
2. Provide necessary literacy training when other reasonable available sources of funding for this purpose are exhausted.
3. Pay reasonable and necessary expenses associated with local parental involvement activities to enable parents/guardians to participate in school-related meetings and training sessions.
4. Train and support parents/guardians to enhance the involvement of other parents/guardians.
5. Arrange meetings at a variety of times to maximize opportunities for parental participation.
6. Arrange for teachers and other educators who work directly with participating children to conduct in-home conferences with parents/guardians who are unable to attend conferences at school.
7. Adopt and implement model approaches to improving parental involvement. [BP/AR 6171].

Repeated courses must be the same course. If a student is repeating a course previously taken, the higher of the two grades will be applied to the course and elective course credit will be given for the lower grade attempted provided it’s a passing grade. The repeated course should be averaged along with all of the courses during the grading. AR 5121(b)

On-Track Credit Recovery
This is an online program where students work at their own pace to make up failed courses needed for graduation.

Withdrawal from Classes
Students who drop a course during the first 20 school days of the semester, may do so without any entry on his/her permanent record. A student who drops a course after 20 school days of enrollment in a class shall receive an “F” on their permanent record unless otherwise decided by the principal or designee because of extenuating circumstances. Plus and minus signs may be used at the option of the teacher. No grade of a student participating in a physical education class may be adversely affected due to the fact that the student, because of circumstances beyond his/her control, does not wear standardized physical education apparel. [E.C. 49066] Whenever it becomes evident to a teacher that a student is in danger of failing a course, the teacher shall arrange a conference with the student’s parent/guardian or send the parent/guardian a written report (Education Code 49067)

Administrative Regulation
Graduation Ceremonies And Activities

AR 5127

Students

The following guidelines shall apply in the selection of valedictorian and salutatorian.

- Only high school coursework, offered by an accredited secondary institution shall be considered when determining recognition as valedictorian and salutatorian.

- Coursework completed at post-secondary institutions will not be considered when determining recognition as valedictorian or salutatorian, unless they are ‘Concurrent Enrollment’ courses that earn transferable Allan Hancock College credit as well as fulfill SMJUHSD graduation requirements.

- Coursework completed over the Internet will not be considered when determining recognition as valedictorian or salutatorian.

- All approved courses taken in grades 9-12 will be considered.

- Students that transfer to the Santa Maria Joint Union High School District must be a district student in residence for a minimum of one full academic year, prior to the date of Grade Point calculation for valedictorian or salutatorian.

- During the year of graduation, Grade Point calculations to determine valedictorian and salutatorian will be conducted at the end of the first semester at Righetti High School, Santa Maria High School and Pioneer Valley High School.

  - Grades for weighted courses offered or accepted upon transfer will be considered to determine the top 20 students in the graduating class.
  - Each Grade Point Average (GPA) of the top 20 students will be recalculated using total GPA (9-12) non-weighted.
  - GPA averages (9-12 non-weighted) will then be recalculated, assigning a point value of .02 to each A earned in a five unit Advanced Placement/Honors/Concurrent AHC class completed, and .01 to each B earned. No points are added for grades below B.
Administrative Regulation 5127 (continued)  
— Approved March 14, 2017

Graduation Attire and recognition requests are on page 2 of the AR and are listed below.

- Site selected graduation gowns and hats without decoration
- School and/or District-issued recognition cords/sashes/insignia
- Other recognitions shall be limited to cords/sashes/insignia that are affiliated with membership and participation in an official school group. These recognitions shall be ordered, distributed, and purchased by the group and must approved by both ASB and Site Principal.

Step 4: Notify the group it is their full and complete responsibility to purchase approved recognition items. No District funds shall be expended for this purpose.

If the conditions in Steps 1-4 are met, then the request will be conditionally approved.

**Final approval of recognition cords/sashes/insignia shall be made by the District superintendent or his/her designee and is not subject to site review.**
Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT)

The PSAT will be offered in October 2020 to 10th and 11th graders. There are three possible PSAT test dates this year:
- Primary: Wednesday, October 14, 2020
- Saturday: October 17, 2020
- Alternate: Wednesday, October 28, 2020

The PSAT is administered by each high school on an individual basis (rather than at designated test centers like the SAT). This means that high schools get to decide which date to offer to students.

ATTENDANCE INFORMATION

As required by law and the educational code, parents/guardians are responsible for enrollment and regular attendance of their school-age children in their district and school of residence. Regular attendance in all classes is a priority and is important for a successful academic experience culminating in graduation and college and career preparedness.

A direct correlation exists between good attendance and high academic achievement, a rewarding and positive high school experience, and eventual success in higher education and/or a career in the work force. Building good habits for life, such as reliability, punctuality and personal responsibility, are equally important. For these reasons and because attendance at school is the law, our district takes attendance very seriously and sees it as a top priority.

Student attendance also has a financial impact on the quality of education the school is able to provide as the school only receives funding when the student is in class or otherwise accounted for. Therefore, absences of any kind have can have an adverse financial effect on the instructional materials, textbooks, field trips, and other important services provided to your student.

For special situations or circumstances that may require a student to miss school, not specifically listed below in subsection (a), 1) through 9), it is extremely important that the parent communicate with the school site (teacher, school counselor, and attendance office). This will help prevent unnecessary and continuous absence notifications, and most importantly, subsequent designation as a truant with referral to the School Attendance Review Board (SARB).

A pupil shall be excused from school when the absence meets the criteria listed below:

(a) Notwithstanding Section 48200, a pupil shall be excused from school when the absence is:

1) Due to his or her illness.
2) Due to quarantine under the direction of a county or city health officer.
3) For the purpose of having medical, dental, optometric, or chiropractic services rendered.
4) For the purpose of attending the funeral services of a member of his or her immediate family, so long as the absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California.
5) For the purpose of jury duty in the manner provided for by law.
6) Due to the illness or medical appointment during school hours of a child of whom the pupil is the custodial parent.
7) For justifiable personal reasons, including, but not limited to, an appearance in court, attendance at a funeral service, observance of a holiday or ceremony of his or her religion, attendance at religious retreats, attendance at an employment conference, or attendance at an educational conference on the legislative or judicial process offered by a nonprofit organization when the pupil's absence is requested in writing by the parent or guardian and approved by the principal or a designated representative pursuant to uniform standards established by the governing board.
8) For the purpose of serving as a member of a precinct board for an election pursuant to Section 12302 of the Elections Code.
9) For the purpose of spending time with a member of the pupil's immediate family, who is an active duty member of the uniformed services, as defined in Section 49701, and has been called to duty for, is on leave from, or has immediately returned from, deployment to a combat zone or combat support position. Absences granted pursuant to this paragraph shall be granted for a period of time to be determined at the discretion of the superintendent of the school district.
ATTENDANCE INFORMATION

(CONTINUED)

(b) A pupil absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided and, upon satisfactory completion within a reasonable period of time, shall be given full credit therefor. The teacher of the class from which a pupil is absent shall determine which tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the pupil missed during the absence.

(c) Student absence for religious instruction or participation in religious exercises away from school property may be considered excused subject to law and administrative regulations. (Education Code 46014) For purposes of this section, attendance at religious retreats shall not exceed four hours per semester.

(d) Absences pursuant to this section are deemed to be absences in computing average daily attendance and shall not generate state apportionment payments.

(e) "Immediate family," as used in this section, has the same meaning as set forth in Section 45194, except that references therein to "employee" shall be deemed to be references to "pupil."

Upon being reported as absent by a classroom teacher, an automated school messenger computer system will call home as a courtesy on the day of your student’s absence/tardy each evening between the hours of 6:30 and 7:30 p.m. The automated School Messenger calls any time a student is marked out of class. If your student had permission to attend a school event and was present, this absence will not count as a cut and will be cleared by the teacher/coach the next day.

REPORTING AND CLEARING OF ABSENCES

The timeline for notifying, verifying and clearing absences will be on the day they are absent and within 2 days of the school returning to school. When notifying the school of your student’s absence, please ensure you include the following when you call-in, email, or send a note to the school:

Student’s First Name, Last Name, Grade; ID Number; date and reason for absence, parent/guardian name and relationship to student; and a phone number where the parent/guardian can be reached in case of questions or follow-up. Reporting and clearing of absences will generally be a two-step process with the only exception being an unforeseen emergency/situation.

Step 1:
Parents should notify the school the day that their student will not be attending school. Parents will be allowed to report absences in person, via email, parent portal or phone call by accessing the parent portal, and/or the attendance phone line or email address providing the information as required above.

Step 2:
From the day their student is absent to no more than 2 days after returning to school, parents/guardians are to verify and clear absences by phone call, submitting a written note, parent portal or email by accessing the attendance phone line or attendance email address.

Please note: Students who are found attempting to clear absences without a parent’s permission or have excessive excused absences WILL NOT be allowed to submit via email or phone call. They will instead be required to submit written verification (handwritten note). Per district policy, excessive excused absences are defined as 14 or more days of excused absences. In this case, future absences for illness will require verification in writing by a physician.

The parent or guardian of the pupil with temporary disability is responsible for notifying the district where the parent resides and where the health facility is located. Upon receipt of notification, the district shall commence specific EDUCATIONAL RESPONSIBILITIES within a mandated timeline. [E.C. 48206.3, 48207, 48208(a) (b)]

Notice of Alternative Schools
California state law authorizes all school districts to provide for alternative schools. Section 58500 of the Education Code defines alternative schools as a school or separate class group within a school which is operated in a manner designed to:

a. Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity,
b. Resourcefulness, courage, creativity responsibility and joy.
c. Recognize that the best learning takes place when the student learns because of his desire to learn. Maintain a learning situation maximizing student self-motivation and encouraging student in his own time to follow his own interests. Theses interests may be conceived by him totally and independently or may result in whole or part from a presentation by his teachers of choice of learning projects.
d. Maximize the opportunity for teachers, parents and students to cooperatively develop the learning process and its subject matter. This opportunity shall be continuous, permanent process.
e. Maximize the opportunity for students, teachers, and parents to continuously react to the changing world, including but not limited to the community in which the school is located.

In the event any parent, pupil, or teacher is interested in further information concerning alternative schools, the county superintendent of schools, in the administrative office of his district, and the principal’s office in each attendance unit have copies of the law available for your information. This law particularly authorizes interested persons to request the Board of Education of the district to establish alternative school programs in each district [E.C. 58501; ne]

Minimum Days/Pupil Free
Staff Development Days
Parents shall be advised of any scheduled minimum days or staff development days in which students do not attend school no later than one month prior.
ATTENDANCE OPTIONS

Primary enrollment determination is based on district boundary guidelines. Enrollment decisions shall not be based on a student’s academic or athletic performance. Once enrolled in a school on an Intra-district Transfer a student shall not have to apply for readmission.

**Inter-District Transfers**

Inter-district Transfers are transfers between school districts. Parents use the same transfer form but fill out the section referring to Inter-district Transfers. These transfers must be approved by both the school district of residence and the school district requested. Once the form is signed by the official Superintendent’s Designee of both districts the transfer is official. **Students on an inter-district transfer must submit a new transfer request each year.**

**Enrollment Priorities**

No student currently residing within a school’s attendance area shall be displaced by a student residing outside a school’s attendance area. The Governing Board retains the authority to maintain appropriate racial and ethnic balances among District schools. Once enrolled at a school of residence or a school of choice through the Open Enrollment process a student shall not have to reapply for readmission. Priority for intra-district transfers under the ESEA 2001 Act requires districts to allow students to change schools if their neighborhood school has been deemed by the state department of education to be dangerous or where the student has been a victim of a violent crime.

**Appealing Denial of Intra/Inter-District Transfer Request**

If a transfer is denied, a written appeal may be filed with the Superintendent’s Designee or the Superintendent. For information, call (805) 922-4573, Ext. 4215.

**Attendance – Proof of Residency**

A student may establish residency by documenting that he/she lives with a parent/guardian within the district; that he/she is an emancipated minor living in the district; that he/she is in the court-appointed care of a licensed foster home, family home, or children’s institution within the district, or that he/she lives in the home of a care-giving adult within the District. (E.C. 48204)

Reasonable evidence of residency may be established by documentation including but not limited to any of the following: property tax payment receipts, rent payment receipts, two utility bills, Landlord/Homeowner Verification of Residence Form plus proof of residence for the landlord/homeowner (i.e. utility bill, payroll stub with the residence address, permanent driver's license, public assistance paperwork, SSI, Cal Works, Welfare, Disability, or two forms of permanent I.D. indicating the address of the residence). E.C. 48204(d), 48980(g)

**Attendance Where Caregiver Resides**

If your child lives in the home of a care-giving adult, as defined by law, your child may request to attend the school district in which that residence is located. There is no guarantee as to the school assigned. The Superintendent or his Designee shall consider space availability and other pertinent factors prior to enrollment. Execution of an affidavit by the care-giving adult is required to enroll the student in school. The affidavit is to be signed under penalty of perjury pursuant to Family Code [E.C. 48204(d), 48980(h); ne]

**Attendance in District in Which Parent/Guardian is Employed**

There are specific criteria to be met to comply with residency requirements for school attendance in a school district for students when one or both parents/legal guardians are employed within the boundaries of that school district. [E.C. 48204(f), 48204(f)(7), 48980(e).]
ATTENDANCE OPTIONS

The governing board annually reviews attendance options including how students may attend a district school outside their attendance area (Intra-district). This district has non-arbitrary rules explaining how students may apply, be accepted or denied transfer to district schools. Many districts also allow the transfer of students from or to other districts (Inter-district). In some cases the district must provide transportation. [E.C. 3560.5, 46600, 48204, 48206.3, 48301, 48306, 48980].

Students transferring into and out of the district will be considered on a case-by-case basis through the inter-district attendance request process. For students transferring into the district from neighboring districts, placements will be in the school which is closest in geographical proximity to their home district or the least impacted school. Inter-district transfer requests out of the district will be denied if our district can accommodate the student. The district may revoke a student’s enrollment if he/she is recommended for expulsion pursuant to Education Code 48918.

School Intra-District Transfer Option Within the Santa Maria Joint Union High School District

The Intra-district Transfer involves consideration of an Intra-district Attendance Permit Application submitted at any time to transfer from one SMJUHSD site to another. Space availability will be a primary consideration.

Space Availability

The superintendent or designee shall identify those schools which may have space available for additional students for the 2017-18 school year. A list of these schools will be maintained by the Director of Student Services at the SMJUHSD Office. Parents/guardians and students (18 or older) may submit applications for consideration throughout the year. However, consideration will be given to appropriate timing relative to a change of enrollment. If there are more applicants than a school can accommodate, a waiting list shall be established to indicate the order in which students may be considered, as openings occur under the Intra-district Transfer Policy. The superintendent or designee shall inform applicants by mail as to whether their applications have been approved, denied, or placed on a waiting list. Applicants who receive approval must confirm their enrollment within two weeks. Any complaint regarding the selection process should be taken to the superintendent or designee (Assistant Superintendent of Curriculum and Instruction).

Intra-District Transfer

Requests for transfers between district schools will be considered under the Intra-district Transfer policy. Each request is considered on a case-by-case basis with the following priorities for consideration:

- The Board’s authority to maintain appropriate racial and ethnic balances
- State Designation of Persistently Dangerous Status of a School
- Victim of a violent criminal offense
- Space availability.
- Special Circumstances/danger to the student as verified by statement from law enforcement, social services, a licensed therapist, or a court restraining order
- Siblings of students already in attendance at the requested school
- A student whose parent is assigned to the requested school as his/her primary place of employment.
Social Events/Meetings
The Board of Education believes that dances and social events should promote a positive school climate.

The principal or designee shall ensure that guests at dances:
- Are under the age of 21 as verified by driver's license or other identification
- Are accompanied by a currently-enrolled student
- Have completed a Guest Pass form signed by a designated site administrator

Students must present a school identification card and/or Associate Student Body (ASB) card to enter a dance.

The principal or designee shall schedule social events so as to minimize disruptions and meet the requirements of law and negotiated agreements. All dances and special events shall comply with district and site procedures for approval (ef5137 – Positive School Climate).

Eligibility for Extra-Curricular Activities
Students must maintain a 2.0 “C” grade point average to be eligible to participate in extra-curricular activities. Eligibility is determined at each six-week grading period. Students who receive below a 2.0 “C” must wait a semester until they can regain their eligibility. Progress reports DO determine eligibility.

“No student shall be allowed to purchase any event ticket or voucher from the ASB Office if a student has unpaid charges or is not current on a payment plan.”

Ticket Sales
Tickets are available for sale prior to the dance (pre-sale). Students must have a school picture identification card to be admitted to a dance.

Dress Code
The established dress code for students will be in effect during school sponsored dances. Students who are dressed inappropriately will be asked to change into appropriate clothing. If the student cannot or refuses to change into appropriate clothing, he/she will be directed to leave the dance. The student’s parents/guardians will be contacted and arrangements will be made for the student to go home.

Lighting
Each individual school will coordinate with the DJ to ensure that the lighting at all dances is appropriate. If no agreement can be reached, the administrator or designee in charge will have the final say.

Music Selection
Each individual school will coordinate with the DJ the music selection. If a DJ is playing music that is inappropriate as determined by the school's administration and/or Activities Director, the DJ will be directed to change the music selection. If the DJ refuses to comply, the administrator or designee is authorized to close down the dance.

Dance Supervision
There will be school staff supervision at all dances to ensure a safe and healthy environment for students.

Dance Standards
Any provocative dancing, as determined by the administrator will not be permitted. More specifically, dancing styles that involve touching of breasts, buttocks or genitals, grinding, straddling each other’s legs, or those that simulate sexual activity are not permitted. When dancing back to front, all dancers must remain upright - no hands on knees and no hands on the dance floor with buttocks touching dance partner or other dancers.

Consequences for Violating Expectations
Wristbands which are required to be worn at the dance, will be issued during the check-in process. If a staff member determines that a student is dancing inappropriately, they will give the student one warning and remove his/her wristband. If the same student is dancing inappropriately a second time (this student would not be wearing a wristband), he/she would be directed to leave the dance. Parents/guardians will be contacted and arrangements will be made for the student to go home.

School Rules
Students and guests attending a school dance will be held accountable for abiding by all applicable school rules and regulations.

ATHLETIC/EXTRA-CURRICULAR CODE

PHILOSOPHY
The development of a well-rounded student is a major goal of all educational institutions, and the Santa Maria Joint Union High School District encourages all students to participate in a varied extra-curricular activities program. It is the belief of the District that a strong extra-curricular program creates and maintains positive school spirit and fosters student responsibility.

Participation in extra-curricular activities is a privilege, not a basic right of all students. The school has the authority to revoke this privilege. Certain rules have been established for all students who become involved in the extra-curricular program. The Athletic/Extra-curricular Code and Contract sets forth these expectations.

ELIGIBILITY
Students must have a 2.0 grade point average and pass 20 credits at each grading period to participate in extra-curricular activities. An ineligible student is expected to all off-season workouts and may practice during his/her period of ineligibility. An ineligible student may not compete or travel with the team for any game unless he/she qualifies and exercises their one-time waiver (Please see next section for waiver eligibility).

ACADEMIC WAIVER FOR ACADEMIC ELIGIBILITY
All students entering a Santa Maria Joint Union High School District school may use an academic waiver one time in their high school career at any of the schools in the district. This waiver may only be used for one academic grading period and students must meet the following criteria to receive an academic waiver:

• The participant must have at least a 1.5 G.P.A. for the last recorded grading period used to determine eligibility.
• The participant must be on a varsity-level team.
• The Athletic Director, the coach, the parent/s and/or guardian/s of the participant must all agree on the use of the academic waiver with final approval from the Principal.
• The participant must utilize one of the interventions on a weekly basis to continue on the waiver. This may include, but not be limited to, before/after school tutoring, student study teams, weekend/Saturday classes, or department tutoring.
• The participant must meet all other C.I.F., district, school, and team requirements during the waiver period.

P.E. CREDIT FOR ATHLETICS
All students who enroll in an athletic physical education course will receive a grade of credit or no-credit. Only 5 units of athletic PE units can be used towards the 20 unit PE graduation requirement.

BEHAVIOR
All extra-curricular participants are expected to display reasonable behavior, respect the rights of others and abide by school rules. All rules and consequences in the Santa Maria Joint Union High School District Discipline Handbook apply before, during, and after all extra-curricular school events. Suspension from school will carry additional consequence(s) or removal from extra-curricular activities, including practice, for the period of suspension and/or may result in removal from the activities beyond the period of suspension. Any inappropriate behavior will carry an additional consequence of possible suspension from school and/or activity. All extra-curricular participants should not be in the presence of another or others where illegal use of alcoholic beverages and/or drugs is taking place.

(u) As used in this section, “school property” includes, but is not limited to, electronic files and databases
(v) A superintendent of the school district or principal may use his or her discretion to provide alternatives to suspension or expulsion, including, but not limited to, counseling and an anger management program, for a pupil subject to discipline under this section.
(w) It is the intent of the legislature that alternatives to suspension or expulsion be imposed against a pupil who is truant, tardy, or other wise absent from school activities.

**The recommendation of expulsion shall be based on one or both of the following (E.C. 48915(b)):**

1. Other means of correction are not feasible or have repeatedly failed to bring about proper conduct.
2. Due to the nature of the act, the presence of the pupil causes a continuing danger to the physical safety of the pupil or others [see Section 48915 (b) of the California Education Code].
The following Major Discipline Policy includes the most common offenses and disciplinary actions. The district has the right to suspend/expel for additional portions of Section 48900 of the Education Code even though they are not listed in the following matrix.

The Individuals with Disabilities Education Act (IDEA) defines special education as: "Specially designed instruction, at no cost to parents, to meet the unique needs of a child with a disability."

Special education ensures that the unique needs of students with disabilities are met through additional services, supports, programs, specialized placements, or environments. Special education services are provided to eligible students at no cost to the families. The core purpose of special education is to provide specially designed instruction and intervention, as well as to give students with disabilities access to the same educational programs and/or activities that are available to their nondisabled peers.

**Special Education Child Find**

Identification and Evaluation of Individuals for Special Education E.C. 56301; B.P. and AR 6164.4 The Governing Board recognizes the need to actively seek out and evaluate district residents from birth through age twenty-one (21) who have disabilities in order to provide them with appropriate educational opportunities in accordance with state and federal law. The District wants to locate, identify, and assess all children with disabilities whether homeless, wards of the state, or enrolled in public or private schools in order to provide a free and appropriate education. [E.C. 56020 et seq., 56040, 56301; 20 USC 1412, (IO)(A)(ii); 34 CFR 300.121]. The Superintendent or designee shall identify processes to determine when an individual’s academic, behavioral, or other difficulties may be related to disabilities and shall establish systematic procedures for special education identification, referral, assessment, planning, implementation, review, and triennial assessment. A student shall be referred for special educational instruction and services only after the resources of the regular (general) education program have been considered and used where appropriate. The Superintendent or designee shall consult with appropriate representatives of private school children with disabilities on how to identify, locate and evaluate these children. The Superintendent or designee shall notify parents/guardians in writing of their rights related to identification, referral, assessment, instructional planning, implementation, and review, including the District’s procedures for initiating a referral for assessment to identify individuals. For assessment purposes, staff shall use appropriate tests to identify specific information about the student’s abilities in skill areas. In addition, staff shall use multiple measures, including direct observation, to study the effect of interventions or modifications to the regular instructional program. Staff also may consider the student’s personal history, development, and adaptive behavior.

The Individuals with Disabilities Education Act (IDEA) is a federal law that requires school districts to provide a free appropriate public education to eligible children with disabilities. A “free appropriate public education” (FAPE) means special education (specially designed instruction) and related services are to be provided as described in an Individualized Education Program (IEP) at no cost to the parent and student or parent/guardian/surrogate parent of children with disabilities/adult student with disabilities. Parents, guardians, surrogate parents of children with disabilities, and adult students with disabilities have the right to participate in the development of the IEP, to participate in IEP team meetings about the identification (eligibility), assessment, or educational placement of the child, and to receive information about the availability of a free appropriate public education including all program options, and all available alternative programs, both public and nonpublic. (20 USC 1401[3], 1412[a][3]; 34 CFR 300.111; EC 56301, 56341.1[g][1], and 56506)

**How Can Children Be Referred?**

A referral may be made by a parent or by any person concerned about a child. Parent involvement and agreement is obtained prior to any further action. Information is confidential and the privacy of children and parent is protected.

**Students Attending a Private School**

School districts are required to conduct Child Find for all parentally placed children with disabilities attending private schools within the district’s boundaries. Once the child is located and identified, the school district where the private school is located is responsible, upon parental consent, to conduct an initial evaluation.
SPECIAL EDUCATION

The Special Education Process
Determines whether or not your child is eligible for special education services and, if so, what special education services are most appropriate for your child. There are five basic steps in the special education process:

(1) Referral for Assessment; (2) Assessment; (3) The Individualized Education Program (IEP) Meeting; (4) Determination; and (5) IEP Review.

Procedural Safeguards (also known as Parents’ Rights)
Provides the parent/guardian/surrogate parent of a child with disabilities/adult student with disabilities ages 18 through 21 with an overview of the educational rights of children with disabilities ages three through twenty-one.

The Notice of Procedural Safeguards must be provided to you:
When you request a copy the first time your child is referred for a special education assessment, each time you are given an assessment plan to evaluate your child, upon receipt of the first state or due process complaint in a school year, and when a decision is made to make a removal that constitutes a change of placement (20 USC 1415[d]; 34 CFR 300.504; EC 56301[d] [2], EC 56321, and 56341.1[g] [1])

Eligibility
Eligibility of students with disabilities for special education is determined by the Individualized Education Program (IEP) team according to specific criteria for each of the eligibility categories shown below.

A student cannot be eligible for special education if the determining factor for eligibility is a lack of appropriate instruction in reading, including the essential components of reading instruction, lack of instruction in math, or solely because they are an English learner. Essential components of reading instruction means explicit and systemic instruction in phonemic awareness; phonics; vocabulary development; reading fluency, including oral reading skills; and reading comprehension strategies. Special education services can begin at birth and continue until the age of twenty-two (22).

Categories of Disability Under IDEA Law
The IDEA includes 14 primary terms under the main definition of “a child with a disability.” These federal definitions guide how states define who is eligible for a free appropriate public education (FAPE) under special education law: Autism, Deaf-Blindness, Deafness, Development Delay, Emotional Disturbance, Hearing Impairment, Intellectual Disabilities, Multiple Disabilities, Orthopedic Impairment, Other Health Impairment, Specific Learning Disability, Speech or Language Impairment, Traumatic Brain Injury and Visual Impairment including Blindness.

The law requires that to the maximum extent appropriate, children with disabilities be educated with children without disabilities. This placement is called “the least restrictive environment.” The least restrictive environment is determined in a step-by-step process that starts with the assumption that the student will attend a mainstream classroom in his/her neighborhood school. First, the Individualized Education Program (IEP) team looks at whether the student’s placement in the regular classroom can be achieved satisfactorily - The IEP team must assess the following factors:

1. Can supplementary aids and services be used to accommodate the student in a mainstream classroom in his/her neighborhood?
2. In considering a range of placement and support services, how do the academic benefits of the mainstream classroom compare with the benefits of the more segregated classroom?
3. What is the student’s overall experience in general education, including nonacademic benefits?
4. What will be the effect of the student’s presence on the mainstream classroom?

Second, if the IEP team determines that educating the student in the mainstream classroom is not appropriate; the team must still try to mainstream the student to the maximum extent appropriate, such as during recess, assemblies, special outings and events, etc. The IEP team may consider more restrictive environments ONLY AFTER weighing the above factors and rejecting a less restrictive environment.
SPECIAL EDUCATION

Programs, Supports and Services
A continuum of program options to students found eligible for special education. Individualized Education Program (IEP) teams must consider the general education classroom first in exploring the best setting for the delivery of special education services to students with disabilities. Special education services and supports are provided in a variety of ways including, but not limited to Regular education program and include:

Resource Specialist Program - Instruction and services for students whose needs have been identified in an IEP, who are assigned to regular classrooms for the majority of the school day and are working towards a high school diploma.

Special Day Program (Core Curriculum) - Is designed for students with mild-to-moderate disabilities who are participating in the general education/core curriculum and are working toward a high school diploma. Students are assigned to special education classroom teachers for a majority of a school day (usually more than 50%), and those minutes are counted as outside of the general education program.

Special Day Program (Alternative Curriculum) - Is a setting that serves students with moderate-to-severe disabilities which impact the student’s academic, non-academic, cognitive, and adaptive/daily living functioning. High school level program is designed for students who will not enroll in the “a-g” sequence of courses or work toward a diploma and will instead work toward a certificate of completion. Students may be included/mainstreamed in general education classes or programs pursuant to their IEPs in order to provide opportunities to engage with typical peers in the least restrictive environment.

Designated Instruction and Services (Referred to as “Related Services”)
Services include: Speech and Language, Audiological, Orientation and Mobility, Home or Hospital instruction, Adapted Physical Education (APE), Physical Therapy, Occupational Therapy, Vision services, Counseling, and guidance (including rehabilitation counseling, Psychological, Health and Nursing, Social Worker, Vocational Education and Career Development, and Recreational Therapy.

Behavioral Intervention
Supports, and other strategies are used in consideration of the student’s physical freedom and social interaction, are administered in a manner that respects human dignity and personal privacy, and ensures a student’s right to placement in the least restrictive educational environment.

Transportation
Is available as a related service if is necessary for a student to receive FAPE. In making this determination the IEP team must consider: (1) the needs of the student; and (2) the least restrictive form of transportation appropriate for the student.

Transportation is provided as a related service for students with disabilities if the following conditions exist:

1. A student is placed by the District at a school other than their school of residence, which is referred to as the “home school.” “Home school” is defined as the student’s school of residence or school of choice.
2. A student’s disability prohibits them from getting to school in the same manner as their non-disabled peers. If the student requires transportation, the justification must be included on their IEP.

Extended School Year (ESY)
ESY services are provided for students who require special education and related services in excess of the regular academic year. Such disabilities are likely to continue indefinitely or for a prolonged period, and interruption of the student’s educational programming may cause regression, when coupled with limited recoupment capacity, rendering it impossible or unlikely that the student will attain the level of self-sufficiency and independence that would otherwise be expected in view of his or her disabling condition. The lack of clear evidence of such factors may not be used to deny an individual an extended school year program if the IEP team determines the need for such a program and includes extended school year in the IEP.
SPECIAL EDUCATION

Prior Written Notice for Special Education
The District must inform you about proposed evaluations of your child in a written notice that is understandable and in your native language or other mode of communication, unless it is clearly not feasible to do so. This notice must also be given when the District proposes or refuses to initiate a change in the identification, assessment, or educational placement of your child with special needs or a provision of a free appropriate public education. (20 USC 1415[b][3] and (4), 1415[c][1], 1414[b][1]; 34 CFR 300.503; EC 56329 and 56506[a])

The Prior Written Notice must include the following:

1. A description of the actions proposed or refused by the school district;
2. An explanation of why the action was proposed or refused;
3. A description of each assessment procedure, record, or report the agency used as a basis for the action proposed or refused;
4. A statement that a child with a disability has protection under the procedural safeguards;
5. Sources for parents to contact to obtain assistance in understanding the provisions related to the actions;
6. A description of other options that the IEP team considered and the reasons those options were rejected;
7. A description of any other factors relevant to the action proposed or refused;
8. A description of the actions proposed when a parent/guardian/surrogate parent/ adult student revokes consent in writing for the receipt of special education services after the child is initially provided special education and related services. If the notice is not in regard to an initial referral for assessment, the notice must provide a statement that you have protection under procedural safeguards; information on how you can obtain a copy of described procedural safeguards; and sources of additional assistance in understanding the procedural safeguards. (20 USC, Sec. 1415 (c); CFR Title 34, Sec. 300.503; AR 6159.1)
9. State law requires that either party filing for a due process hearing must provide a copy of the written request to the other party. (20 USC Sec.1415 (h); CFR, Title 34, Sec. 300.507; EC 56502 (a)) After a written request is filed, a due process hearing is immediately scheduled, including any mediation conference, and must be completed within forty-five (45) days of the request, with a written, final decision provided. [(E.C. 56505 (f)]

Access to Educational Records
You have a right to inspect and review all of your child’s education records without unnecessary delay including prior to an IEP meeting or before a due process hearing. The school district must provide you access to records and copies, if requested, within five (5) business days after the request has been made orally or in writing. (U.S.C., Title 20, Sec. 1415 (b); EC 49060, 56043[n], 56501[b][3], and 56504)

Ending Special Education Services
Parent or Adult student can request to withdraw consent for special education services at any time. Withdrawing consent: The request to revoke consent must be in writing and should specify the request for revocation of all special education and related services, and must be dated and signed by the parent/adult student. Within five (5) business days from the receipt of parent/adult student’s request to revoke consent, the District will provide prior written notice informing the parent/adult of the impact of the request on the educational program and the timeline for the cessation of services. All special education and related services will cease fifteen (15) calendar days from the date documented on the completed prior written notice form.

Notice of Destruction of Student Records
Schools maintain various student record concerning students. Though some of these records must be permanently maintained as mandatory permanent records, mandatory interim records may be disposed of in three years once a student leaves or the records are no longer useful pursuant to Ed code 34 CFR 300.642 (a) mandates that, “The public agency must inform parents when personally identifiable information collected, maintained, or used under this part is no longer needed to provide educational services to the child.”
SPECIAL EDUCATION

General Education Services for Students With Disabilities Section 504 of the 1973 Rehabilitation Act

The SMJUHSD provides a free and appropriate public education designed to meet the educational needs of students with disabilities as adequately as the needs of non-disabled students are met. The District provides accommodations for all students in the general education population who have a physical or mental impairment that substantially limits a major life activity (like learning or working). A few examples of physical or mental impairments are: Diabetes, Seizure Disorders, Attention Deficit Disorder, Auditory Processing Deficit, Asthma, Cerebral Palsy, Depression, Eating Disorders; and/or Auto-Immune Illnesses.

Once a Section 504 referral is made, a school site team of individuals (who are knowledgeable about the student) is convened to determine Section 504 eligibility. For all eligible students, a 504 Accommodation Plan is written. Students who are receiving Special Education services on an Individualized Education Plan (IEP) generally do not need a 504 Accommodation Plan. This would be a duplication of service.

Filing for Due Process Complaint for Students with Disabilities

How do I request a due process hearing?
You need to file a written request for a due process hearing. Parents should use the OAH (Office of Administrative Hearings) Form. You or your representative need to submit the following information in your request:
- Name of the child;
- Address of the residence of the child;
- Name of the school the child is attending; and
- A description of the nature of the problem, including facts relating to the problem(s) and a proposed resolution to the problem(s) to the extent the parent knows what would solve the problem.

If the request does not contain enough information, the due process request can be dismissed. The district must hold a resolution session within 15 days of receipt of the due process complaint unless there is a written waiver by both parties. C.C.R., Title 5, Sec. 3052

School Discipline and Placement Procedures for Students With Disabilities

Can my child be suspended or expelled?
Children with disabilities may be suspended or placed in other alternative interim settings or other settings to the same extent these options would be used for children without disabilities. If a child exceeds ten (10) days of suspension a Manifestation Determination Meeting must be held to determine whether the child’s misconduct is caused by the disability. When a student is recommended for expulsion, the Manifestation Determination Meeting must take place within 10 days of the date of disciplinary action. U.S.C. Title 20, Sec. 1415 (k).

As a parent/guardian, you will be invited to participate as a member of this Manifestation Determination Meeting. The school district may be required to develop an assessment plan to address the misconduct or, if your child has a behavior intervention plan, review and modify the plan, as necessary. If the Manifestation Determination Meeting concludes that the misconduct was not a manifestation of your child’s disability, the school district may take disciplinary action, such as expulsion, in the same manner as it would for a child without disabilities.

If you disagree with the Manifestation Determination Meeting’s decision, you may request an expedited due process hearing from the US Office for Civil Rights of Education’s Special Education Office of Administrative Hearings Office.
STUDENT SERVICES

School Meals Program
The Santa Maria Joint Union High School District is required to notify student households of the Student Meal Charge Policy. The Santa Maria Joint Union High School District's Student Meal Charge Policy states:

♦ All students will be offered a breakfast and lunch daily.
♦ Students who have not qualified for a free or reduced (our district does not charge students that qualify at this level) price meal, and do not have enough money to pay for their meal, will have a charge added to their cafeteria account for the meals they are provided. Students will not be allowed to select ala carte items nor will they be provided a second breakfast or lunch meal on a single day.
♦ When a student’s cafeteria account balance reaches negative $5.00, the Food Services Director will notify the school community liaison, who will send a weekly report to the principal. Automated telephone calls and notification letters will be sent to the household until the account balance is no longer in the negative.
♦ The District will make every effort to collect a student's unpaid meal debt, which may result in the school principal speaking to the parents or guardians of students that regularly have a negative balance.
♦ Food Services will make Free and Reduced Meal Program applications available at all school sites and online at [https://family.titank12.com](https://family.titank12.com), each school’s website and the District website [www.smjuhsd.k12.ca.us](http://www.smjuhsd.k12.ca.us) to assist families in applying for free or reduced price meals.

If you have any questions, please contact the Food Services Director at (805) 922-1305 X 5658.

STUDENT SERVICES

On-line Services/Internet Access

The Superintendent or designee shall establish regulations governing student access to technology that are age appropriate. These regulations shall address the safety and security of students when using electronic mail, chat rooms and other forms of direct electronic communication as well as shall prohibit access to harmful matter on the Internet, which may be obscene or pornographic, and preclude other misuses of the system. In addition, these regulations shall establish the fact that users have no expectation of privacy, and district staff may monitor or examine all system activities to ensure proper use of the system. Students who fail to abide by district rules shall be subject to disciplinary action, revocation of access to these technologies and legal action as appropriate.

Due to the internet containing an unregulated collection of resources, the district cannot guarantee the accuracy of the information or the appropriateness of any material that a student may encounter. Therefore, before using the district's on-line resources, each student and his/her parent/guardian shall sign and return an Acceptable Use Agreement. This agreement shall specify user obligations and responsibilities and shall indemnify the district for any damages. The parent/guardian shall agree not to hold the District responsible for materials acquired by the student on the system, for violations of copyright restrictions, users' mistakes, negligence or any costs incurred by users. Staff shall supervise students while using on-line services and may ask teacher aides and student aides to assist in this supervision. The Superintendent or designee shall ensure that all district computers with Internet access have a technology protection measure that blocks or filters Internet access to visual depictions that are obscene, child pornography, or harmful to minors, and that the operation of such measures is enforced. [20 USC 7001, 47 USC 254]

Student Use of Technology Internet Safety Policy

The district's system shall be used only for purposes related to education. Commercial, political and/or personal use unrelated to an educational purpose is strictly prohibited. Disclosure, use and dissemination of personal identification information regarding students are prohibited.

Advanced Placement and International Baccalaureate Exam Fees

State funding may be available to qualified low-income students to cover the costs of advanced placement exam fees. A grant program also exists to defray costs to low-income students taking the International Baccalaureate and advanced placement exams; however, the state budget crisis has given districts flexibility in providing these services. [E.C. 48980, 52240, 52244]
STUDENT RECORDS

Records (Student) Information for Use in Emergencies
For the protection of your child’s health and welfare, the Governing Board of any school district may require the parent/guardian of a pupil to keep current at the pupil’s school of attendance, emergency information including the home address and telephone number, business address, and telephone number of the parents/guardians, and the name, address and telephone number of a relative or friend who is authorized to care for the pupil in any emergency situation if the parent/guardian cannot be reached. [E.C. 49408].

We ask that you fill out and return an Emergency Information Card, which can be obtained in the school registrar’s office. Please notify the school of any changes in your student’s emergency information.

Change of Address/Telephone
If your address, phone numbers or other personal information changes over the course of the school year, it is very important to update your emergency card and other school records.

Reports, newsletters, announcements and reminders of meetings are often mailed home. In order for the school to keep parents/guardians well informed, and to ensure that contact can be made quickly if necessary, it is imperative that the Records Office be informed of any change of address, phone number and guardianship. Changes of data forms are available at the Records office.

Pupil Records
You and your children over 18 have the right to review, get copies, and inspect their school records within five business days of a written request or oral request or before any meeting regarding an individualized education program or a hearing. Those records are confidential, and privacy will be maintained, except in some instances such as when your child transfers to another school. The records include transcripts, discipline letters, recommendations, attendance, and health information. The records are maintained at the school office by the registrar. There is someone to help interpret the material. When more than one child is named in the records, parents may only see material related to their child. If requested, the district will provide a list of types of records held and their location. District policy or administrative regulation sets forth the criteria by which school officials and employees can look at, change or delete the files and why. Files may be reviewed to identify students eligible for public school choice or supplemental educational services.

You may have copies made free of charge. You also have the right to file a written request with the superintendent challenging the records. You can challenge how your request was handled with the district or with United States Department of Education if you think there is an inaccuracy, unsubstantiated conclusion or inference, a conclusion outside the observer’s expertise, comment not based on personal observation with time and date noted, misleading information or violation of privacy rights. You will get to meet with the superintendent or designee within 30 days. If your challenge is sustained, the changes will be made. If not, you can appeal to the school board, which has final authority. If you still have a different view, your view can be included in the student’s record.

For further information or assistance, contact the District Office at 922-4573, extension 4215, or the Family Policy Compliance office, U.S. Department of Education, 600 Independence Avenue, SW, Washington, DC 20202-4605. [E.C. 49063, 49060, 49069, 49070, 56043, 56504; Family Educational Rights and Privacy Act (FERPA); 34 CPR Part 99; ne]

For a smoother transition, through a relationship established with the Department of Defense and the California Department of Education, the district has established guidelines for transferring credits and meeting graduation requirements of students from military families. [E.C. 51250]

Release of Directory Information
The law allows schools to release “directory information” to certain persons or organizations including military recruiters. Directory information includes name, address, telephone number, electronic mail address, photograph, date and place of birth of students in grades 11 and 12. You may have the district withhold any of this information by submitting a request in writing or indicating on applicable forms. In the case of students with exceptional needs, no material can be released without parent or guardian consent. [E.C.49061(c), 49070, 56515; FERPA; No Child Left Behind Act (NCLB)

CHILD ABUSE REPORTING PROCEDURE FOR PARENTS AND GUARDIANS

The following information will assist parents and guardians in determining whether or not child abuse has occurred and, if so, how to file a complaint of child abuse with local law enforcement. This information has been taken from the California Child Abuse and Neglect Reporting Act in the California Penal Code and from sections of the California Education Code.

What Actions May Constitute Child Abuse?

Child abuse can be any of the following:

- A physical injury which is inflicted on a child by another person other than by accidental means.
- The sexual abuse, assault, or exploitation of a child.
- The negligent treatment or maltreatment of a child by a person responsible for the child’s welfare under circumstances indicating harm or threatened harm to the child’s health or welfare, whether the harm or threatened harm is from acts or omissions on the part of the responsible person.
- The willful infliction upon a child of any cruel or inhumane corporal punishment or any injury resulting in a traumatic condition.
- The willful harming or injuring of a child or endangering of the person or the health of a child where the person responsible for the child’s welfare is a licensee, administrator, or employee of any facility licensed to care for children or an administrator or employee of a public or private school or other institution or agency.

Child abuse does not include:

- A mutual fight between minors
- An injury that is caused by the actions of a peace officer using reasonable and necessary force within the scope of his or her employment;
- An injury caused by any force that is reasonable and necessary for a person employed by or engaged in a school:

  4. To exercise the degree of control reasonably necessary to maintain order, protect property, protect the health and safety pupils, and maintain proper and appropriate conditions conducive to learning.

How to File a Complaint of Child Abuse Committed at a School Site

Parents and guardians of pupils have the right to file a complaint against a school employee or other person that they suspect has engaged in abuse of a child at a school site. To file a complaint, the parent or guardian must file a formal report with an appropriate local law enforcement agency. An appropriate law enforcement agency may be one of the following:

- A Police or Sheriff’s Department (not including a school district police department or school security department)
- A County Probation Department if designated by the county to receive a child abuse reports, or
- A county Welfare Department/County Child Protection Services

A complaint may be filed over the telephone, in person, or in writing. A complaint may also be filed at the same time with your school district or county office of education. School districts and county offices of education, however, do not investigate child abuse allegations.

The local law enforcement agency is required to investigate all complaints.
The Board of Trustees is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits sexual harassment of students at school or at school-sponsored or school-related activities. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant alleging sexual harassment.

The district strongly encourages any student who feels that he/she is being or has been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult to immediately contact his/her teacher, the principal, or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the principal or a district compliance officer.

Complaints regarding sexual harassment shall be investigated and resolved in accordance with law and district procedures specified in AR 1312.3 - Uniform Complaint Procedures. Principals are responsible for notifying students and parents/guardians that complaints of sexual harassment can be filed under AR 1312.3 and where to obtain a copy of the procedures. (cf. 1312.3 - Uniform Complaint Procedures)

The Superintendent or designee shall take appropriate actions to reinforce the district's sexual harassment policy.

Instruction/Information
The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence.
2. A clear message that students do not have to endure sexual harassment under any circumstance.
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim of the harassment has not complained.
4. A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved.
5. Information about the district's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made.
6. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable.

Disciplinary Actions
Any student who engages in sexual harassment or sexual violence at school or at a school-sponsored or school-related activity is in violation of this policy and shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Any staff member found to have engaged in sexual harassment or sexual violence toward any student shall be subject to discipline up to and including dismissal in accordance with applicable policies, laws, and/or collective bargaining agreements.

Record-Keeping
The Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the district to monitor, address, and prevent repetitive harassing behavior in district schools.

HEALTH SERVICES

Anaphylaxis Treatment Annual Notification to Parents

California Education Code 49414 authorizes school districts to provide epinephrine auto-injectors to trained personnel to use to provide emergency medical aid to persons suffering from an anaphylactic reaction.

Anaphylaxis is a rapid, severe allergic response triggered by insect stings, foods, medications, latex materials, exercise, or in rare cases by unknown causes. This is a life-threatening allergic condition, requiring immediate treatment. Administering epinephrine to students during a medical emergency may help to insure the student’s health and safety at school. Therefore, Santa Maria Joint Union High School District has adopted a policy for giving life-saving epinephrine to students in need of such treatment.

This policy states that a credentialed, licensed school nurse or trained, unlicensed school staff, under the direct or indirect supervision of the credentialed school nurse (or supervisor of health), may administer epinephrine in the form of an EpiPen during a severe, life-threatening allergic reaction. The EpiPen rapidly delivers a pre-measured, sterile, single dose of epinephrine by direct injection through the skin. If parents/guardians do not wish their child to receive this treatment, they must indicate in writing within two weeks of the beginning of school.

Community Health Center

The Community Health Center across the Santa Maria High School Campus, is open to all students in the Santa Maria Joint Union High School District. The CHC is a separate organization and no district employee works at the CHC. The CHC operates completely independently of SMJUHSD. Parent consent forms to access the CHC are available at the school sites. The CHC provides medical, dental, and mental health services. Services will be offered by a medical team and will include health exams, sports physicals, and care for common illnesses and injuries. All District students are eligible for these services regardless of his/her ability to pay. Students that do not attend Santa Maria High School will need to find their own transportation to the facility.

Immunizations

E.C. 48980; B.P. 5141.31; A.R. 5141.31

To be admitted to school, children must be fully immunized in accordance with the law. Children shall be excluded from school or exempted from immunization requirements only as allowed by law. California law describes exemptions to student immunization requirements:

- **Medical Exemptions**: Physicians (MD or DO) may grant in writing an exemption for students for whom immunizations are not medically indicated, which occurs infrequently.

Immunization Exclusion

E.C. 48216 (a), (b) & (c); A.R. 5141.31, E.C. 48216 (a)

The County Office of Education or the Governing Board of the school district of attendance shall exclude any pupil who has not been immunized properly pursuant to Chapter 1 (commencing with Section 120325) of Part 2 of Division 105 of the Health and Safety Code.

E.C. 48216 (b)

The Governing Board of the district shall notify the parent/guardian of the pupil that they have two (2) weeks or ten (10) schools days to supply evidence either that the pupil has been properly immunized, or that the pupil is exempted from the immunization requirement pursuant to Section 120365 or 120370 of the Health and Safety Code.

E.C. 48216 (c)

The Governing Board of the District, in the notice, shall refer the parent/guardian of the pupil to the pupil’s usual source of medical care to obtain the immunization, or if no usual source exists, either refer the parent/guardian to the county health department, or notify the parent/guardian that the immunizations will be administered at a school of the district.
Cooperation in Control of Communicable Disease and Immunization of Pupils

E.C. 48216, 49403 (a); A.R. 5141.31

Anything to the contrary not with standing, the Governing Board of any school district shall cooperate with the local health officer in measures necessary for the prevention and control of communicable diseases in school-age children. For that purpose, the Board may use any funds, property, and personnel of the District, and may permit any person licensed as an authorized health care provider and surgeon, to administer an immunizing agent to any pupil whose parents/guardians have consented in writing to the administration of such immunizing agent. Any student without the required evidence of immunization shall be excluded from school until the immunization is obtained or until the student presents a letter or affidavit of exemption. Exemption is allowed to the extent indicated by an authorized health care provider’s written statement describing the medical condition of the child and the probable duration of the medical condition or circumstances which contraindicate immunization. H. & S.C. 120365, 120370, 120375

Confidential Medical Services

School authorities may excuse any pupil from the school for the purpose of obtaining confidential medical services without the consent of the pupil’s parent or guardian.

Medication at School

E.C. 49423, 49480; A.R. 5141.21

California Education Code allows school district employees to assist students with medication they are required to take during the regular school day. In order for students to take medication at school the following conditions must be met:

1. The school must have a written statement from the student’s authorized health care provider detailing the method, amount, and time medication is to be taken;
2. The school also needs a written statement from the parent/guardian of the student giving permission for school staff to assist the student with the medication; and
3. The medication must be in the container with the pharmacist label attached (or in the original container for non-prescription medications).
4. Upon written request by the parent/guardian and with the approval of the student’s physician, a student may be allowed to self-administer auto-injectable epinephrine or inhaled asthma medication. The physician must confirm that the student is able to self-administer the medication (Education Code 49423, 49423.1). California law allows students with asthma to carry and self-administer their prescribed inhaled asthma medication. The law requires:
   ◊ That the school have on file a written statement from the prescribing physician confirming the student is able to self-administer the medication and;
   ◊ That the school have a written statement from the parent/guardian providing consent to self administer and a release to allow the school nurse to consult with the student’s physician. (AB2132-Amends CEC 49423).

• An Asthma Action Plan should be completed and signed by the physician/health provide and signed by the parent. This will meet the requirements of the “Right to Carry” law for asthma inhalers as described in section 4 above. The Asthma Action Plan can be obtained by the student or parent from the school Health Office. All medications, prescription and over-the-counter, require a written note from the doctor. The instructions on the pharmacy label are not enough. Medications brought to school without following the above guidelines will NOT be given at school.

Any violations of District or school standards of conduct, rules and regulations or state or federal laws regarding illicit drugs, alcohol and tobacco will be investigated. Violators will be subject to prosecution in accordance with local, state and federal law and District disciplinary action up to and including expulsion, and/or required to satisfactorily complete a drug abuse assistance, tobacco cessation program, or rehabilitation program selected by the District in conformance with law.

The District's drug, alcohol and tobacco education and prevention programs are designed to address the legal, social and health consequences of drug, alcohol and tobacco use and to provide pupils with effective techniques for resisting peer pressure to use illicit drugs, alcohol or tobacco. CURRICULUM AND PERSONAL BELIEFS

Comprehensive Sexual Health and HIV/AIDS Prevention
In the California Comprehensive Sexual Health and HIV/AIDS Prevention classes, written and audio-visual educational material will be used, and are available for inspection prior to the start of classes. You have a right to request, in writing, that your child not attend these classes. You may withdraw this request at any time. School districts must ensure that all pupils receive sexual health instruction from adequately trained personnel in appropriate courses. In this District, staff and contractors give such instruction. If taught by a consultant or in an assembly, parents will be given the dates, name of organizations and affiliation of speakers in this booklet, or receive notice at least 14 days prior to the dates of the class or assembly. Contractor's material will be accurate and age appropriate. This instruction will emphasize that sexual abstinence and abstinence from intravenous drug use, are the most effective means for AIDS prevention and avoiding sexually transmitted diseases. The instruction will also include development of refusal skills to assist pupils to overcome peer pressure and use effective decision-making skills to avoid high-risk activities.

During this class, students in grades 7 - 12, may be asked to anonymously, voluntarily, and confidentially fill out evaluation and research tools such as surveys, tests, and questionnaires measuring student attitudes toward health, sex, and risk behaviors. Parents will be notified in writing and given the opportunity to review the material and can request in writing that their child not participate in any or all of the above activities. Copies of Education Code Sections 51938 and 51934 can be requested from your district or can be obtained online at [www.leginfo.ca.gov](http://www.leginfo.ca.gov) [E.C.51933,51934,51937-51939; Health and Safety Code 151000]

Dissection of Animals
If your child chooses not to participate in the dissection of animals, and if the teacher believes that an adequate alternative education project is possible, the teacher may work with the student to develop and agree upon an alternative education project for the purpose of providing your child an alternate avenue for obtaining the information required by the class. The school will need a signed note from you indicating your child's objection. [E.C. 32255]

Tests/Surveys on Personal Beliefs
Unless you give written permission, your student may not be given a behavioral, mental, or emotional evaluation and will not be given any test, questionnaire, survey, or examination containing any questions about your child's, or his/her parents' or guardians' personal beliefs or practices in sex, family life, morality, or religion. Parents have the right to review any survey or educational materials related to the survey on any of the above items. The District has developed policies relating to the surveys and personal information. [E.C. 60650, 51513, 60614, 60615; PPRA, 20 U.S.c.; No Child Left Behind Act (NCLB)]

If a student participates in a survey regarding information about beliefs and practices as identified above, school officials and staff members shall not request or disclose the student's identity.
Dress Code

The dress code complies with District and State policies and applies to all school activities. These policies require that student attire be neat, clean, and non-disruptive. Interpretation of this policy rests with the individual classroom instructor, site administrators or any staff member while students are on campus.

Requirements apply to all students, as provided in the Education Code and/or District Policy. They are:

1. No attire including clothing, jewelry, hats or personal items:
   - May promote or advertise drugs, alcohol or tobacco use.
   - Depict obscenity or lewdness.
   - Be inflammatory with regard to race, religion or heritage.
   - May promote gang affiliation.

2. Feet must be covered, minimally, providing protection to the bottom of the foot.

3. The upper torso must be covered. Clothes shall be sufficient to conceal undergarments at all times. See-through or fishnet fabrics, halter tops, spaghetti straps (must be two inches wide), off-the-shoulder or low-cut tops, bare midriffs and skirts or shorts shorter than mid-thigh are prohibited.

2. Pajamas and slippers are not appropriate school apparel.

Students who are not in compliance with this dress code will:

1. Be referred to an assistant principal.
2. Have their parents contacted by the school.
3. Not be permitted to return to class until the dress code infraction is corrected.
4. Repeated non-compliance may result in on- or off-campus suspension.

Electronic Devices

Cell phones may be carried by students, but will be confiscated if they disrupt the educational process. Two-way radios, laser pointers, and/or any type of electronic devices designed for communication are not permitted on campus. CD players, IPods and cameras are not permitted during instructional time. Fog machines are not allowed on campus. If any of the above items become an educational disruption, they will be taken from the student and a parent/guardian will be required to pick up the item. The school is not financially responsible for any lost or stolen items. During testing, all students will turn off all electronic devices including cell phones, speakers, IPods, MP3’s and any form of technology and place them with personal belongings.

Student Public Displays of Affection

School is not the right place for students to engage in public displays of affection (e.g., kissing, lap-sitting, standing with bodies in contact or walking with arms wrapped around each others’ waist, etc.) During school hours, this becomes a distraction from educational learning, and at times, an uncomfortable situation for both students and adults.

Student Parking Policy

All vehicles are required to have a permit to park on campus. Permit applications may be obtained from the ASB Business Office. Items required include a valid driver’s license, proof of insurance, and registration. Students must maintain good academic standing, attendance and citizenship with no outstanding school charges. Permits are not-transferable. Use of the school parking lot is a privilege that can be revoked at the school’s discretion.

For detailed information such as student parking requirements and fees, contact your school’s Administration Office.
RULES/RIGHTS/RESPONSIBILITIES

Tobacco Free School
SMJUHSD campuses are a tobacco free work site. This means all tobacco products are prohibited at any school-sponsored event. This applies to all staff, students, parents and community members. Tobacco cessation information is available in the Health Offices.

Use of Dog Sniffing
Federal and State law and the Board policies of the Santa Maria Joint Union High School District authorize the use of trained drug sniffing dogs to deter the possession and consumption of drugs on District campuses. Use of drug sniffing dogs will be conducted only in accordance with the law and Board Policy and Administrative Regulation 5145.12(a)

Cheating
The use of notes, documents, answers, or electronic communication devices (i.e. cell phones) during a test, or the copying of one student’s completed assignments or answers by another; allowing another to do the same, or having access to information such as formulas or calculations.

Giving or receiving limited help in troubleshooting a part of an assignment is not normally considered cheating. However, allowing another student to write any part of an assignment, copying another’s file, or assignment, and excessive collaboration on assignments, are all considered cheating. Unless specifically approved by the teacher, the student providing such assistance is considered to be cheating as well. Never allow another student to look at your assignment nor to borrow your electronic file. BP 5131

Plagiarism
The use of another’s words, ideas, or creative productions without assigning credit to the original source.

To plagiarize is to take ideas or words of another person and pass them off as ones own. In short, it is stealing something intangible rather than an object. Obviously, it is not necessary to state the source of well known or easily verifiable facts. But students are expected to acknowledge the sources of ideas and expressions they use in their written work, whether those expressions are quoted directly or paraphrased. To provide adequate documentation is not only an indication of academic honesty, but also a courtesy which enables the reader to consult your sources with ease. Failure to do so constitutes plagiarism.

It is also considered plagiarism and/or cheating if a student submits a paper written in whole or in part by someone other than himself or herself, or copies the answer or answers of another student in any test, examination or take-home assignment.
Megan's Law
Information about sex offenders may be obtained from local law enforcement agencies.

Classroom Interruptions
We are committed to preserving the integrity of the instructional process and classroom interruptions are considered a major disruption. We do not interrupt classes to call students out of class for:

- Keys
- Lunch or lunch money (we do not accept any money for student delivery)
- Personal deliveries (flowers, balloons, PE clothes, class projects)

Messages from parents or guardians only will be limited to emergency messages only. Emergency requests will be directed to an administrator.

Visitor Policy
This policy is to ensure the safety of all student and staff in our campuses.

- Closed Campus Hours: 7:00 a.m. – 4:00 p.m.
- As per Board Policy (AR 6116 and BP1250), only pre-arranged visitors are allowed on campus between 7:00 a.m. and 4:00 p.m.
- Staff who is pre-arranging for a visitor must notify reception and the principal’s secretary via email the day before the visit including the visitor’s name, purpose of visit, and expected arrival/departure times.
- All guest speakers will be escorted to and from the front office by the staff member or their designee.
- Lunchtime activities/assemblies are for current students. Parents and other visitors are not allowed at these closed events.
- Students are not permitted to bring visitors.
- The administration reserves the right to refuse admission anyone.

Volunteers are Welcome
Parent volunteers are always needed and welcomed. However, before a volunteer can provide services to our school, a parent volunteer form must be filled out and approved by the principal/designee. Parent volunteer forms may be obtained in the Principal’s Office.
Management Plan for Asbestos-Containing Material

In compliance with the U.S. Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), in 1990 the district performed inspections of each school building for asbestos-containing building materials. The inspection findings and asbestos management plans have been on file in the maintenance director’s office as well as in each school maintenance office since that time.

The EPA requires us to perform re-inspections of asbestos materials every three years. During November 2015, an accredited asbestos inspector performed these re-inspections. An accredited management planner reviewed the results of the re-inspections and recommended actions we should take to safely manage each asbestos material in our buildings.

The results of the reinspections are on file in the management plan in the maintenance director’s office as well as in each school’s maintenance office [Code of Federal Regulations: 40 CFR 763.93]. Everyone is welcome to view these anytime during normal school hours (M-F, 8 a.m. to 4 p.m.)

There was no asbestos abatement activity in school year 2018-19.

Pesticide Use

In September 2000, Governor Davis signed into law the Healthy Schools Act of 2000 (Assembly Bill 2260). The law was amended in 2014 (SB1405). It changed the requirements for reporting and integrated pest management. This law requires schools to notify parents, guardians and school employees about pesticides used in their schools. It also requires the Department of Pesticide Regulation to promote the adoption of integrated pest management (IPM) practices in California schools. Most provisions of the law became effective January 1, 2001. Each school district is to implement the following requirements of the law:

- Notification of all pesticide products the school district expects to use on school grounds must be sent annually to parents or guardians of all students. These products include over-the-counter pesticides available at retail outlets, but do not include certain products exempted under the law. The notifications must list the active ingredients in each pesticide product and the Internet address for the Department of Pesticide Regulation (DPR) to access additional information. Visit DPR’s Web site at http://www.cdpr.ca.gov and click on Pest Management Schools.
- Each school district will establish a list of parents or guardians who want to be notified before individual pesticide applications are made.
- Each school district will ensure that warning notices are posted in areas where pesticides will be applied. Notices will be posted 24 hours in advance and 72 hours after application of pesticides, and will contain information as specified in the law.

Each school will maintain records of all pesticide use at the school for four years and the records will be available to the public upon request.

Further Information is Available

Further information regarding our district schools, programs, policies, and procedures is available to any interested person upon request to our district office. [E.C. 48209.13, FERPA, 34CFR Section 99.7(b)]

TRANSPORTATION INFORMATION

2020-2021 S.M.J.U.H.S.D. Information Pertaining to Bus Riding

Although transportation of students to and from school is the legal responsibility of parents, the district does assist in that process by providing transportation for students that live within the approved transportation areas for their assigned school. Bus schedules are established prior to the opening of school and are subject to change.

- **Bus Stops and School Loading Zones:**
  Students need to be at their assigned bus stop 5 minutes prior to the scheduled arrival of the bus. Students who are late need to find other means of transportation to school. Students may only board and disembark at their approved stop.

- **Identification Cards:**
  Students must present and scan a valid school identification card with the proper bus assignment indicated prior to boarding and exiting the school bus. Identification cards are equipped with RFID tracking chips to identify who is on the bus. Failure to present an identification card will lead to denial of service.

- **Authority of the Driver:**
  The bus driver’s authority as defined in the California Code of regulations, Title 5, Section 14103:
  (a) Pupils transported in a school bus or in a school pupil activity bus shall be under the authority of, and responsible directly to, the driver of the bus, and the driver shall be held responsible for the orderly conduct of the pupils while they are on the bus or being escorted across a street, highway or road. Continued disorderly conduct or persistent refusal to submit to the authority of the driver shall be sufficient reason for a pupil to be denied transportation. A bus driver shall not require any pupil to leave the bus en route between home and school or other destinations.
  (b) Governing boards shall adopt rules to enforce this section. Such rules shall include, but not be limited to, specific administration procedures relating to suspension of riding privileges and shall be made available to parents, pupils, teachers, and other interested parties.

- **Conduct Reports:**
  All conduct reports must be signed by the parent and returned to the driver. Failure to return a signed conduct report will result in denial of transportation. If a student is denied school bus transportation, it is still the responsibility of the parent to transport their student to and from school. Any absences incurred due to denial of school bus transportation will be unexcused.

  A copy of the School Bus Conduct report is included on the next page for parent and student information.

Surveillance systems may be installed and students may be monitored on school buses and other district vehicles which transport students in order to ensure student safety, improve discipline, and help deter misconduct. The contents of the video and audio recordings from these surveillance systems may constitute a student record which could be used in disciplinary proceedings or provided to law enforcement where appropriate. Students are prohibited from tampering with the bus surveillance system and any student discovered tampering with the system shall be subject to discipline and shall be responsible for the costs of any necessary repairs or replacement. (See Board Policy and Administrative Regulation 5131.1)
**TRANSPORTATION INFORMATION**

**Administrative Referral:**
