## **HANDBOOK DISCLAIMER**

This handbook is not to be construed as a contract. Unless otherwise specified in a written contract, all employees are employees-at-will. This handbook does not alter the employee at-will status of any employee. It does not create any substantive or procedural rights or privileges; nor does it create any other right or privilege, guarantee, or remedy for any employee. The information contained herein is for guidance only. The information contained herein may be changed at any time, for any reason, at the sole discretion of the Scott County School Board, even retroactively. No verbal representation or comment from any Scott County School Board Member, superintendent, director, officer, employee, agent, or representative can alter the employment status of any individual or group of individuals.

All employees should read the Scott County School Board Policy Manual located in the administrator's office at each school site or at the Superintendent of Education's Office.

## **HIGHLY QUALIFIED INSTRUCTIONAL PERSONNEL**

The Scott County School District seeks to employ the most highly qualified and effective teachers and paraprofessionals available for each position. The district's goal is to comply with the *No Child Left Behind Act of 2001* (NCLB) which requires that every teacher be fully certified (highly qualified) and not teaching with an emergency, temporary, or provisional certificate

Teacher assistants are paraprofessionals within the school district. All paraprofessionals must have earned a high school diploma or its equivalent. Paraprofessionals must have completed at least two years of study at an institution of higher education; obtained at least an associate's degree; or met a rigorous standard of quality and can demonstrate through a formal state approved academic assessment the knowledge of and ability to assist in the instruction of reading, writing, or mathematics or the instruction of readiness of these subjects.

In accordance with the NCLB Act, the district will notify all parents that they may request information on teacher qualifications at any time. Parents will be notified if their child is assigned to or has been taught for four consecutive weeks by a teacher who is not highly qualified as defined by NCLB. Parents also will be provided notice as required by NCLB for paraprofessionals not highly qualified.

**GBBA, IFBA**

## **LICENSURE RENEWAL**

Licensure renewal is the sole responsibility of the certified employee. It is not the district's responsibility to notify employees of certification expiration dates. It is the responsibility of the employee to maintain records of any earned renewal credits.

Should an employee's license expire in the month of June immediately following completion of a contract expiration date, the employee *shall not* be recommended for rehire for the upcoming school year. Each certified employee must have a current license on file in the Central Office prior to receiving a contract for teaching or administrative services.

A standard license may be renewed for one five-year period beyond the present validity dates. All credits earned for renewal must be earned between the validity dates printed on the licenses. A license may be renewed using semester hours and/or CEU credits. The Office of Educator Licensure does not accept CEU certificates for less than .5 CEUs of five contact hours.

Standard teaching license renewal options:

**DUTY ASSIGNMENTS**

All teachers and paraprofessionals will be expected to accept assignments to out-of-classroom duties and responsibilities. These include supervision of children during play periods, in the cafeteria, and on arrival and leaving of school grounds by bus. The principals of each school shall assign duty posts at strategic places around buildings and grounds so that the entire school population shall be under observation at all times.

Teachers and paraprofessionals may be called upon to perform extra-curricular duties such as, but not limited to, sponsoring clubs, assisting with assembly programs and chaperoning school trips.

**FACULTY MEETINGS**

Each school site principal should ask the teachers and/or paraprofessionals in his/her school to reserve one day each week for faculty meetings.

In addition to the regular faculty meetings, staff development shall be conducted in each school.

**DRESS AND PERSONAL APPEARANCE**

Faculty and staff members are expected to dress and groom themselves in a manner that is professionally appropriate for the duties assigned. Attire should be clean, tasteful, and in good repair. Employees should regard it their professional responsibility to dress in a manner that sets a good example for students and that conveys a positive professional image.

The following are a few examples of *inappropriate attire*:

- Jeans
- Shorts
- Jogging / Wind Suits (including, but not limited to, suits made of velour, velvet, or fleece)
- Skorts
- Garments exposing the midriff
- Low Cut Tops

Extreme or unusual grooming or dress type which could disrupt proper classroom atmosphere, disrupt school decorum, or would be disruptive to school discipline will not be condoned (e.g. painted hair, sagging pants, etc.) Earrings are permissible for males and females in the earlobes; however, other visible-body piercings are not allowed. Tattoos of any kind are discouraged. However, if tattoos are present, they should not be vulgar, obscene, or distracting to the educational environment. If tattoos are deemed inappropriate in any way, they will have to be covered up.

The local school administration will be responsible for enforcing the policy. Also, the school administration will be the judge when dress and grooming are in question. The above stated policy will be in force equally at all schools within the district.

Violations will be documented in individual personnel files and a report made to the Superintendent of Education and the Scott County School Board.

**Discipline Procedures:**

- 1) 1st incident (will be asked to correct violation)  
Verbal warning
- 2) 2nd incident (will be asked to correct violation)  
Written reprimand
- 3) 3rd incident (will be asked to correct violation)  
Suspension without pay (1 day)
- 4) Future incidents (will be asked to correct violation)  
Suspension without pay (3 days) and possible termination or non-renewal

**GAB**

**REPORT TO / PERFORM DUTY**

Teachers and paraprofessionals will report to work no later than 7:30 a.m. each work day unless specified differently by local administrators. Teachers with assigned duties will report at the time designated by the principal. The typical work day for teachers and paraprofessionals will end fifteen (15) minutes after school is dismissed.

The length of the work day may be extended for faculty meetings, open house, report card pickup and other activities needed to enhance the educational programs.

Principals are expected to be on campus at least thirty (30) minutes before duty assigned teachers arrive. Principals will remain on campus until all buses have completed their routes.

If an employee fails to attend during a work day (including professional development) without prior notification to his / her administrator, a day's wages will be deducted during the next pay period. A written letter of reprimand will also be added to the employee's personnel file at their school.

Any employee who fails to perform an assigned duty shall receive a written reprimand. Upon receipt of a second reprimand, the employee and principal shall have a conference with the Superintendent of Education or his designee. Failure to perform an assigned duty or refusal to perform an assigned duty may be deemed as an act of insubordination. Insubordination is grounds for termination or non-renewal of a teacher's contract.

**GBRB**

**GBN**

Off the job illegal drug use or involvement or abuse of prescription drugs may adversely affect an employee's health and job performance and can jeopardize the safety of the abusing employee, other employees, the public, or school property. As such, off the job use or involvement with illegal drugs or abuse of prescription drugs is prohibited and is proper cause for administrative or disciplinary action including termination of employment.

Any employee who refuses to take a drug and / or alcohol test will be subject to discipline, up to and including immediate termination of employment.

**GAA, GBRM-2**

### **CELL PHONES**

Employees will not be allowed to have cell phones openly displayed during school hours and the phone must be turned off. Use of the phone (texting, verbal use, camera, or otherwise) during class time and /or in the presence of students is not permitted.

Scott County School District provides licensed employees access to telephones to contact students and/or parents/guardians. Should the need arise for an employee to contact a student or a student's parent/guardian, he or she will use the school's office phone during school hours. All employees must maintain a professional relationship with students; therefore, personal phone calls, texting, instant messaging, e-mailing, or other forms of personal communication (before, during, or after-school hours) shall not be practiced.

## TECHNOLOGY RESOURCES

The Scott County School District is committed to providing the best possible instructional aids for the students, teachers, and community. The availability of educational resources through technology serves as a catalyst for providing opportunities for academic excellence. The Internet is a connection to provide worldwide information.

With the installation of this system, students, teachers, and community members may have access to materials not considered to be of educational value. The Scott County School District believes that the educational value gained through the use of the Internet system outweighs the possibility that users may obtain materials not consistent with the educational goals of SCSD. While the Scott County School District limits access to inappropriate materials on the Internet through the use of filtering software, the user should be aware that no filtering system is completely effective in preventing access to all inappropriate material and that it is the responsibility of the user to follow any district directives and the *Scott County School District Electronic Resources Acceptable Use Policy* (see *Student Handbook*).

User operation of the system relies upon guidelines to which the user must strictly adhere. The user must be aware of and accept the responsibilities for efficient, ethical, and legal utilization of the system. If the user is found to have violated these responsibilities, the Scott County School District may terminate the access to the network. Further disciplinary action up to and including immediate termination of employment may occur. **IJ, IJ-E (1)**

## PURCHASING PROCEDURES

There are standard procedures for purchasing classroom materials, supplies, equipment, and services. All classroom purchasing is done using the MDE - EEF debit card system. Teachers are required to follow purchasing guidelines set by MDE and secure receipts of purchases and keep receipts for a time set by MDE. Other purchases require requisitions to be completed. After a requisition form is completed and signed, the form is submitted to the principal. A purchase order number is assigned by the purchasing clerk. **An order must never be placed without first having a purchase order. Anyone failing to follow the proper purchase order procedure will be personally responsible for the payment of orders not following established guidelines.**

## FIXED ASSETS MANAGEMENT

The Scott County School District Board of Education establishes and maintains a fixed assets record and inventory control system for all capital assets located within the school district and other areas under the jurisdiction and operation of the board in compliance with *Criteria for Establishing Fixed Asset Accountability Plans for Mississippi Public School Districts*, issued August 1995 by the State Auditor's office. In implementing a policy for maintaining inventory systems, regulations are established to account for all capital and highly walkable property.

### STANDARD OF CARE AND LIABILITY FOR MISSING PROPERTY

1. All employees that are assigned areas of responsibility under the plan shall exercise reasonable care to ensure that the fixed assets of the district are properly accounted for.

2. 3. All employees of the district have a duty to due care and diligence to protect and preserve all fixed assets and other property of the district. Any employee guilty of gross negligence or misconduct that results in the destruction, theft, or other loss of property of the district shall be responsible for providing replacement of the property or adequate compensation for the loss, as may be determined by the school board.

### **ENFORCEMENT**

1. Employees shall be financially responsible for all district equipment, furniture, or other fixed assets assigned to their custody.
2. Principals shall be financially responsible for all district equipment, furniture, fixtures, or other fixed assets assigned to their schools.
3. Administrative heads/directors shall be financially responsible for all district equipment, furniture, fixtures, or other fixed assets assigned to their departments or designated under their control.
4. All employees shall report any destroyed, stolen, or other loss of district equipment, furniture, fixtures, or other fixed assets immediately to their supervisors.
5. In the event of destroyed, stolen, lost property and as described above, all classroom teachers and other employees shall report incidents to their principals or supervisors. Upon the report, the loss will be reported to the local law enforcement agency. All principals and department heads/directors shall also report the same to the business manager and the superintendent or his/her designee.
6. The superintendent shall be authorized to develop an administrative procedure from time to time to further implement this policy. **DM**

### **STAFF CONDUCT WITH STUDENTS**

Staff members shall maintain a professional relationship with students at all times. At no time shall interpersonal relationships be developed or cultivated in a manner inconsistent with state or federal laws.

All employees must maintain a professional relationship with students; therefore, personal phone calls, texting, instant messaging, e-mailing, or other forms of personal communication (before, during, or after-school hours) should not be practiced.

Staff shall avoid placing themselves in a position where their integrity or intentions might be misinterpreted or called into question. Specifically, conferences with students should not occur behind closed or locked doors, or before or after the school workday, unless a witness is present. Staff whose positions require them to chaperone students to, at, and from school events or competitions should always be in the presence of third persons and never alone with an individual student.

It is unlawful for any person to intimidate, threaten or coerce, or attempt to intimidate, threaten or coerce, whether by illegal force, threats of force, or by the distribution of intimidating, threatening or coercive material, any person enrolled in any school for the purpose of interfering

with the right of that person to attend school classes or of causing him/her not to attend the classes. MS Code §37-11-20 (1972)

If any person eighteen (18) years or older who is employed by any public or private school district in this state is accused of fondling or having any type of sexual involvement with any child under the age of eighteen (18) years who is enrolled in such school, the principal of such school and the superintendent of such school district shall timely notify the district attorney with jurisdiction where the school is located of such accusation, provided that such accusation is reported to the principal and to the school superintendent and that there is a reasonable basis to believe that such accusation is true. MS Code §97-5-24 (1994)

If any teacher and any pupil under eighteen (18) years of age of such teacher, not being married to each other, shall have sexual intercourse, each with the other, they shall, for every such offense, be fined in any sum, not more than five hundred dollars (\$500.00) each, and the teacher may be imprisoned not less than three (3) months nor more than six (6) months. MS Code §97-29-3 (1980)

### **STUDENT RESTRAINT POLICY**

In accordance with MS Code Section 37-9-69 and 37-11-57, it is recognized that instructional and other staff may be called upon to intercede in situations wherein students may be displaying physically violent behavior or non-compliant behavior.

District policy positively prohibits the use of excessive force, or cruel and unusual punishment regarding student management. Staff may, however, use restraint techniques to control and restrain a student when they have a reasonable belief that:

1. The student is a danger to himself.
2. The student is a danger to others.
3. To prevent the destruction of property.
4. If the student refuses to move from location to another after being so ordered.

Any use of restraint will be preceded by the following verbal intervention:

1. Ask for assistance from other staff.
2. Ask the student to comply.
3. Advise the student they will be restrained if the behavior does not cease.
4. Order the student to desist in the behavior.
5. Restrain the student.

This continuum is not meant to prevent immediate restraint if so warranted. Under all circumstances, without exception, the student is to be restrained at the location the behavior occurs. Students will not be sequestered for restraint application. Restraint is to be applied only until compliance is met and the student is no longer a danger or is compliant. Under absolutely no circumstances will restraint techniques be used as a punishment. If the student is non-compliant with verbal intervention, the staff member should, if physically possible, apply any of the restraint techniques that have been taught by the district. Staff is cautioned to use common sense and sound judgment in responding to student altercations. For example, a 5'2" teacher cannot be expected to restrain a 6', 200 pound football player.

Acceptable restraint techniques include but are not limited to:

1. Passive Restraint System (MDE System)
2. Pressure Point Control Techniques
3. Any generally accepted law enforcement restraint techniques
4. MANDT System
5. Crisis Prevention Institute (CPI)

Site supervisors will ensure that restraint reports are completed and immediately forwarded to the Superintendent and include the following information:

1. Previous history of disciplinary action
2. Events precipitating (who, what, when, where, why) the use of restraint to include statement of reasonable belief. Include verbatim statements of student
3. Exact type of restraint methods and hold utilized
4. Level of resistance displayed by student during restraint to include language and behavior
5. Subsequent action after control was achieved
