

Spotswood Public Schools Network (SPSN) Now Appearing on FIOS! February 2011

We are pleased to announce that the Spotswood Public Schools Network (SPSN), formerly known as Channel 3 (on Comcast) is now being broadcast on FIOS Channel 43.

SPSN is Spotswood School District's public access channel and is maintained by our hardworking students and staff. Various shows are broadcast such as, but not limited to, What's Going On?, The Morning Show (coming soon), The New Sports Lounge, Poetry Out Loud 2011, concerts...sports...and more! Community events and announcements are also shown for your convenience as well.

Channel 43 now provides Spotswood's FIOS customers the exact same programming that cable customers receive when it comes to Spotswood Schools.

Currently SPSN is only available within Spotswood, but will soon be broadcast to Milltown and Helmetta. Channel lineups are still yet to be determined.

Comcast Channel 3 will continue its regular broadcast of the Spotswood Public Schools Network.
