# save ENERGY AND MONEY ALL WINTER.

Now that winter's here, your home may be using more energy to keep you comfortable—and your energy bill may show it. What can you do now to reduce your costs? Using the energy tips below could pay off.

## MAKE THIS THE WINTER OF 68

It's simple: set your thermostat to 68°F this winter. For each degree you lower the thermostat, you can save up to 5% on heating costs.

## SET WATER HEATER TO 120°

Water heating accounts for about 18% of the energy consumed in your home. Setting your water heater to 120° will make a difference.

## USE MyAccount ONLINE TOOLS

Your BGE online account provides the tools you need to track your energy usage in near-real time. Compare energy usage trends, measure results of energy-saving practices, and set alerts to let you know when energy usage is trending high.
