

# Developing the Leader: Empowering Youth

## YOUTH LEADERSHIP Summer camp

Could your rising 6<sup>th</sup>, 7<sup>th</sup> or 8<sup>th</sup> grader benefit from building resiliency skills, positive identity and self-esteem? This summer camp led by Mr. Knotek and Mrs. Stevenson will guide middle school students through a comprehensive positive youth empowerment program.

Youth are empowered when they feel they have choices in life, are aware of the implications of their choices and when they become accountable for consequences of their choices. Students will participate in group activities, brainstorming sessions, role-playing, reflection and other activities intended to guide students to become effective leaders.

**JULY 10-13, 2017
