

S.C.C.S.D. Central Office Staff Member of the Month (August 2017)

Sylvester Washington
District I.T. Director

What is your job and what are your responsibilities?

My job responsibilities consist of integrating technology into the curriculum, supervising the Technology Department, monitoring and maintaining the network, and providing the best uses of technology as learning/teaching tools.

What do you like the most about your job?

The thing I like most about my job is the ability to go from school to school, throughout the district, maintaining all of the technology equipment and implementing the best technology practices that assure a quality education for all students of SCCSD.

What makes SCCSD so special?

SCCSD is very special and unique to me because I assisted with the consolidation of three districts

into one. All three districts had the same goal and that goal was to successfully educate our future leaders of tomorrow. SCCSD is thriving towards that exact same goal!

What message/advice/words of wisdom would you give to our children?

Do your best in everything you do so that you can excel in every field of human endeavor. Never give up, just turn up (in an educated way)!
