

TI-84 Plus family of graphing calculators

# Test preparation: Resetting all memory

Use this method when exams require clearing all calculator memory. Clearing all memory deletes all programs and deletes all calculator applications (apps).

**IMPORTANT:** Resetting all memory permanently deletes all applications (apps) from the calculator. Back up your TI-84 Plus to a computer before resetting so they can be restored after the exam.\* (Note: The Finance app is built-in functionality and will remain in place after a reset.)

## Resetting all memory

### Before the exam

Resetting all memory prior to exams will ensure that no user-saved information is available during the exam.

### After each exam

Repeating all of the steps will reset the memory again and ensure that any information entered or saved during the exam is permanently deleted.

\* Use TI Connect™ or TI Connect™ CE software to back up your TI-84 Plus graphing calculator prior to preparing it for an exam (resetting all memory) and to restore applications after the exam.

Screens may vary slightly by model and Operating System (OS).

Models in the TI-84 Plus family include:  
 TI-84 Plus  
 TI-84 Plus Silver Edition  
 TI-84 Plus C Silver Edition  
 TI-84 Plus CE

1) Press **2nd** [**mem**] to display the MEMORY menu.

4) Select **2: Reset** to erase all data and programs. Factory defaults are reset.

2) Select **7: Reset** to display the RESET menu.

**Mem Cleared** is displayed on the screen to confirm all non-system variables and programs have been deleted.

3) Press **▶▶** and select **1: All Memory**
