

HEALTH EDUCATION/PHYSICAL EDUCATION

Each school organizes and maintains a physical and health education program in accordance with Board of Education regulations and State Board of Health guidelines.

The Tazewell County school division's goal is that a program of physical fitness will be available to all students for at least 150 minutes per week on average during the regular school year. Such program may include any combination of physical education classes, extracurricular activities and other programs and activities. The Tazewell County School Board has incorporated a goal for the implementation of such program during the regular school year into its wellness policy, JHCF Student Wellness.
