1 The superintendent shall be responsible for assessing the utilization of school facilities and making  
2 recommendations to the Board for retirement of facilities. In determining the retirement of facilities,  
3 the Board shall consider the following:

- 4 1. Ability of the building to house a modern and flexible educational program;
- 5 2. Proximity to population served;
- 6 3. Enrollment capacity;
- 7 4. Cost of upkeep and maintenance; and
- 8 5. Ability of the building to meet safety standards.
- 9 6. Any applicable deed restrictions on any and all land owned by the school.

10 The Board may seek professional advice and community input before making a final decision  
11 regarding retirement of a school facility.
