The purposes of evaluation of instruction will be:

1. To indicate instructional strengths and weaknesses;
2. To provide information needed for future planning;
3. To provide data for public information;
4. To show the relationship between achievement and the school system's stated goals; and
5. To assess the suitability of the instructional program in terms of community requirements.

A continuing evaluation will be conducted at the school and system-wide level. The needs indicated by this evaluation will be listed on a priority basis and school improvement programs will be aimed at meeting these needs. Assistant directors of the various instructional programs will report to the Board annually.
