The principal will forward the specimen for analysis to a laboratory accredited by the Tennessee Department of Health and Environment and designated by the Board.

Upon receiving a written, certified copy of the analysis from the laboratory, the principal shall do one of the following:

1. If the results of the analysis are negative, all evidence of the individual test, including all records in the school that the test was ordered and the reasons therefore, shall be destroyed.
2. If the results of the analysis are positive, the student and parents or guardian shall be given the written notice of the result. In addition, they shall receive referral information which shall include counseling, in-patient, out-patient, and community-based drug and alcohol treatment programs.

Random Drug Testing

Due to the severity of the drug use problem, both locally and throughout the State, students involved in any voluntary extracurricular activities shall be subject to random drug tests. Parents and students will be informed of this policy prior to participation and shall sign a consent to the drug testing and a release of information as a condition of participation.
