

NON-SCHOOL PERSONNEL USED AS CHAPERONES

Chaperones are those individuals who have volunteered their time to help supervise students during extra- or co-curricular activities. Generally, chaperones are needed on field trips and for other activities that require bus transportation to a school-sponsored activity.

Any chaperone must have advance approval of the Tyler County Board of Education for a specific event or for a specific school organization.

At no time should an employee abrogate his or her authority or responsibility to chaperones. The principal and teacher are responsible for all students even while under the supervision of the chaperones.
