

Want to Learn about Healthcare Career Options?

**Introduction to Health Professions
Course I and II at**

may be right for you!

Available now

High School Juniors and Seniors are Eligible

Learn about careers in healthcare – the education required, demand for workers and average pay. This course includes online instruction weekly with assignments in problem solving and/or research using the Canvas Platform. Students will spend five days at the hospital (one day every three weeks) for job shadowing, lecture, video, mentoring, work assignments and observation.

Check with your school counselor for registration and orientation dates!

Where and When: Online Weekly Instruction

Instructor: Camille Shoffner, RDH, BS, MSAH

Observation sessions at North Mississippi Medical Center

*Instructors: Rosalyn Campbell, Career Counselor Coordinator
and Emilee Mann, Employment Assistant*

Dual Enrollment: Students will receive academic credit from both your high school and Northeast Mississippi Community College!
