"Every Student, Every Day"

February 22, 2018

Dear Parents:

Due to the lost instructional time on Thursday, February 15, 2018, Union Township School Corporation will be using Monday, April 2, 2018 as an eLearning day to make up the time. We now have Monday, April 2nd and Friday, April 27th scheduled for eLearning.

On these days, teachers will have all instructional activities and assignments posted on Canvas by 9:00 a.m. They will remain available through Canvas to assist students with any questions they may have on the assignments. Students will be expected to complete the assignments and their attendance will be measured by the completion of the work. Students will have three school days to complete any/all work.

While an adult must accompany the students we will have our labs open at each school on the above eLearning dates. Based on the return of assignments to date, we believe this will be limited use.

Please contact the principal of your child's school should you have any questions about the process. We are excited to join the other schools in Porter County to address lost time in this way. It is our hope that we will be able to use eLearning to address lost time in the future.

Sincerely,

John Hunter
Superintendent
